Nobody Invests More...

Dr. Shane Ratcliffe
Head of Research & Development

...to deliver you, the best return on investment

Research and Development is very important to everyone at Agri-Lloyd. As a wholly owned subsidiary of the privately held Tangerine Group we have unrivalled access to the best brains and equipment in the business, all on our own site, at the group headquarters in Lytham, Lancashire.

As a family owned British company we are very proud of our achievements in helping British farmers become more productive. It's an increasingly competitive environment and in simple terms if you fail so do we, so we can't afford to stand still. Just like you if we don't constantly up our game and improve our product offering we'll be out of business.

The results speak for themselves, Agri-Lloyd customers are consistently winning prizes up and down the country and their livestock are fetching the very 'top money' at auctions day in day out.

Lots of people talk about their Research and Development facilities, **THE DIFFERENCE IS WE HAVE THEM.**

So for the best results, and peace of mind, may we suggest you select Agri-Lloyd products whenever you can.

To learn more about how Agri-Lloyd can help you, contact your local Agri Lloyd agent Jim Wallis on 07929918796 or one of our sales advisors directly on: 0800 4584844

LIMOUSIN DAY

GENERAL INFORMATION & SALE NOTES

LOCATION: The sale will be held at Newark Livestock Market, Great North Road, Newark, Nottinghamshire, NG24 1BY. Tel: 01636 676741, Fax: 01636 611190.
Email: enquiries@newarklivestocksales.com Website: www.newarklivestocksales.com

ACCOMMODATION: Please see a list of local Hotels and Bed & Breakfasts on page 4.

METHOD OF SALE: All Pedigree cattle will be sold in guineas (105 pence) and in strict catalogue order, unless any alterations are announced by the auctioneers. Commercial Cattle will be sold in £s per head.

COMMISSIONS: The Auctioneers will dutifully execute commission to purchase for buyers unable to attend the sale personally, upon the receipt of written instructions.

SETTLEMENT AND CLEARANCE OF STOCK: Settlement in full is due immediately at the close of the Sale. No animal may leave the Sale Premises without an official 'Pass Slip', obtainable only from the Auctioneers upon settlement. Purchasers unable to remove their stock on the day of sale can arrange overnight accommodation with the Auctioneers on the understanding that all cattle are at the Purchasers' risk.

REGISTRATIONS: All Pedigree stock in the sale are registered with the British Limousin Cattle Society, Concorde House, 24 Warwick New Road, Leamington Spa, Warwickshire, CV32 5JG. (Tel 02476 696500)

PEDIGREE TRANSFERS AND FEES: All animals are eligible for transfer free of charge.

SEMEN ROYALTY SCHEME BULL REGISTER: Purchasers are asked to note that where a female is catalogued as being served/inseminated by a 'Semen Royalty' Sire the appropriate royalty will be payable by the purchaser prior to registration of the calf.

VETERINARY INSPECTION: For the buyer's convenience, a Veterinary Inspection will be carried out on all bulls for sale. A Veterinary Officer will examine general health and genetic defects particularly teeth, eyes, testicles, warts and locomotion. Any animal found with a genetic fault, disease or disorder will be rejected.

HERD HEALTH: As stated declared by the Vendor in this catalogue or from the rostrum.

LIMOUSIN DAY

ANY ANIMAL NOT IN POSSESSION OF THE REQUIRED DOCUMENTS WILL NOT BE OFFERED FOR SALE WITHOUT THEIR RESPECTIVE PASSPORT DOCUMENTATION

Important Notice to Vendors

TIMETABLE OF EVENTS:

FRIDAY 8TH APRIL

ARRIVAL OF STOCK 9am to 7pm
INSPECTION OF BULLS 3pm to 7pm

SATURDAY 9TH APRIL

ARRIVAL OF STOCK 5am to 8.00am
INSPECTION OF BULLS 7am to 8.00am
JUDGING COMMENCES 8.30am
SALE COMMENCES 12.00pm

EVERY BULL entered for the Sale **MUST BE ADEQUATELY TRAINED TO BE LED BY HALTER**. All bulls must be provided with a serviceable halter, which will become the property of the Purchaser.

