

HARRISON & HETHERINGTON

Farmstock Auctioneers, Brokers & Valuers

LIMOUSIN

SUMMER SALE OF FEMALES AND YOUNGSTOCK

Friday 14th June 2013

NORMAN HILARY - LOT 103

**To be held at
Borderway Mart, Carlisle, Cumbria CA1 2RS**

BORDERWAY AGRI-EXPO 2013

FRIDAY 1st NOVEMBER 2013

Borderway Centre · Carlisle
Show Office: 01228 406230
www.harrisonandhetherington.co.uk

- National Suckled Calf & Primestock Show
- National Prime Sheep Show
- Also National Breed Society Calf Shows for Aberdeen Angus, British Blue, Hereford, Beef Shorthorn and Simmental and Special Mule Sheep Show

also on show . . .

- Machinery Show & Demonstrations
- Young Farmers Club Competitions
- Trade Stands & Educational Exhibits

MAINLINE SPONSORS

PLEASE BRING THIS CATALOGUE TO THE SALE

'British Limousin Cattle Society Breeders' Sale Catalogue of

103

PEDIGREE LIMOUSIN CATTLE

*(held under BLCS Auction Rules and subject to the recommended
Conditions of Sale of the National Beef Association)*

includes consignments from
FIELDSON, GLENBURN,
HOMEBYRES, LOURIE,
NORMAN, NORMANDE,
RINGWAY & SIDDALL Herds
plus many others followed by youngstock

**Sale to commence at the conclusion
of the bull sale (*see separate catalogue*) - approx 12.30pm**

to be held at Borderway Mart, Rosehill, Carlisle
(adjacent to J43 M6 Motorway)

Auctioneers

HARRISON & HETHERINGTON

IMPORTANT NOTICE TO PROSPECTIVE PURCHASERS

SETTLEMENT & CLEARANCE OF STOCK

Please note that all lots must be settled
on the day of purchase

Completion of a buyers slip is essential for parties
who have not dealt with the company before

New customers and agents wishing to purchase on behalf
of another party must contact the companys main office
48 hours prior to a sale

No Lots can leave the market without a
'pass slip' being issued by the main office

Purchasers From Outside The United Kingdom

Invoices will be raised in pounds sterling.

We request that payment is made to us in pounds sterling
by cheque/bankers draft on the day of sale.

Card facilities are available (2% surcharge on credit cards)

HARRISON & HETHERINGTON
Farmstock Auctioneers, Brokers & Valuers

**IMPORTANT NOTICE
TO PROSPECTIVE PURCHASERS**

ALL LOTS MUST BE SETTLED ON THE DAY OF PURCHASE

Parties who have not dealt with the company before should complete the undernoted form and hand it in to the auctioneers' clerk when a purchase is made.

Alternatively it can be sent to the main office in advance of the sale.

Please fold and detach along this perforation

General Information & Sale Notes

LOCATION: The Sale will be held in the Borderway Mart, Carlisle Cumbria. Motorists should leave the M6 at Junction 43 and follow CARLISLE signs. The market is on the left hand side of the road within 1/4 mile of M6.

TIMETABLE OF EVENTS:

| | | |
|---------------------------|----------------------|---|
| Thursday 13th June | Arrival of Stock | 1pm - 6pm |
| Friday 14th June | Arrival of Stock | 7am - 9am |
| | Identification Check | 8am-10.30am |
| | Sale | At conclusion of Bull Sale (see separate catalogue) |

HOTELS: There are many hotels within the area, ranging from four star to excellent Bed and Breakfast accommodation, a list of which may be found on page 16 of the catalogue.

CONDITIONS OF SALE: The British Limousin Cattle Society have adopted the Auction Rules and Conditions of Sale drawn up by the N.B.A. This Sale is held subject to these rules and the Auctioneers' General Conditions of Sale, both available on request. In the event of any discrepancy between the two sets of conditions, the N.B.A. Conditions of Sale shall prevail.

INSURANCE: A representative of H & H Insurance Brokers, will be present at the sale and will be pleased to quote Purchasers for transit and other risks.

METHOD OF SALE: All cattle will be sold in guineas (105 pence) and strictly in catalogue order, unless any alteration is announced by the Auctioneers.

