McCartneys**

**Customer:**    **Yes / No**    (Delete as applicable)

## GENERAL INFORMATION AND SALE NOTES

**LOCATION:**

The Show and Sale will be held at Brecon Livestock Market, which lies conveniently on the last roundabout of the Brecon bypass (off the A40 Llandovery road) and is signposted there from.

### TIMINGS:

The show will commence at 9.30 am followed by the sale at 12 noon

**CONDITIONS OF SALE:**

The sale will be held under the BLCS Auction Rules, and subject to the recommended Conditions of Sale of the N.B.A. Bulls will be sold under BLCS Collective Sale Rules. Females will be sold under BLCS Breeders' Sale Rules.

**METHOD OF SALE:**

All cattle will be sold in guineas (105p)

### PEDIGREE TRANSFERS:

The pedigree transfers will be dealt with by the Society following the sale.

### SETTLEMENT & CLEARANCE OF STOCK:

Settlement in full is due to the Auctioneers at the close of the sale. Any purchasers not known to the Auctioneers must supply a satisfactory reference before removing any stock from the premises.

### T.B. PRE-MOVEMENT TESTING:

As from 1<sup>st</sup> March 2007 all cattle aged 42 days and over are required to be TB tested (and be negative) within 60 days of proposed movement, if they are destined for further breeding/fattening. (i.e. Breeding stock, Store stock) and are in a 1 or 2 year testing parish. If cattle are on farms that are 3 or 4 year testing, they do not need to be tested. ALL CATTLE FROM WALES MUST BE PRE-MOVEMENT TESTED REGARDLESS OF AREA

## DELIVERY OF STOCK & INSPECTIONS

Stock may be delivered to the Market:

Friday, 8<sup>th</sup> MAY

11.00 a.m. – 4.00 p.m.

## ALL Inspections

Friday, 8<sup>th</sup> MAY

2.00 p.m. – 5.00 p.m.

## ALL INSPECTIONS WILL BE ON FRIDAY

## **FOREWORD**

# **LIMOUSIN HERD HEALTH RULES**

This British Limousin Cattle Society Sale is being held under the progressive new herd health rules which have been introduced by the BLCS at nominated premier\* Collective Society Sales. All vendors are to be members of, and in adherence to, the terms of a CHeCS-licenced Health Scheme.

The Society's new herd health policy at sales has two principal elements:

Part 1. From 1st May 2011, herds selling at the premier Collective Society Sales have to be members of, and adhering to, the terms of a CHeCS-approved Herd Health Scheme. At a minimum, this must include a whole herd test for Johne's disease.

Part 2. From 1st May 2011, all animals male and female, including calves at foot, presented at the premier Collective Society Sales be EITHER from a BVD Accredited Herd within a CHeCS-approved Herd Health Scheme OR to have been BVD tested virus free. All animals forward will be required to be BVD vaccinated prior to sale with an approved vaccine. Pregnant animals must have had testing and vaccination completed prior to service. Vaccination of calves at foot to be in accordance with CHeCS guidelines and recommendations.

\*The new Herd Health Rules are in place at all premier BLCS Collective Sales (Stirling February & October; Carlisle February, May, October & December; Brecon February, May & November).

## **Herd Health at British Limousin Cattle Society (BLCS) Collective Sales**

### **Introduction**

Following the cash-back Herd Health Initiative introduced by the Society in 2005, a second major health step saw the introduction of Herd Health Declarations at BLCS Collective Sales from 2007.

The principal aim is to standardise herd health declarations and information presented in order to provide both members and customers alike with clear, accurate herd health information at the point of sale and within the given sale catalogue. As such it is attractive and informative for customers and aims to further raise the level of buyer confidence. New herd health rules were introduced by the BLCS at nominated premier Collective Society Sales from May 2011 and these are now in place at all premier BLCS Collective Sales (Stirling February & October; Carlisle February, May, October & December; Brecon February, May & November).

### **BLCS Herd Health Rules have two principal elements:**

Part 1. From 1st May 2011, herds selling at the premier Collective Society Sales have to be members of, and adhering to, the terms of a CHeCS approved Herd Health Scheme. At a minimum, this must include a whole herd test for Johne's disease.