TATTOO MARKS/UK TAGS: All cattle entered for the Sale will have their tattoo marks/UK Tags examined as an integral part of the pre-sale inspection procedure. Any marks found to have faulty, incorrect or illegible marks will be **REJECTED** from the Sale. Vendors are therefore urged, in their own best interests, to examine the tattoo marks of Sale cattle before the animal(s) leave their holding so that faulty marks can be rectified in accordance with the required Society procedures.

The Sale will be held subject to the Auction Rules, Conditions of Sale.

The proceeds of Sale are guaranteed by the Auctioneers, who will account to Vendors on the day of the Sale. Such guarantee however, does not extend to the animals sold for export, to which special conditions apply.

STRAW: Straw will be provided by the Auctioneers free of charge.

ANIMAL WELFARE: Vendors and Purchasers should note the **CODE OF PRACTICE** published by the Livestock Auctioneers' Market Committee for England and Wales **IS OPERATIVE** and that weak, unhealthy or injured stock will be refused entry by the Auctioneers. Enquiries should be directed through the market office to the Auctioneers' **ANIMAL HEALTH & WELFARE OFFICER**.

LIMOUSIN DAY

FORTHCOMING MAJOR SALES

Saturday 2nd July 2016

Highly important Production Sale from the **DINMORE HERD** on behalf of Paul Dawes at Dinmore Manor Estate, Herefordshire.

Saturday 10th September 2016

Society Show and Sale of Pedigree Beltex Breeding Males and Females.

Saturday 24th September 2016

Society Show and Sale of Pedigree Texel Breeding Males and Females.

Saturday 8th October 2016

“Autumn Limousin Day” Official Society Show and Sale of Pedigree Limousin Cattle on behalf of The British Limousin Cattle Society in Association with The East Midlands Limousin Cattle Breeders Club.

Monday 10th October 2016

778th Corby Glen Sheep Fair Grass Field Sale of all Classes of Breeding, Rams and Store Sheep.

Saturday 26th November 2016

“Winter Warmers Show and Sale” of Pedigree Texel, Beltex and Suffolk Breeding Sheep along with other breeds.

Monday 28th November 2016

“Winslow Christmas Primestock Show” held in Winslow Market Square for all classes of Cattle and Sheep

Wednesday 30th November 2016

“Newark Christmas Primestock Show” for all classes of Cattle, Sheep and Pigs.

LIMOUSIN DAY

LIMOUSIN

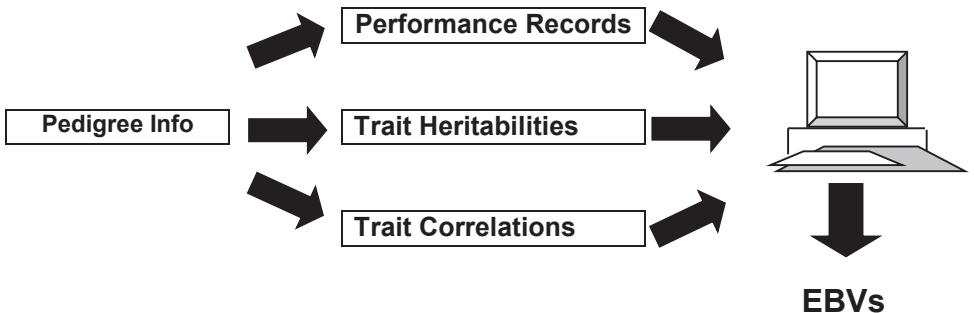

LIMOUSIN PERFORMANCE RECORDING

1. What Are EBVs?

Many factors influence the appearance and performance of a bull. For example, age, nutrition, management, age of dam, health, season, quality of farm and the genes it has inherited from its parents. The only factor that can be passed on to its calves, however, is its inherited genetic potential. Estimated Breeding Values are measures of that potential and are calculated from the following:

- Measurements from the animal itself
- Measurements from the animal's herd mates (known as 'contemporaries')
- Measurements from the animal's relatives and their contemporaries
- The degree to which one trait influences another (known as a 'correlation')
- The degree to which each trait is passed on to the next generation (known as 'heritability')

Each EBV calculation involves solving a set of simultaneous equations where the 'unknowns' are the genetic value of the animal and the environmental effect on its performance. When carried out many times, using all the information on the animal above, the equations are able to quantify the unknown genetic component.