COMMISSIONS: The Auctioneers will dutifully execute commissions to purchase for buyers unable to attend the sale personally, upon receipt of written instructions.

REGISTRATIONS: All stock in the Sale are registered with the British Limousin Cattle Society, Avenue Q, National Agricultural Centre, Stoneleigh, Kenilworth, Warwickshire CV8 2RA (Tel. 02476 696500).

SEMEN ROYALTY SCHEME BULL REGISTER: Purchasers are asked to note that where a female is catalogued as being served/inseminated by a "Semen Royalty" Sire the appropriate royalty will be payable by the purchaser prior to registration of the calf.

PEDIGREE TRANSFERS: Official Pedigree Transfers will be effected by the Auctioneers and the British Limousin Cattle Society as soon as possible after the Sale. Full pedigrees will be transferred free of charge to all members.

SETTLEMENT AND CLEARANCE OF STOCK: Settlement in full is due immediately at the close of Sale. No animal may leave the Sale Premises without an official 'Pass Slip', obtainable only from the Auctioneers upon settlement.

BRITISH LIMOUSIN CATTLE SOCIETY

Chief Executive: Iain Kerr

*Avenue Q, National Agricultural Centre, Stoneleigh
Kenilworth, Warwickshire CV8 2RA*

Tel: 02476 696500

Fax: 02476 696716

| IMPORTANT NOTICE TO PURCHASERS | |
|--------------------------------|---|
| 1 | This Sale is held subject to recommended Conditions of Sale of the National Beef Association. |
| 2 | This Sale is held subject to the Special Terms and Conditions of Sale recommended for Sales of Pedigree Beef Cattle by the National Beef Association. The preparation of these Terms and Conditions has proved a lengthy and costly process and, in order to defray the legal and other costs involved, and to provide a continuing source of revenue to assist the Association in its vital work for pedigree cattle breeders, The Committee of the NBA have agreed that the following levy to be charged between the vendor and purchaser as follows – Bull Warranty - £3 to the vendor and £3 to the purchaser, Female Warranty - £2 to the vendor and £2 to the purchaser, Each amount will be plus VAT and be charged to the relevant vendor and purchaser accounts. |

BIO SECURITY RULES
HARRISON & HETHERINGTON LIMITED, BORDERWAY MART, CARLISLE
Notice to all Visitors and Traders

Please read and observe the following:

- Excessive dirty vehicles will not be allowed entry, therefore ensure vehicle is clean before arrival.
- All vehicles transporting livestock will be subject to a documentation check before entry to market site.
- All visitors and traders must ensure they wear clean clothing and footwear before entering market site.
- All visitors and traders using car park areas please use main entrance.
- Hauliers and farmers delivering livestock must disinfect their boots before and after loading or unloading.
- Livestock purchased or unsold will not be allowed to move unless an authorised "pass slip" has been issued by the main office.
- No livestock will be allowed to remain on the premises after a sale.
- Only staff, livestock hauliers, owners or their agents are permitted to load or unload livestock.
- Wash hands thoroughly when leaving penna areas.
- Please observe our staff's instructions at all times.

Our on site Biosecurity Officer, Stan Abbot, will only be too pleased to give you assistance.

10. Further Information

1. Estimated Breeding Values

Many factors influence the appearance and performance of a bull, so selecting 'by eye' alone can be misleading. The only accurate way of assessing the genetic potential of an animal (i.e. what it can pass on to its calves) is by using Estimated Breeding Values (EBV's) and Indexes. These are produced by Signet using a system known as BLUP (Best Linear Unbiased Predictor) and are calculated from animals' individual performance records as well as those of all their known relatives, where the effects of the environment (feeding, management, disease, climate etc) are sifted out to leave an estimate of the genetic value for each trait, as follows...