Part 2. From 1st May 2011, all animals male and female, including calves at foot, presented at the premier Collective Society Sales be EITHER from a BVD Accredited Herd within a CHeCS approved Herd Health Scheme OR to have been BVD tested virus free. All animals forward will be required to be BVD vaccinated prior to sale with an approved vaccine. Pregnant animals must have had testing and vaccination completed prior to service. Vaccination of calves at foot to be in accordance with CHeCS guidelines and recommendations.

### **Herd Health Declaration**

The sale entry form is accompanied by a Herd Health Declaration form asking vendors questions regarding for example: TB status; membership of CHeCS ([www.checs.co.uk](http://www.checs.co.uk)) health schemes (Advance Cattle Health Scheme, AFBI Cattle Health Scheme, Herdsure Cattle Health Improvement Service, HiHealth Herdcare, NML Herdwise, Premium Cattle Health Scheme, Shetland Animal Health Scheme) and Johne's, BVD, IBR and Lepto status. This form is shown here.

A condensed version of the Herd Health Declaration information appears in the Vendors' Index at the front of the respective sale catalogue.

### **Is the Herd Health Declaration compulsory?**

For premier collective sales (Carlisle February, May, October & December; Stirling February & October; Brecon February, May & November) the Herd Health Declaration is compulsory. For reasons of clarity and to provide purchasers with the most accurate information available, vendors are required to complete this at time of entry.

Although not compulsory at other collective sales (Ballymena, Dungannon, Thainstone, Newark & Stirling in May), the Society recommends that vendors complete the Herd Health Declaration. This information then appears in the Vendors' Index within the

catalogue. Where a member has chosen not to complete the Herd Health Declaration, it will simply say 'No Herd Health Declaration'.

### **What Other Health Information may be displayed?**

Vendors are encouraged to apply to their respective CHeCS health scheme for individual animal health cards for display on pens. For an individual animal's test results, or vaccination histories, regarding BVD, IBR, Lepto or Johne's, these are permitted above the sale pens only upon presentation of a signed veterinary declaration to verify that the animal concerned has had a clear test.

Again, for reasons of practicality, no health information notes are to be put in the catalogue footnotes by vendors. Similarly, the Society has requested that no declarations on health information be given by the auctioneer during the sale. Again, the sole purpose of this is to avoid confusion and to try and ensure that the information provided is done accurately, fairly and in a standardised format in the catalogue. This point has been agreed with the auctioneers.

### **Introduction of Johne's Risk Levels from 1<sup>st</sup> January 2013**

From 1<sup>st</sup> January 2013, CHeCS, the self-regulatory body for cattle health schemes in the UK and Ireland, agreed a change to Johne's testing with herds classified on a Risk Level basis of 1 to 5 (with 1 being low risk and 5 high risk).

The Risk Levels are as follows:

Risk Level 1 herds that were previously Accredited

Risk Level 2 herds that have had 1 or more clear qualifying tests

Risk Level 3 herds that have 3% or fewer reactors every year\*

Risk Level 4 herds that have more than 3% reactors every year\*\*

Risk Level 5 herds not in a CHeCS Johne's disease programme and herds with no health plan in place

\* Note, for herds with fewer than 33 animals in the target age range, rather than 3%, Risk Level 3 will be one animal testing positive for Johne's

\*\* Note, for herds with fewer than 33 animals in the target age range, rather than 3%, Risk Level 4 will be more than one animal testing positive for Johne's

### **What if a vendor is selling an animal/s that he did not breed?**

Vendors are still requested to fill in the Herd Health Sale Declaration accordingly.

Prospective customers are advised to speak to vendors directly to acquire accurate health information on animals offered but not bred by the seller.

### **Feedback & more information**

The Society welcomes members' and customers' feedback on the Herd Health Declarations and health policy at sales. If you have further questions, please speak to the Society representatives, Iain Kerr & Richard Saunders, or the Auctioneers.

Disclaimer: The health information above is as supplied by, or on behalf of the breeder.

The responsibility for the accuracy of the information rests solely with the breeder and not with the British Limousin Cattle Society Ltd.

## **PRIZE SCHEDULE & CLASSIFICATION:**

**JUDGE:** Vince Corbett, Temeside Herd

The Show will commence at 9.30 a.m.

Rosettes will be awarded to 1<sup>st</sup>, 2<sup>nd</sup>, 3<sup>rd</sup> and 4<sup>th</sup> in each class.