The end result is the EBV and over time, as more pedigree and performance data is added, the solution to the equations becomes more accurate as the *true* breeding value of the animal is approached.

INDEXES

2. What EBV Information Is Available?

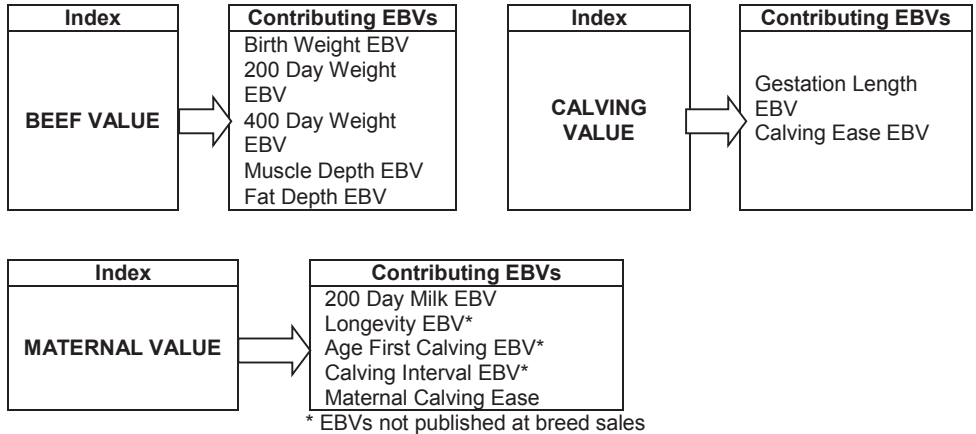

EBVs are produced for fourteen traits that focus on an animal's economic performance...

| EBV | What Does the EBV Indicate? | Look for... |
|--|---|--|
| Birth Weight (kg) | Genetic potential for calf weight at birth | High negative EBVs if you want low calf birth weights |
| Calving Ease (%) | Ease with which a bull's progeny will be born | High positive EBVs if you want less assisted calvings |
| Maternal Calving Ease (%) | Ease with which a bull's daughters will calve | High positive EBVs if you want less assisted calvings |
| Gestation Length (days) | Genetic potential for gestation length | High negative EBVs if you want short gestation lengths |
| 200 Day Milk (kg) | The maternal component of 200 day growth (i.e. the contribution that the milking and maternal abilities of a bull's daughters make towards their calves' growth at 200 days of age) | High positive EBVs if you want daughters to wean heavier calves |
| 200 Day Weight (kg) | Genetic potential for growth from birth to 200 days of age | High positive EBVs if you want high growth rates to weaning |
| 400 Day Weight (kg) | Genetic potential for growth from birth to 400 days of age | High positive EBVs if you want high growth rates to finishing |
| Muscle Depth (mm) | Genetic potential for muscularity and potential to increase lean meat yield | High positive EBVs if you want good calf conformation |
| Fat Depth (mm) | Genetic potential for leaner carcasses | Negative EBVs if you want to produce leaner carcasses or take calves to heavier weights without penalty for fatness |
| Age at 1st Calving (%) | Genetic potential for early sexual maturity | High negative EBVs for a greater proportion of heifers that hold to 1 st service |
| Longevity (years) | Genetic potential for long life in the breeding herd | High positive values for animals likely to remain in the herd for longer |
| Calving Interval (days) | Genetic potential for the time taken to get back in calf | High negative values to breed cows that get back in calf quickly |
| Docility (%) | Genetic potential for being calm when handled | High positive values for animals that are likely to be more calm when handled |
| Scrotal Circumference (cm) | Genetic potential for scrotal size. Linked to male serving capacity and puberty of daughters. | High positive values for animals with higher likely serving capacity and earlier maturing daughters. |

3. What Are Breeding Indexes?

It is often desirable to select animals on the basis of more than one EBV. Breeding Indexes focus on specific breeding goals and combine the appropriate EBVs in to a single figure based on their relative economic value. This is widely regarded as the most efficient method of selecting on a number of traits at once.