| EBV | What Does the EBV Indicate? | Look for... |
|--|---|---|
| Birth Weight (kg) | Genetic potential for calf weight at birth | High negative EBVs if you want low calf birth weights |
| Calving Ease (%) | Ease with which a bull's progeny will be born | High positive EBVs if you want less assisted calvings |
| Maternal Calving Ease (%) | Ease with which a bull's daughters will calve | High positive EBVs if you want less assisted calvings |
| Gestation Length (days) | Genetic potential for gestation length | High negative EBVs if you want short gestation lengths |
| 200 Day Milk (kg) | The maternal component of 200 day growth (i.e. the contribution that the milking and maternal abilities of a bull's daughters make towards their calves' growth at 200 days of age) | High positive EBVs if you want daughters to wean heavier calves |
| 200 Day Weight (kg) | Genetic potential for growth from birth to 200 days of age | High positive EBVs if you want high growth rates to weaning |
| 400 Day Weight (kg) | Genetic potential for growth from birth to 400 days of age | High positive EBVs if you want high growth rates to finishing |
| Muscle Depth (mm) | Genetic potential for muscularity and potential to increase lean meat yield | High positive EBVs if you want good calf conformation |
| Fat Depth (mm) | Genetic potential for leaner carcasses | High negative EBVs if you want to produce leaner carcasses or take calves to heavier weights without penalty for fatness |
| Age at 1st Calving (%) | Genetic potential for early sexual maturity | High negative EBVs for a greater proportion of heifers that hold to 1 st service |

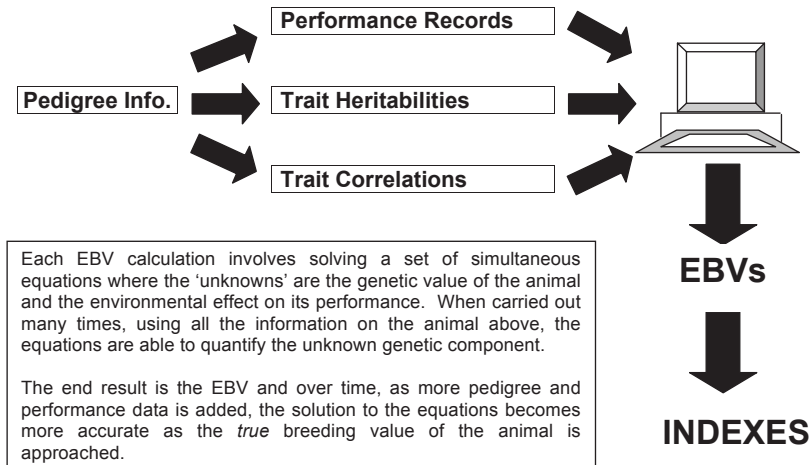

| | | |
|-----------------------------------|---|---|
| Longevity (years) | Genetic potential for long life in the breeding herd | High positive values for animals likely to remain in the herd for longer |
| Calving Interval (days) | Genetic potential for the time taken to get back in calf | High negative values to breed cows that get back in calf quickly |
| Docity (%) | Genetic potential for being calm when handled | High positive values for animals that are likely to be more calm when handled |
| Scrotal Circumference (cm) | Genetic potential for scrotal size. Linked to male serving capacity and puberty of daughters. | High positive values for animals with higher likely serving capacity and earlier maturing daughters. |

2. HOW ARE EBVs CALCULATED?

EBVs are calculated using information from several sources:

- Measurements from the animal itself
- Measurements from the animal's herd mates (known as 'contemporaries' *)
- Measurements from the animal's relatives and their contemporaries
- The degree to which one trait influences another (known as a 'correlation' *)
- The degree to which each trait is passed on to the next generation (known as 'heritability' *)

* Terms explained below

Heritability and Correlations

Heritability

This is a term used to describe the strength with which traits are inherited and it varies depending on the trait in question. Generally:

- Traits associated with reproduction and survival have low heritabilities
- Milk production and early body size have medium heritabilities

- Later growth and carcase traits (i.e. fat and muscle) have relatively high heritabilities

Where traits with relatively good heritability are concerned, when something is known of the performance of one or both parents, then a prediction can be made as to how the offspring will perform and BLUP uses this 'knowledge' to enhance the accuracy of its EBV calculations.