**BULL and FEMALE CLASSES WILL BE ALLOCATED ON THE DAY**

### **PRE-SALE INSPECTION:**

All Bulls entered for the sale will be inspected by a veterinary Surgeon who will inspect eyes, teeth and testicles. Any abnormalities found to be serious enough will result in the animal(s) being rejected and the necessity to remove such animals from the sale premises. Any other abnormalities such as warts will also be subject to full veterinary inspection. Also all Bulls will be subject to an inspection to include identity, temperament, locomotion and conformation by a Society appointed Inspector as per the Society's byelaws. Bulls will also be weighed and weights declared. Females will be sold under BCLS Breeders' Sale Rules and will be subject to an identity (tag) check only.

### **INSPECTIONS WILL COMMENCE :**

Friday, 8<sup>th</sup> MAY from 2.00 p.m.- 5.00 p.m.

**ALL INSPECTIONS WILL BE ON FRIDAY**

### **UPSET PRICE:**

All bulls above 14 months of age will be subject to an upset price of 2,000gns.

All females above 12 months of age will be subject to an upset price of 800gns.

### **SALE OF CHAMPION:**

Senior and Reserve Senior Champion sold after Lot 20

Junior and Reserve Junior Champion sold after Lot 35

LIMOUSIN

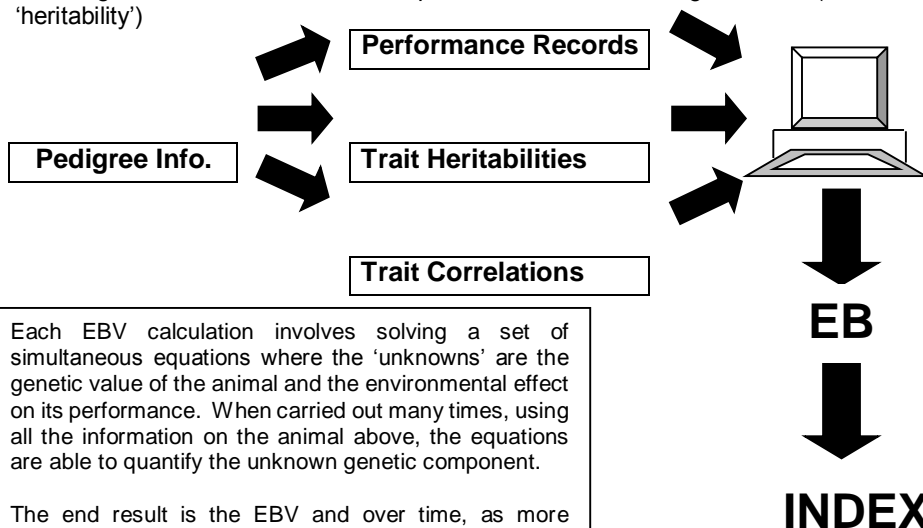

LIMOUSIN PERFORMANCE

## HOW TO USE ESTIMATED BREEDING VALUES (EBVs)

### 1. What Are EBVs?

Many factors influence the appearance and performance of a bull. For example, age, nutrition, management, age of dam, health, season, quality of farm and the genes it has inherited from its parents. The only factor that can be passed on to its calves, however, is its inherited genetic potential. Estimated Breeding Values are measures of that potential and are calculated from the following:

- Measurements from the animal itself
- Measurements from the animal's herd mates (known as 'contemporaries')
- Measurements from the animal's relatives and their contemporaries
- The degree to which one trait influences another (known as a 'correlation')
- The degree to which each trait is passed on to the next generation (known as 'heritability')

Each EBV calculation involves solving a set of simultaneous equations where the 'unknowns' are the genetic value of the animal and the environmental effect on its performance. When carried out many times, using all the information on the animal above, the equations are able to quantify the unknown genetic component.

The end result is the EBV and over time, as more pedigree and performance data is added, the solution to the equations becomes more accurate as the *true* breeding value of the animal is approached.

## 2. What EBV Information Is Available?

EBVs are produced for fourteen traits that focus on an animal's economic performance...