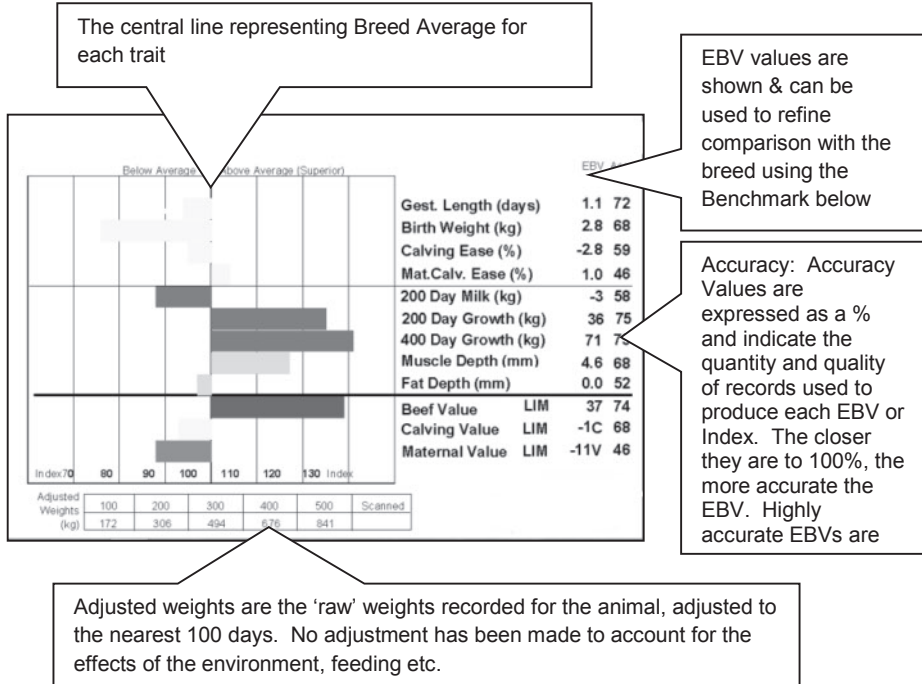

Three Breeding Indexes are published at sales, as follows:

When using an Index it is important that your breeding objective is broadly similar to that of the Index in question, otherwise you may unwittingly change aspects of your herd that you did not necessarily want to.

4. How to Use the Information in This Catalogue

EBVs are expressed in the same unit as the recorded trait (eg kgs for 400 Day Weight, mm for Muscle Depth etc) are relative to the Breed Average. In sale catalogues, Breed Average for each trait is represented by the vertical line that is central on the bar chart. Bars that lie to the right of that line indicate EBVs that are above average. The further to the right they lie, the higher above Breed Average they are. Equally, bars that lie to the left of the line indicate EBVs that are below Breed Average. The further to the left they are, the further below Breed Average they are. An example is as follows:

The numeric EBV values on the charts can be used to further refine comparison with the breed using the Breed Benchmark below. This is updated annually.

The numeric EBV values on the charts can be used to further refine comparison with the breed using the Breed Benchmark below. This is updated annually.