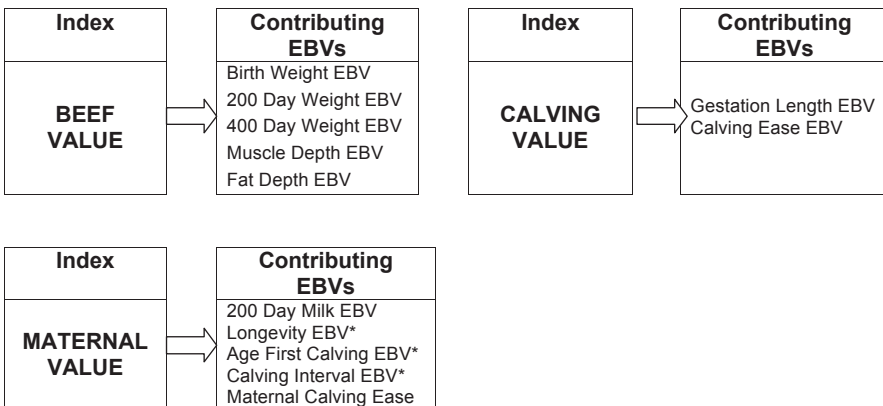

Correlations

This term describes the direction and strength of the association between two traits. For example, some traits are highly positively correlated, such as 200-Day Growth and 400-Day Growth, whilst others are highly negatively correlated, such as 400-Day Growth and Calving Ease. When something is known of one trait but perhaps not another, a prediction can be made based on what is known about the correlation between them. This again enhances the accuracy of the EBV in question and helps deal with situations where records for a trait are limited or unavailable.

3. BREEDING INDEXES

It is often desirable to select animals on the basis of more than one EBV. Indexes focus on specific breeding goals and combine the appropriate EBVs in to a single figure based on their relative economic value. This is widely regarded as the most efficient method of selecting on a number of traits at once.

Signet currently produces three beef Indexes, as follows:

* New EBVs not yet published at breed sales

When using an Index it is important that your breeding objective is broadly similar to that of the Index in question, otherwise you may unwittingly change aspects of your herd that you did not necessarily want to.

4. ACCURACY

An Accuracy Value is published next to every EBV and Index. Accuracy Values are expressed as a % and indicates the quantity and quality of records used to produce the EBV or Index.

Several things affect the accuracy of an EBV or Index, namely:

- The amount of information on the trait from the animal itself
- The amount of information on the trait from relatives of the animal

- The heritability of the trait concerned
- The amount of information from the animal and its relatives on traits correlated with the trait of interest and the strength of the correlations which vary between different traits.
- The number of herd mates from the same management group recorded ('contemporaries').

Scaling for Low Accuracy

An important feature of BLUP EBVs is that they are scaled to account for the amount of performance information on which they are based. EBVs based on very little information get adjusted towards the average EBV and this adjustment applies to both high and low EBVs.

This prevents animals gaining very high or very low EBVs as a result of a few very good or very poor records and is designed to protect the user from risk. The more information available on an animal and its relatives, the less the EBVs are adjusted.

Accuracy Values indicate how similar an animals' EBVs are to its true breeding value. They predict the likelihood that an animals EBVs will change over time

5. EBV INDEXES

To aid interpretation at breed sales, all Limousin EBVs are presented in index form based around an average of 100 with an approximate range of 70 to 130. For example:

| | Calving Value | 200 Day Milk (kg) | 200 Day weight (kg) | 400 Day weight (kg) | Muscle Depth (mm) | Fat Depth (mm) | Beef Value |
|------------|---------------|-------------------|---------------------|---------------------|-------------------|----------------|------------|
| EBV | LM -4C | -1 | +25 | +34 | +3.40 | -0.20 | LM +23 |
| Accuracy % | 85 | 54 | 75 | 73 | 68 | 66 | 73 |
| Index | 77 | 98 | 112 | 106 | 111 | 111 | 108 |

Below average

Above average

6. MATERNAL EBVs

Many commercial and pedigree producers are breeding their own female replacements and need to identify bulls with superior maternal attributes.

200 Day Milk EBV

One of the most important maternal EBVs is the 200 Day Milk EBV – indicating the degree to which 200 day milk is influenced by maternal performance – e.g. milkiness and general mothering ability.

As well as predicting breeding potential for growth to 200 day of age, the 200 day weight can be used to assess an animals breeding potential for milking ability.

Consider the performance of the grand-offspring of a bull. The weights of all of his grandprogeny are influenced by his growth genes, but only those produced by his daughters are affected by his genes for milk.