EBV	What Does the EBV Indicate?	Look for...
<b>Birth Weight (kg)</b>	Genetic potential for calf weight at birth	<b>High negative EBVs</b> if you want low calf birth weights
<b>Calving Ease (%)</b>	Ease with which a bull's progeny will be born	<b>High positive EBVs</b> if you want less assisted calvings
<b>Maternal Calving Ease (%)</b>	Ease with which a bull's daughters will calve	<b>High positive EBVs</b> if you want less assisted calvings
<b>Gestation Length (days)</b>	Genetic potential for gestation length	<b>High negative EBVs</b> if you want short gestation lengths
<b>200 Day Milk (kg)</b>	The maternal component of 200 day growth (i.e. the contribution that the milking and maternal abilities of a bull's daughters make towards their calves' growth at 200 days of age)	<b>High positive EBVs</b> if you want daughters to wean heavier calves
<b>200 Day Weight (kg)</b>	Genetic potential for growth from birth to 200 days of age	<b>High positive EBVs</b> if you want high growth rates to weaning
<b>400 Day Weight (kg)</b>	Genetic potential for growth from birth to 400 days of age	<b>High positive EBVs</b> if you want high growth rates to finishing
<b>Muscle Depth (mm)</b>	Genetic potential for muscularity and potential to increase lean meat yield	<b>High positive EBVs</b> if you want good calf conformation
<b>Fat Depth (mm)</b>	Genetic potential for leaner carcasses	<b>Negative EBVs</b> if you want to produce leaner carcasses or take calves to heavier weights without penalty for fatness
<b>Age at 1<sup>st</sup> Calving (%)</b>	Genetic potential for early sexual maturity	<b>High negative EBVs</b> for a greater proportion of heifers that hold to 1 <sup>st</sup> service
<b>Longevity (years)</b>	Genetic potential for long life in the breeding herd	<b>High positive values</b> for animals likely to remain in the herd for longer
<b>Calving Interval (days)</b>	Genetic potential for the time taken to get back in calf	<b>High negative values</b> to breed cows that get back in calf quickly
<b>Docility (%)</b>	Genetic potential for being calm when handled	<b>High positive values</b> for animals that are likely to be more calm when handled
<b>Scrotal Circumference (cm)</b>	Genetic potential for scrotal size. Linked to male serving capacity and puberty of daughters.	<b>High positive values</b> for animals with higher likely serving capacity and earlier maturing daughters.

### 3. What Are Breeding Indexes?

It is often desirable to select animals on the basis of more than one EBV. Breeding Indexes focus on specific breeding goals and combine the appropriate EBVs in to a single figure based on their relative economic value. This is widely regarded as the most efficient method of selecting on a number of traits at once.

Three Breeding Indexes are published at sales, as follows:

\* EBVs not published at breed sales

When using an Index it is important that your breeding objective is broadly similar to that of the Index in question, otherwise you may unwittingly change aspects of your herd that you did not necessarily want to.

## 4. How to Use the Information in This Catalogue

EBVs are expressed in the same unit as the recorded trait (eg kgs for 400 Day Weight, mm for Muscle Depth etc) are relative to the Breed Average. In sale catalogues, Breed Average for each trait is represented by the vertical line that is central on the bar chart. Bars that lie to the right of that line indicate EBVs that are above average. The further to the right they lie, the higher above Breed Average they are. Equally, bars that lie to the left of the line indicate EBVs that are below Breed Average. The further to the left they are, the further below Breed Average they are. An example is as follows:

The central line representing Breed Average for each trait

EBV values are shown & can be used to refine comparison with the breed using the Benchmark below

Accuracy: Accuracy Values are expressed as a % and indicate the quantity and quality of records used to produce each EBV or Index. The closer they are to 100%, the more accurate the EBV. Highly accurate EBVs are less likely to change over time

	EBV	Acc %
Gest. Length (days)	1.1	72
Birth Weight (kg)	2.8	68
Calving Ease (%)	-2.8	59
Mat. Calv. Ease (%)	1.0	46
200 Day Milk (kg)	-3	58
200 Day Growth (kg)	36	75
400 Day Growth (kg)	71	75
Muscle Depth (mm)	4.6	68
Fat Depth (mm)	0.0	52
Beef Value	LIM	37 74
Calving Value	LIM	-1C 68
Maternal Value	LIM	-11V 46

Adjusted weights are the 'raw' weights recorded for the animal, adjusted to the nearest 100 days. No adjustment has been made to account for the effects of the environment, feeding etc.