LIMOUSIN DAY

2016 Limousin Breed Benchmark

| Trait | Bottom | | | Breed Average | Top | | |
|---------------------------------|---------------|---------------|--------------|------------------|-------------|--------------|--------------|
| | 1% | 10% | 25% | | 25% | 10% | 1% |
| Birth Weight (kg) | 3.8 | 2.8 | 2.3 | 1.7 | 1.0 | 0.5 | -0.5 |
| Calving Ease (%) | -5.5 | -3.9 | -3.0 | -2.0 | -1.0 | -0.1 | 1.5 |
| Mat. Calv. Ease (%) | -1.5 | -0.8 | -0.4 | 0.0 | 0.4 | 0.8 | 1.5 |
| Gest. Length (days) | 3.6 | 2.1 | 1.2 | 0.3 | -0.7 | -1.5 | -3.0 |
| Calving Value | LM-4C | LM-2C | LM-1C | LM1C | LM2C | LM3C | LM5C |
| 200 Day Growth | -2 | 8 | 14 | 21 | 27 | 33 | 44 |
| 400 Day Growth | -4 | 15 | 26 | 38 | 50 | 61 | 80 |
| Muscle Depth (mm) | -1.2 | 0.5 | 1.4 | 2.5 | 3.6 | 4.5 | 6.2 |
| Fat Depth (mm) | -0.5 | -0.3 | -0.2 | -0.1 | 0 | 0.1 | 0.3 |
| Beef Value | LM2 | LM11 | LM16 | LM22 | LM28 | LM33 | LM43 |
| 200-Day Milk (kg) | -4 | -3 | -2 | -1 | 1 | 2 | 3 |
| Age 1 st Calving (%) | 0.16 | 0.08 | 0.03 | -0.02 | -0.06 | -0.11 | -0.19 |
| Longevity (yrs) | -0.2 | 0.1 | 0.3 | 0.6 | 0.8 | 1.0 | 1.4 |
| Calv. Interval (days) | 13.3 | 9.4 | 7.1 | 4.6 | 2.0 | -0.2 | -4.1 |
| Maternal Value | LM-25V | LM-13V | LM-7V | LM1V | LM8V | LM15V | LM26V |
| Scrotal Circ. (cm) | -0.6 | -0.2 | 0.0 | 0.3 | 0.5 | 0.7 | 1.1 |
| Docility (%) | -1.8 | 0.0 | 1.0 | 2.2 | 3.4 | 4.4 | 6.2 |

5. Things to Consider...

- To establish just how much influence a bull will pass on to his progeny it is important to remember to halve the value of the EBV, since the other half of a calf's genes comes from the cow.

For example, a bull with a 400-Day Growth EBV of +62 is estimated to have the genetic potential to be 62kg heavier at 400 days of age compared to a bull with an EBV of 0. His calves would be expected to be 31kg heavier at that age when compared to calves by a bull with an EBV of 0, since they only inherit half of their growth genes from their sire (the other half coming from their dam).

- Select animals using EBVs that are relevant to your farm, cow type and market
- Bear in mind that EBVs predict an animal's economic performance. They are no judge of factors such as soundness, locomotion, breed type etc and you must be satisfied with your potential purchase in these respects too.
- Consider the traits that will make you most money, but
- Don't forget to check traits you may be compromising in pursuit of your goals, such as Calving Ease etc

6. EBV & Pedigree Info Just a Click Away

EBV and pedigree information on all Limousin cattle are just a few internet clicks away...

Step 1: Click the 'Basco Online Herd Book' button on the Limousin Society homepage (www.limousin.co.uk)

Step 2: In the 'All Breeds Quick Search' box type the name or ear number of the animal you are interested in or

click on the 'Breeder Search' button to look at all animals belonging to or bred by a particular breeder.

The site will then tell you the animal's owner/breeder details, its EBVs, its pedigree and list its progeny with full links to all of their information.

7. Further Information

For further information, please contact Alison Glasgow, British Limousin Cattle Society on telephone 01721 730664, e-mail alison@limousin.co.uk or visit the BLCS web site www.limousin.co.uk/performance-recording/technical-information/

Calving Record 1 12/02/2015 – Born Dead
 2 14/02/2016 F – At Foot

Her Heifer Calf at Foot:

HONESBERIE MAGIE
 Born 14/02/2016 HRO16-1405 UK 203272/101405
 Sire: HIDALGO (12-13-007-982)

Honesberie Harriet is by Tastevin (33-30-021-849) a great female maker, out of Honesberie Ellie (33-30-021-849) an Eleazar (19-89-009-820) daughter, great potential as a female good milking and calving. Her promising looking calf by Hidalgo (12-13-007-982) RJ at Lanaud seems a great prospect.

PD in calf on 23/02/2016

Her Heifer Calf at Foot:

CHAMERAN LUCY

Born 15/09/2015

HVQ15-0032

UK 271790/300032

Sire: WILODGE GOLDCARD (WEY11-009)

Due to a change in our farm policy and limited facilities the owner has decided to sell his Limousin and focus on a single breed. During late Summer 2014 **Netherhall Holly** developed Summer Mastitis, and as a result of this has lost the function in her two rear quarters. However, **Holly** has reared her first calf **Chameran Lucy**, at foot, well on two quarters.