If the grandprogeny produced by his daughters are constantly heavier than those produced by his sons, then this is likely to be due to his superior genes for milk production.

Interpretation

A bull with an EBV of +4 for 200-Day Milk is expected to produce heifer calves which will have above average maternal characteristics leading to their calves being 2kg heavier at 200-days than calves from heifers sired by a bull with an EBV of 0.

Maternal Calving Ease

This EBV predicts how easily a bull's daughters will calve. It should not be confused with the Calving Ease EBV which predicts how easily a bull's progeny will be born.

The Maternal Calving Ease EBV is calculated from calving records and is expressed as a % indicating the proportion of unassisted calvings.

Interpretation

A bull with a Maternal Calving Ease EBV of 2% will produce females that have 1% more unassisted calvings than a bull with an EBV of 0.

EBVs are also produced for: Longevity, Age at First Calving and Calving Interval but these are not yet published at breed sales.

7. How to Use EBVs and Indexes

EBVs are expressed in the same unit as the recorded trait (e.g. kg for 400-Day Weight, mm for Muscle Depth etc) and are relative to a Breed Benchmark, which is updated and published annually.

Limousin Breed Benchmark 2013

| Trait | BOTTOM | | | AVERAGE | TOP | | |
|-------------------------|--------------|--------------|--------------|-------------|-------------|-------------|-------------|
| | 1% | 10% | 25% | | 25% | 10% | 1% |
| Gestation Length (days) | 3.7 | 1.9 | 1.2 | 0.5 | -0.2 | -1.0 | -2.6 |
| Calving Ease (%) | -8.4 | -4.7 | -3.3 | -2.3 | -1.1 | -0.3 | 1.0 |
| Maternal Calving Ease | -1.0 | -0.2 | 0.2 | 0.6 | 1.0 | 1.2 | 1.7 |
| Birth Weight (kg) | 3.4 | 2.4 | 1.9 | 1.3 | 0.9 | 0.4 | -0.4 |
| Calving Value | LM-4C | LM-2C | LM-1C | LM0C | LM1C | LM2C | LM4C |
| 200-Day Milk (kg) | -6 | -3 | -2 | -1 | 1 | 2 | 5 |
| 200-Day Weight (kg) | -4 | 6 | 12 | 17 | 25 | 32 | 45 |
| 400-Day Weight (kg) | -4 | 13 | 22 | 30 | 43 | 55 | 77 |
| Muscle Depth (mm) | -0.7 | 0.6 | 1.2 | 2.1 | 3.1 | 4.1 | 6.0 |
| Fat Depth (mm) | 0.4 | 0.1 | 0.0 | -0.1 | -0.2 | -0.3 | -0.6 |
| Beef Value | LM6 | LM13 | LM16 | LM20 | LM26 | LM31 | LM41 |
| Maternal Value | LM-21V | LM-9V | LM-3V | LM4V | LM9V | LM16V | LM28V |

When using EBVs it is important to remember that although they can be compared between herds, they can not be compared between breeds.

Using the Breed Benchmark, compare and contrast the EBVs and Indexes of the two young bulls below.

Bull A

| Analysis Date | Calving Value | 200 Day Milk (kg) | 200 Growth (kg) | 400 Growth (kg) | Muscle Depth (mm) | Fat Depth (mm) | Beef Value |
|---------------|---------------|-------------------|-----------------|-----------------|-------------------|----------------|------------|
| 24/10/2008 | LM1C | 4 | 28 | 42 | 4.1 | -0.1 | LM27 |
| EBV | | | | | | | |
| Accuracy % | 57 | 42 | 72 | 69 | 69 | 62 | 63 |
| Index | 100 | 120 | 122 | 117 | 128 | 103 | 120 |

| 100 day wt | 200 day wt | 300 day wt | 400 day wt | 500 day wt | Scanned |
|------------|------------|------------|------------|------------|---------|
| 118 | 253 | 378 | 556 | 710 | Yes |