The numeric EBV values on the charts can be used to further refine comparison with the breed using the Breed Benchmark below. This is updated annually.

## 2015 Limousin Breed Benchmark

Trait	Bottom			Breed Average	Top		
	1%	10%	25%		25%	10%	1%
Birth Weight (kg)	3.8	2.8	2.3	1.7	1.0	0.5	-0.5
Calving Ease (%)	-5.5	-3.9	-3.0	-2.0	-1.0	-0.1	1.5
Mat. Calv. Ease (%)	-1.5	-0.8	-0.4	0.0	0.4	0.8	1.5
Gest. Length (days)	3.6	2.1	1.2	0.3	-0.7	-1.5	-3.0
<b>Calving Value</b>	<b>LM-4C</b>	<b>LM-2C</b>	<b>LM-1C</b>	<b>LM1C</b>	<b>LM2C</b>	<b>LM3C</b>	<b>LM5C</b>
200 Day Growth	-2	8	14	21	27	33	44
400 Day Growth	-4	15	26	38	50	61	80
Muscle Depth (mm)	-1.2	0.5	1.4	2.5	3.6	4.5	6.2
Fat Depth (mm)	-0.5	-0.3	-0.2	-0.1	0	0.1	0.3
<b>Beef Value</b>	<b>LM2</b>	<b>LM11</b>	<b>LM16</b>	<b>LM22</b>	<b>LM28</b>	<b>LM33</b>	<b>LM43</b>
200-Day Milk (kg)	-4	-3	-2	-1	1	2	3
Age 1 <sup>st</sup> Calving (%)	0.16	0.08	0.03	-0.02	-0.06	-0.11	-0.19
Longevity (yrs)	-0.2	0.1	0.3	0.6	0.8	1.0	1.4
Calv. Interval (days)	13.3	9.4	7.1	4.6	2.0	-0.2	-4.1
<b>Maternal Value</b>	<b>LM-25V</b>	<b>LM-13V</b>	<b>LM-7V</b>	<b>LM1V</b>	<b>LM8V</b>	<b>LM15V</b>	<b>LM26V</b>
Scrotal Circ. (cm)	-0.6	-0.2	0.0	0.3	0.5	0.7	1.1
Dolicity (%)	-1.8	0.0	1.0	2.2	3.4	4.4	6.2

## 5. Things to Consider...

- To establish just how much influence a bull will pass on to his progeny it is important to remember to halve the value of the EBV, since the other half of a calf's genes comes from the cow.

For example, a bull with a 400-Day Growth EBV of +62 is estimated to have the genetic potential to be 62kg heavier at 400 days of age compared to a bull with an EBV of 0. His calves would be expected to be 31kg heavier at that age when compared to calves by a bull with an EBV of 0, since they only inherit half of their growth genes from their sire (the other half coming from their dam).

- Select animals using EBVs that are relevant to your farm, cow type and market
- Bear in mind that EBVs predict an animal's economic performance. They are no judge of factors such as soundness, locomotion, breed type etc and you must be satisfied with your potential purchase in these respects too.
- Consider the traits that will make you most money, but
- Don't forget to check traits you may be compromising in pursuit of your goals, such as Calving Ease etc
- EBVs change as time goes on. New calves and new performance records tell us more about animals' breeding potential. Limousin EBVs are updated three times per annum and all values will change as more information is added and the accuracy of the predictions increases.

## 6. EBV & Pedigree Info Just a Click Away

EBV and pedigree information on all Limousin cattle are just a few internet clicks away...

**Step 1:** Click the 'Basco Online Herd Book' button on the Limousin Society homepage ([www.limousin.co.uk](http://www.limousin.co.uk))

**Step 2:** In the 'All Breeds Quick Search' box type the name or ear number of the animal you are interested in or click on the 'Breeder Search' button to look at all animals belonging to or bred by a particular breeder.

The site will then tell you the animal's owner/breeder details, its EBVs, its pedigree and list its progeny with full links to all of their information.