Bull B

| Analysis Date | Calving Value | 200 Day Milk (kg) | 200 Growth (kg) | 400 Growth (kg) | Muscle Depth (mm) | Fat Depth (mm) | Beef Value |
|---------------|---------------|-------------------|-----------------|-----------------|-------------------|----------------|------------|
| 24/10/2008 | LM4C | -5 | 30 | 52 | 2.0 | 0.3 | LM25 |
| EBV | | | | | | | |
| Accuracy % | 59 | 43 | 73 | 68 | 66 | 60 | 64 |
| Index | 120 | 86 | 124 | 125 | 107 | 76 | 116 |

| 100 day wt | 200 day wt | 300 day wt | 400 day wt | 500 day wt | Scanned |
|------------|------------|------------|------------|------------|---------|
| 126 | 256 | 385 | 568 | 755 | Yes |

- Each bull has been fully weight recorded (i.e. they both have a complete set of 100-day adjusted weights), scanned (the box says 'Yes') and possesses satisfactory accuracy figures, given their age.
- Both bulls have EBVs for growth and carcass traits that are above the breed average, but in several ways their characteristics differ:
 - > Bull A has a higher Muscle Depth EBV
 - > Bull B has the highest EBVs for growth rate (weight) EBVs
 - > Bull A has a 200-Day Milk EBV in the Top10% of the breed
 - > Bull B has a Calving Value in the Top 10% of the breed

Bull A would be the most suitable out of the two for a unit where conformation takes high priority. The high 200-Day Milk Weight EBV would also make it suitable for herds where female replacements are retained for breeding.

The high Calving Value of Bull B indicates that it would be more suitable for mating to heifers. It could also be used in herds where a priority is to improve growth.

Remember

When trying to establish just how much influence a bull will pass on to his progeny it is important to remember to halve the value of the EBV, since the other half of a calf's genes comes from the cow.

For example, a bull with a 400-Day Growth (weight) EBV of +62 is estimated to have the genetic potential to be 62kg heavier at 400 days of age compared to a bull with an EBV of 0.

Based on their sire's genetics, his calves would be expected to be 31kg heavier at that age when compared to calves by a bull with an EBV of 0, since they only inherit half of their growth genes from their sire (the other half coming from their dam).

8. UNDERSTANDING SALE CARDS AND CATALOGUES

Estimated Breeding Values on Sale Cards

EBVs and Indexes are produced on sale cards as shown below:

Bars that lie to the right of the central line indicate the EBV/Index is above breed average (and the further it is to the right, the higher above breed average it is). Similarly, bars to the left of the central line indicate the EBV/Index is below breed average (and the further to the left it is, the further below average it is).

In sale catalogues, the same figures are produced in table format similar to the examples of Bull A and Bull B above. The EBV Index (bottom line) will quickly indicate where values lie in relation to the breed average. The Breed Benchmark printed in the front pages of the catalogue will allow further refinement of this.

9. EBV and PEDIGREE INFORMATION JUST A CLICK AWAY

EBV and pedigree information on all Limousin cattle are just a few internet clicks away...

Step 1: Click the 'Basco Online Herd Book' button on the Limousin Society homepage (www.limousin.co.uk)

Step 2: In the 'All Breeds Quick Search' box type the name or ear number of the animal you are interested in or click on the 'Breeder Search' button to look at all animals belonging to or bred by a particular breeder.

The site will then tell you the animal's owner/breeder details, its EBVs, its pedigree and list its progeny with full links to all of their information.

10. FURTHER INFORMATION

For further information, please contact Alison Glasgow, British Limousin Cattle Society on telephone 01721 730664, e-mail alison@limousin.co.uk or visit the BLCS web site www.limousin.co.uk

WALGATE HELEN

HTI12-003 Born: 22/07/2012 UK 133985/500021
 Sire: *WILODGE TONKA (WEY02-002)

LOURIE HERD

The Lourie herd is descended from the brood female Craigie Ribena, who had a successful show career in her own right; winning Overall Champion at Fife show 2003, as well as breeding a number of show winning progeny. Lourie Vessa (Lot 60) claimed the Interbreed Championship at Fife Show in 2006 and is also the mother of Lourie Dazzle, the second highest priced heifer sold at the Carlisle Red Ladies Derby 2010 when selling for 6,500gns.

The females on offer also contain a wealth of noted paternal genetics; with the likes of Ronick Hawk, Killerton Travis and Rocky all represented and calves at foot or in utero to sires such as Ampertaine Commander, Ionesco and the exciting new prospect Derriaghy Enfield.

To make a booking please call 01228 529255 or email events.hilltop@crerarmgmt.com

Swallow terms and conditions apply. All rates are subject to availability.

HOMEBYRES HERD

This consignment is the first offering from the Homebyres Herd of breeding cows in calf with calves at foot. Harvest Snowdrop and Broadmeadows Dainsi (full sister to Broadmeadows Cannon) have been the most significant purchases in establishing the Homebyres Herd, which registered its first calf in 1984. The stock bulls Ronick Dumbly and Balnacraig Supreme (who have both bred Perth Supreme Champions) along with their respective sons Homebyres Homer and Homebyres Vanhee, have been influential breeders and the majority of cattle on sale are descendants of these proven lines.

The herd is fully recorded and has been in the SAC Premium Health Scheme since 1999.

NEW

9 day proven
activity against
*Mycoplasma bovis*⁴

Draxxin®

Your proven ally in the fight against calf pneumonia¹

Pneumonia is one of the most common diseases in young cattle and can have a significant effect on welfare and profitability. Your vet can advise you on an appropriate prevention plan, which could include both husbandry changes and a vaccination programme. However if pneumonia does strike, Draxxin is an ideal antibiotic to provide a rapid response.

- Proven against the key bacterial causes of pneumonia including *Mycoplasma bovis*
 - In a recent survey 44% of calves with pneumonia tested positive for *Mycoplasma bovis*²
- *Mycoplasma bovis* spreads rapidly, persists and is often poorly responsive to treatment
 - Early recognition and use of an effective long lasting antibiotic are key to treatment success³
 - Draxxin® is the only pneumonia antibiotic proven to provide at least 9 days activity against *Mycoplasma bovis*⁴
- Fast acting – reaches effective levels in lung tissue in just 1 hour⁵
- Long lasting – up to 15 days action⁶
- Easy to use – low volume dose, easy to inject even at low temperatures⁷

The UK's market leading pneumonia antibiotic⁸. Why risk anything else?

Draxxin contains tulathromycin. Do not use in lactating cattle producing milk for human consumption. Meat withdrawal period 49 days [POWV] Use medicines responsibly. (www.noah.co.uk/responsible) Date of preparation, April 2013 AH370/13

NORMAN HERD

Norman Limousins are excited to offer a selection of females with excellent potential. These include heifers from the herds new stock bull; Claragh Franco, whose first crop of calves have been admired by many breeders.

Norman Hillary, who is offered for sale, achieved one of the first accolades for Claragh Franco, winning best heifer in the North West Herd competition 2012.

This is an excellent opportunity to purchase females from the Norman Herd's top maternal lines which in recent sales have bred new herd sires for established pedigree Limousin herds such as Loosebeare, Mclarens, Millgate, Homebyers and Hudscals. The cattle are available for export and can be returned to the farm until they are eligible to go.

**HEALTH AND SAFETY RULES
HARRISON & HETHERINGTON LIMITED
NOTICE TO ALL VISITORS AND TRADERS
PLEASE READ AND OBSERVE THE FOLLOWING**

All visitors and traders on site will be responsible for ensuring that they and their employees or sub-contractors engaged by them comply with all legal requirements, including the Health and Safety At Work etc., Act 1974, The Management of Health and Safety At Work Regulations, The Provision And Use of Work Equipment Regulations, etc.

All visitors and traders will be responsible for ensuring that their operations in no way affect the integrity of the company or its fire, safety or security arrangements and in no way compromise the health and safety and welfare of other visitors to and or employees of Harrison & Hetherington.

Although it is the visitors and traders responsibility to ensure that plant, equipment and systems in work are safe, Harrison & Hetherington Limited reserve the right to ask any visitor or trader to leave the market for any breaches in the Health and Safety Rules and/or Regulations.

Vendors must inform Harrison & Hetherington Limited of any livestock due to attend the market whose temperament, behaviour or condition may call for additional precautions for its safe handling.

When loading or unloading livestock handlers must ensure that the dock and vehicle gates are securely fixed so as to prevent the escape of animals.