## 7. Further Information

For further information, please contact Alison Glasgow, British Limousin Cattle Society on telephone 01721 730664, e-mail [alison@limousin.co.uk](mailto:alison@limousin.co.uk) or visit the BLCS web site [www.limousin.co.uk/performance-recording/technical-information/](http://www.limousin.co.uk/performance-recording/technical-information/)

LIMOUSIN

# Post-Purchase Management of Young Bulls

Prepared by Ian Pritchard, Beef Specialist, SAC

## Purchase

Buy well in advance to allow time to settle – make it a planned rather than last minute decision. Recommendation is to buy at autumn sale for early spring use or February sale for later spring use or May sale for autumn use

On getting bull home, isolate bull for a month. Check his working capability and health and vaccinate/treat as necessary. A semen test should be carried out. Try and minimise stress

Remember a short working life increases cost

Insurance companies may refuse claims in cases of unsatisfactory management of a bull

## Feeding

Young bulls are in forward condition at sale and should be allowed to lose condition gradually – they are still maturing. Dietary changes should not be sudden – try and find out the diet prior to purchase so that a stable rumen environment can be maintained. Forage alone will not be sufficient to maintain a young bull which may be anything up to 1,000kg in weight. They should be fed to gain at 0.8kg/day

Feed concentrates in at least 2 feeds for one month after purchase. Prior to purchase, a bull will have been fed on a high concentrate level fed frequently per day

A bull will have seen little grass since the suckling period. Ideally do not turn to grass without supplementary feed for at least 4-6 weeks after purchase

*“Do not keep him on a slippery floor surface. Look after his feet by trying to keep him on a partial hard surface”*

## **Housing**

Bulls will have been in individual pens with a lot of human contact (walking/grooming) plus several feeds per day

Do not ignore him post-purchase by keeping him in a confined space or tied in a dark shed. Provide him with human contact and allow him to see his surroundings even though he is in isolation

Do not keep him on a slippery floor surface and certainly do not allow him to serve cows on this surface. Look after his feet by trying to keep him on a partial hard surface

Make sure pen divisions are high and strong – many accidents happen with bulls trying to jump out of pens shortly after arrival

## **Training**

Young bulls are sexually inexperienced

Using prior to sale is resisted as they become harder to handle

Try and pen bulls where they can see cows/ other bulls working

Take a mature cow to him and allow him to serve her several times

## **Working**

Avoid overwork – young bulls are enthusiastic but have low semen reserves

Target 20 cows in the first season

Try and get him to take a bit of supplementary feed to maintain body condition score around 3

Remove from cows if it is apparent condition is being lost – it will only lead to barren cows

Check he is serving correctly (20-40% of bulls could be infertile or sub-fertile) so keep a watchful eye and check herd 3 weeks later. If in doubt, pull him out. It is essential to PD cows after bull removed from herd

*“Provide him with human contact and allow him to see his surroundings”*

## **Annually (for all bulls)**

Being fertile one season is no guarantee. Prior to the next season do bull “MOT” and fertility check in conjunction with vet

Do not trim feet just before use – plan for 6-8 weeks before. Feet and legs do a lot of work in mating season

Feed 2-3kg concentrates per day prior to mating season to build condition ready for an active season

Adapted from “Bull Selection Made Simple – A Guide for the Commercial Buyer” published 2011 by SAC & QMS

## VENDORS' INDEX & HERD HEALTH SUMMARY

The Vendors' Index includes a condensed version of the Herd Health information submitted at point of entry by the vendor. For further information, please see Explanatory Notes & copy of Herd Health Declaration form also included in the catalogue.

*Notes: Ifactor has plenty of width and natural muscle. He is sired by Cowin Benboyr which was sold to the Sarkley herd for 11,000gns. His grand sire is Cowin Bendigeidfran which is one of the growthiest bulls bred on the farm with daughters breeding and milking well. Ifactor has good gestation figures which are in the top 10% of the breed.*