Traders are responsible for providing and maintaining suitable livestock handling equipment. They should ensure that livestock handlers are fit, experienced in livestock handling and familiar with the livestock in their charge.

Children must not be permitted in any area where they may be at risk from livestock or machinery.

In the case of bulls, during the period when the show/sale is open to visitors, bulls in stalls or pens should not be left unattended. If the handler is temporarily absent, arrangements should be made with another vendor, steward or member of Harrison & Hetherington staff to oversee the bull until the handler returns.

Handling of Livestock at shows and sales: Harrison & Hetherington Limited recommend that an adult person should accompany any junior person during the showing/sale of livestock in the ring and reserves the right to intervene at any point if, in the company's opinion, the person showing the livestock is at risk in undertaking that activity.

Passageways must be kept clear at all times during the auction sale. **PLEASE DO NOT STAND IN THE SALE RING ENTRANCE AND EXIT PASSAGES.**

The auction ring man escapes and refuges must be kept clear at all times.

All portable electrical equipment supplied and/or used by visitors and traders must be safe and fit for the purpose and should have a valid portable appliance test certificate.

AUCTIONEER'S TERMS & CONDITIONS OF SALE

(Incorporating the Auctioneer's Terms and Conditions as recommended by the National Beef Association)

1. The biddings to be regulated by the Auctioneers and the highest bidder, subject to the Vendor's reserve (if any), to be the purchaser. No bid shall be retracted and if any dispute should arise between two or more bidders, the Lot in dispute to be put up again and resold, or the Auctioneers may determine the dispute at their own discretion and their decision shall be final. The Auctioneers reserve the right to refuse the bid of any person without being called upon to give reason for such action.
2. The Purchaser to give his full name and dwelling place and pay for all Lots purchased immediately at the close of sale. No Lot or Lots shall be removed from the sale premises until paid for and a pass-out slip obtained from the Auctioneer's clerk but each and every Lot shall immediately at the fall of the hammer be considered as delivered and be and remain in every respect at the absolute risk and expense of the respective purchaser or purchasers thereof and shall be removed from the sale premises at the purchaser's expense. The right of property shall not pass until the full purchase price is paid.
3. Purchasers paying by cheque must be prepared, if required, to produce a banker's reference. As a result of the Money Laundering Regulations (2003) the auctioneers are unable to accept cash payments in excess of nine thousand pounds sterling for any any single or linked purchase transaction.
4. All statements in the catalogue, or made by the Auctioneers at the time of sale, also the correct identification of the animals, are the entire responsibility of the Vendors. The Auctioneers take no personal responsibility for the correctness of such statements or identities.
5. All statements in the catalogue, or any made by the Auctioneers at the time of sale relating to any veterinary or other tests are to be taken as statements of fact only. No such statements shall guarantee the purchaser of any animal against loss arising from the subsequent reaction of such animal to any test administered after the sale and the Vendors shall not be liable in any way should this occur.
6. All stock is sold subject to the Conditions of Sale recommended for use at markets by the Livestock Auctioneers' Markets Committee for England and Wales except in so far as these conflict with any Special Conditions applicable to the sale of pedigree stock, when the latter Conditions shall prevail.
7. Neither the Vendors nor the Auctioneers will be responsible for any accident or injury to persons or property, through fire or any other cause whatsoever, nor for any damage by animals prior to, during or after the sale.
8. No undertaking by the Auctioneers or their servants to take charge of any Lot or Lots after the sale or to forward them to their destination shall be held to impose upon the Auctioneers any legal obligation or vitiate any of these Conditions.
9. Inasmuch as the Auctioneers act as agents for a disclosed principal they shall not be considered personally responsible for any default on the part of either purchasers or Vendors and the remedy shall be against them only and not against the Auctioneers.
10. If these conditions are unfulfilled, the Vendors or Auctioneers shall have the power to resell the Lots, retaining any surplus and charging any deficiency and expense to the defaulter.
11. You have a right to know how we will use the information you have provided to us. We may share the information with other members of our group and may make this information available to relevant media groups and other interested parties on request. We and other members of the group may contact you by telephone, e-mail, post or fax to inform you of products or services available. If you do not want to be contacted for marketing purposes or do not wish your information to be made available to any other parties please notify us in writing.