# NOTES

## CONDITIONS OF SALE

1. The highest bidder shall be the purchaser and if any dispute shall arise between two or more bidders, the lot in dispute is to be put up again at the sum last bid or the Auctioneers may declare the purchaser.
2. The bidding is to be ruled by the auctioneers who may without giving any reason refuse to accept the bid of any person.
3. No person shall retract a bid without permission of the Auctioneers, who reserves the right to himself of refusing a bid, and also the right of withdrawing any lot or lots from the sale.
4. No bidder may advance less at a bid than the sum named from time to time by the Auctioneers.
5. The Purchaser must declare their name and address and if required to, pay the Auctioneers or his clerk the amount of purchase money immediately on the fall of the hammer. In default of which the lot or lots shall be offered again and re-sold, and under no circumstances must any lot be removed without first obtaining a pass from the clerk.
6. Title to each asset sold will only pass on payment in full by the Purchaser. Purchasers' attention is drawn to the Retention of Title clause 20.7 on the Conditions of Sale recommended for use in livestock auction markets by the Livestock Auctioneers Association as displayed in the sale office.
7. The Auctioneers reserve the right of deviating from the catalogue either by amalgamation or dividing the lots, as circumstances may require, and also by deviating from the order of sale.
8. The lots are to be under the immediate care of the Purchasers who must take the same with all faults, imperfections and errors of description (if any) and remove the same at their own expense and risk, and no purchaser shall be allowed to remove lots from the premises until the whole of the purchase money is paid.
9. All statements contained in this catalogue as to the authenticity, genuineness, date, age, condition, or quality of any lot are statements of opinion and are not taken as to implying, statements or representations of fact.
10. Intending purchasers must satisfy themselves by inspection as to all such matters as to the physical description of any lot.
11. Neither the Vendor(s) of any lot nor the Auctioneers make or give any representation or warranty as to fitness for purpose or the quality of lots sold.
12. If any lots are described at the time of sale as in 'working order' such lots shall have no defect which renders them incapable of the reasonable work for which they are intended and they must be capable of performing such work.
13. The Purchaser is to make good any damage done to the premises by the removal or otherwise of any lot or lots.
14. The Purchaser shall not be entitled to any right of "Set Off" against the Vendor or the Auctioneer.

15. In the case of lots upon which this is a reserve, the Auctioneers shall have the right to bid on behalf of the seller.
16. Upon failure to comply with the above conditions, the uncleared lots will be re-sold either or by public or private sale and the deficiency (if any) and all expenses attendant thereon, shall be made good by the defaulters at this auction, who shall have no claim for any surplus that may arise.
17. The Auctioneers may rescind any sale within 3 hours of the final lot being sold if the lot has been sold under reserve. In the event of such rescission the purchase price or any part already paid by the Buyer shall be repaid but the parties and the Auctioneers shall be under no further liability to each other.
18. **LIVESTOCK.** ALL LIVESTOCK ARE SOLD WITH THE WARRANTIES AND RESPONSIBILITIES AS LISTED IN THE CONDITIONS OF SALE FOR CATTLE, CALVES, SHEEP AND PIGS AT LIVESTOCK AUCTION MARKETS RECOMMENDED FOR USE BY THE LIVESTOCK AUCTIONEERS ASSOCIATION WHICH ARE DISPLAYED IN THE AUCTIONEER'S OFFICE AT THIS SALE UNLESS SPECIFIC BREED SOCIETY OR NBA CONDITIONS APPLY IN WHICH CASE THEY TAKE PRIORITY.

#### **19. COMPLIANCE WITH ROAD TRAFFIC ACTS**

The Purchaser of any vehicle or trailer is responsible for complying with all legal requirements as to the construction and the use of such vehicle or trailer and for obtaining all certificates, permits or other authorisations necessary before such vehicle or trailer can be used on the road.

#### **20. HEALTH AND SAFETY AT WORK ACT 1974 AND ALL OTHER ACTS AND REGULATIONS APPLICABLE TO FARM SAFETY**

The Purchaser of any lots is responsible for complying with all legal requirements as the safe use of lots purchased at the sale and shall ensure compliance with all relevant legislation relating to the safe use of such lots.

#### **21. TRADE DESCRIPTIONS ACT 1968**

The Vendor is reminded that under the terms of the Traders Description Act 1968 the Vendor of any lots to which a false description is applied may be guilty of a criminal offence punishable by fine or imprisonment.

#### **MEMBER'S ACCOUNTS REGULATIONS 1993 NOTICE REQUIRED UNDER REGULATION 2A**

This sale is not required to comply with the requirements of the Member's Accounts Regulations of the Royal Institution of Chartered Surveyors. No monies paid are covered by any scheme for protection of clients' monies operated by the Royal Institution of Chartered Surveyors. This notice is published in accordance with the requirements of the Royal Institution of Chartered Surveyors from whom a more detailed explanation can be obtained by writing to:
