BIO SECURITY RULES
HARRISON & HETHERINGTON LIMITED, BORDERWAY MART, CARLISLE
Notice to all Visitors and Traders

Please read and observe the following:

- Excessive dirty vehicles will not be allowed entry, therefore ensure vehicle is clean before arrival.
- All vehicles transporting livestock will be subject to a documentation check before entry to market site.
- All visitors and traders must ensure they wear clean clothing and footwear before entering market site.
- All visitors and traders using car park areas please use main entrance.
- Hauliers and farmers delivering livestock must disinfect their boots before and after loading or unloading.
- Livestock purchased or unsold will not be allowed to move unless an authorised "pass slip" has been issued by the main office.
- No livestock will be allowed to remain on the premises after a sale.
- Only staff, livestock hauliers, owners or their agents are permitted to load or unload livestock.
- Wash hands thoroughly when leaving pennage areas.
- Please observe our staff's instructions at all times.

Our on site Biosecurity Officer, Stuart Graham, will only be too pleased to give you assistance.

First in the Field...

General Information & Sale Notes

LOCATION: The Sale will be held in the Borderway Mart, Carlisle Cumbria. Motorists should leave the M6 at Junction 43 and follow CARLISLE signs. The market is on the left hand side of the road within 1/4 mile of M6.

Timetable of Events:-

Thursday 3rd May	Arrival of Stock	11am - 4pm
	Inspection of Stock	2pm - 6pm
	Mart closes and gates are locked	10pm
Friday 4th May	Mart gates open	6am
	Judging of all classes and championships	9am
	Sale of Females	5pm
	Mart closes and gates are locked	10pm
Saturday 5th May	Mart gates open	6am
	Sale	10.30am

HOTELS: There are many hotels within the area, ranging from four star to excellent Bed and Breakfast accommodation, a list of which may be found on page 4 of the catalogue.

CONDITIONS OF SALE: The British Limousin Cattle Society have adopted the Auction Rules and Conditions of Sale drawn up by the N.B.A. This Sale is held subject to these rules and the Auctioneers' General Conditions of Sale, both available on request. In the event of any discrepancy between the two sets of conditions, the N.B.A. Conditions of Sale shall prevail.

INSURANCE: A representative of the H&H Insurance Brokers, will be present at the sale and will be pleased to quote Purchasers for transit and other risks.

METHOD OF SALE: All cattle will be sold in guineas (105 pence) and strictly in catalogue order, unless any alteration is announced by the Auctioneers.

COMMISSIONS: The Auctioneers will dutifully execute commissions to purchase for buyers unable to attend the sale personally, upon receipt of written instructions.

REGISTRATIONS: All stock in the Sale are registered with the British Limousin Cattle Society (Tel 02476 696500).

PEDIGREE TRANSFERS: Official Pedigree Transfers will be effected by the Auctioneers and the British Limousin Cattle Society as soon as possible after the Sale. Full Pedigrees will be transferred free of charge to all members.

SETTLEMENT AND CLEARANCE OF STOCK: Settlement in full is due immediately at the close of Sale. No animal may leave the Sale Premises without an official 'Pass Slip', obtainable only from the Auctioneers upon settlement.

Purchasers unable to remove their stock on the day of sale can arrange overnight accommodation with the Auctioneers on the understanding that all cattle are at Purchasers' risk.

ANIMAL WELFARE: Vendors and Purchasers should note the CODE OF PRACTICE published by the Livestock Auctioneers' Market Committee for England and Wales IS OPERATIVE IN BORDERWAY MART and that weakly, unhealthy or injured stock will be refused entry by the Auctioneers. Enquiries should be directed through the market office to the Auctioneers' ANIMAL HEALTH & WELFARE OFFICER (Mr Andrew Templeton).

Important Notice to Vendors & Purchasers

ARRIVAL OF STOCK - As per timetable of events (page 6).

PRE-SALE INSPECTION: All animals entered for the sale must be available for inspection, as per the timetable of events. A Veterinary Officer will examine all animals forward for general health and genetic defects, particularly teeth, eyes, testicles and warts. Appointed Society Inspector will check general conformation, locomotion and breed characteristics and temperament. Any animal discovered with a genetic fault, disease or disorder will be REJECTED. Animals will be placed in a crush for this inspection - as required by the Veterinary Officer. The Veterinary inspection will form an integral part of the pre-sale inspection procedure.

Please note - "All animals are subject to a pre-sale inspection to provide a minimum standard and animals are sold with all patent defects, and any subsequent claim after the fall of the hammer is against the vendor and not The British Limousin Cattle Society Ltd".

MARGINAL TEETH - Any bull found to have marginal teeth when inspected will have their sale ticket marked in yellow. Bulls with marginal teeth will be eligible to be shown in the pre-sale show.

BLCS RECORDED WEIGHTS - All bulls will be weighed by BLCS Officials as an integral part of the pre-sale inspection procedure. Official weights (in kgs) will be displayed above each pen.

EVERY BULL entered for the Sale, **MUST BE ADEQUATELY TRAINED TO LEAD BY HALTER** and **MUST BE PARADED FOR INSPECTION** unless exempted by the Stewards, at the time and place to be notified. Evidence of faults of temperament, vices, etc., may lead to disqualification. All bulls must be provided with a serviceable halter, which will become the property of the purchaser.

IDENTIFICATION MARKS: All cattle entered for the sale must be tagged in accordance with the Ministry requirements for beef animals.

Please ensure all cattle passport documentation is handed to the Market Sales Office upon arrival. Failure to do so or if for any reason the paperwork does not correspond to the cattle being offered for sale, such animals will be not be put forward for the auction. The Sale will be held subject to the Auction Rules, Conditions of Sale and Special Regulations of the British Limousin Cattle Society.

The proceeds of sale are guaranteed by the Auctioneers, who will account to Vendors on the day of the Sale. Such guarantee, however, does not extend to the animals sold for export, to which special conditions apply.

UPSET PRICES - There will be an 'Upset' price of 2000 guineas on each bull presented for sale - i.e. if no opening bid of 2000 guineas is received for any particular lot, that lot will be passed out of the ring unsold.

RESERVE PRICES: Vendors shall have the right to refuse to accept the final bid for their animals. The auctioneers reserve the right to charge half commission on the amount of the final bid in the case of animals which fail to reach the Vendors reserve price.

All animals will be sold in guineas (105 pence) and a commission of 5% will be charged by the Auctioneers on all sales. A further levy of 1% will be charged and paid to the British Limousin Cattle Society. No animal may be sold privately before being passed through the auction ring and FULL COMMISSION will be charged on the sale of any animal sold by private treaty after the auction. All such transactions MUST BE PASSED THROUGH THE AUCTIONEERS OFFICE.

SALE OF CHAMPIONS - Championship winners will be sold as follows -

Senior Champion and Reserve after Lot 222

Intermediate Champion and Reserve after Lot 306

Junior Champion and Reserve after Lot 373

PRIZE MONEY - will be withheld unless the winners are sold, either by auction or private treaty.

STRAW: A limited amount of bedding straw will be provided by the Auctioneers free of charge. Additional straw, if required, may be purchased from the Auctioneers.

EMBRYOS SOLD IN AID OF CHARITY

for the NI Children's Hospice

The NI Limousin Cattle Breeders Club is running a charity auction in aid of the NI Children's Hospice and to help with raising funds, below are 3 lots of embryos to be sold by auction on Saturday 5th May at 10.30am.

After hearing the story of Graham and Joanne McFarland the NI Club have sprung into action with a plan to raise funds for the NI Children's Hospice who has supported the family recently. Graham's brother Howard runs the Rahoney herd in Trillick, Co Tyrone.

Graham and Joanne's son Andrew is struggling with a rare neurodegenerative condition, a variant form of Late Infantile Batten Disease (CLN5) which causes blindness, complex epilepsy, along with the loss of mobility, the ability to communicate and swallow. To read the full story go to the BLCS web page - <http://limousin.co.uk/2018/03/ni-limousin-breeders-rally-in-aid-of-local-childrens-hospice/>

CHARITY LOTS

2 x Grade A Embryos kindly donated by AW Jenkinson - Whinfellpark Herd

Breeding of Embryos:

Dam Whinfellpark Femi (by Wilodge Cerberus)
Sire Lowerffrydd Empire

Embryos will be full siblings to **Whinfellpark Lomu**, the only retained stock bull at Whinfellpark. **Whinfellpark Femi (dam)** is a daughter of the reputable **Wilodge Cerberus** and **Lowerffrydd Empire (sire)** a son of **Objat**; his progeny has been proven in many sale rings. Embryos for UK use only.

1 x Grade A Embryo kindly donated by Henry Savage - Trueman Herd

Breeding of Embryo:

Dam Cookstown B1425
 (by Cookstown Villy daughter with Mas Du Clo in her pedigree and out of Cookstown Nuala)
Sire Ampertaine Elgin OR Dinmore Goldcrest

Embryo will be sibling to the noted **Trueman Grazia** who sold for 14,000gns when she topped the British Limousin Cattle Society's Red Ladies Derby at Carlisle Dec 2012. **Grazia** then took the Female Championship at the Royal Welsh Show in 2016 and is the dam of the 147,000gns world record **Trueman Jagger**.

1 x Grade A Embryo kindly donated by R & J Graham - Grahams Herd

Breeding of Embryo:

Dam Grahams Coffee (by Millington Vascular)
Sire Claragh Franco

This is currently the only grade A embryo in storage and the only embryo ever offered for sale from the mating of **Grahams Coffee** and **Claragh Franco**. This mating needs no introduction, with this successful combination already producing show winners and sale toppers, with 5 cattle from this mating sold at auction grossing 146,500gns. In the form of **Grahams Lorenzo** 40,000gns, **Grahams Natalie** 38,000gns, **Grahams Lilly** 32,000gns, **Grahams Nashville** 20,000gns and **Grahams Lillie** 16,500gns and half brother **Grahams Humphrey** 37,000gns. This is a unique opportunity to get your hands on quite simply the best of breeding from the heart of the Grahams herd.

BULLS CLASS ONE

COWIN MX FACTOR is a long stylish bull with good structure. He is clean with good lines and growth for age. **Mxfactor** has tremendous combination of EBVs, average calving value, with growth, muscle and milk in the top 1% of the breed. His mother is very milky and is sired by **Cowin Bendigeidfran** who was a RWAS class winner.

LODGE MO has been Myostatin tested and carries 2 copies of the F94L double muscle gene, dubbed by the BLCS as the Profit Gene. The Lodge herd was judged Best Overall herd in the Scottish Limousin Club herd competition in 2017. In the same competition **Lodge Mo** won best bull born in 2016. **Lodge Indie (dam)** won Senior Limousin and Interbreed Champion Stars of the Future Calf Show Nov 2014.

When looking for value, we'll give you more

At H&H Insurance Brokers, we know that it's not just the price of your policy, or the level of cover it provides that's important.

That's why with us, we give you more than just access to the widest range of insurers, we also negotiate on your behalf to ensure you get exactly the right policy – and at the best possible price.

And with ongoing expert advice provided for free, we're fast becoming the insurance broker of choice for the region's agricultural community.

Why not speak to one of our farm insurance experts today on 01228 406 290 for a 'no obligation' quote.

TOMSCHOICE NAPOLEON is 3/4 brother (Eravelle x Drummie) to **Tomschoice Ironstone** and **Tomschoice Imperial** sold to Progressive Genetics, Ireland. He will be semen tested prior to sale and is DNA parentage tested and carries 2F94L myostatin genes. He has run outside during the day when possible. **Napoleon** is in the top 1% of the breed for Gestation Length and Calving Value and should be very suitable for use on heifers.

Haltcliffe Gina 6,500gns, Haltcliffe Magic 5,200gns and Haltcliffe Melody 5,000gns Haltcliffe Reduction sale Carlisle Jan 2018. Beachmount Major 10,500gns Carlisle Feb 2018.

TRUEMAN IDOL (SLN13-6252) sire – Ampertaine Elgin, dam – Trueman Euphonium (by Wilodge Vantastic). Purchased for 17,000gns Carlisle Feb 2015. He is extremely easy calving. Progeny Includes Garneedd Max 12,000gns Carlisle oct 2017.

TRUEMAN JAGGER (SLN14-6436) sire – Ampertaine Gigolo, dam – Trueman Grazia (by Haltcliffe Vermont). Trueman Jagger is the world record Limousin bull sold at Carlisle 2015 for 140,000gns. Progeny includes Trueman Mozart Overall Male Champion and sold for 15,000gns Carlisle Oct 2017. Trueman Jagger sired the last Carlisle Champion and Senior Female Champion (Foxhillfarm Madonna) Stars of the Future calf show 2017. Trueman Miranda 7,000gns Carlisle Feb 2018.

WANTHWAITE JACKAL (BQX14-838) sire – Carntoger Captain, dam – Wanthwaite Farmersgirl (by Hafodlas Rolo).

WHINFELLPARK IAGO (JFQ13-061) SIRE – Lowerfrydd Empire, dam – Whinfellpark Flair (by Wilodge Cerberus). Progeny includes Norman Marley 14,000gns Carlisle Feb 2018.

WILODGE CERBERUS (WEY07-010) sire – Wilodge Tonka, dam – Wilodge Priceless (by Broadmeadows Cannon). Sold for 50,000gns Carlisle Oct 2008 to join the Whinfellpark herd. Progeny includes Whinfellpark Fanzine 9,000gns & Whinfellpark Fairley 5,500gns Carlisle Weaned Calf Sale Dec 2010. Whinfellpark Fizzle 9,200gns, Whinfellpark Festive Reserve Junior male Champion and sold for 8,500gns Carlisle May 2011. Whinfellpark Flamboyant 12,000gns Intermediate Champion Carlisle Oct 2011. Whinfellpark Gateaux 5,500gns Weaned Calf sale Carlisle 2011. Ampertaine Foreman Reserve Supreme Champion Carlisle Feb 2012 Selling for 38,000gns. Wilodge Goldenmoment 10,000gns, Wilodge Gracies 8,000gns, Wilodge Goldrush 8,000gns Wilodge Goldenglow 6,000gns & Wilodge Golddust 5,000gns Carlisle June 2012. Dyfri Glynswr 8,000gns Carlisle Oct 2012. Kaprico Helen 5,000gns Weaner Calf sale Carlisle Dec 2012. Rahoney Geoffrey, reserve supreme champion and sold for 23,000gns, Goldies Gemini 9,000gns Carlisle Feb 2013. Titchburn Heros Wilodge Cerberus 11,000gns, Goldies Hawk 9,000gns and Titchburn Honour 8,000gns Carlisle Oct 2013. Ronick Gleeful 7,000gns and Trueman Holly 5,000gns Red Ladies Derby Carlisle Dec 2013. Ampertaine Heather 6,900gns Cowporation Dispersal Carlisle March 2014. Aultside Hulk Reserve Overall Champion and top price, 55,000gns Carlisle May 2014. Trueman Hannah 5,000gns Carlisle May 2014. Mystic Gucci 6,200gns Glenrock Sale, Carlisle August 2014. Barrons Jell 4,000gns Weaned calf sale Carlisle Nov 2014. Barrons Lumberjack 6,000gns Carlisle Weaned Calf sale December 2015. Aultside Lionheart 7,500gns Carlisle Oct 2016. Aultside Mystique 18,000gns Carlisle Red Laides Derby Dec 2017. Aultside Meanmachine Supreme & Junior Champion and sold for the top price of 65,000gns Carlisle Feb 2018.

WILODGE FASTRAC (WEY10-002) sire - Wilodge Vantastic, dam – Hazelhead Annie (by Sympa). Top priced Limousin bull in 2011 and ranks in the top 1% of the breed with a beef value of +46. Progeny includes Allianfauld Invincible 10,000gns Carlisle May 2014; Twemlows Idol 6,000gns Carlisle Oct 2014. Bumbank Jenny 6,800gns Weaned calf sale Carlisle Nov 2014. Goldies Iris 4,000gns Goldies sale Carlisle May 2015. Saunders Logic 12,000gns Carlisle May 2016. Sarkley Laird 8,000gns Carlisle Oct 2016. Fastrac has been found to be very easy calving.

WILODGE GOLDCARD (WEY11-009) sire - Wilodge Cerberus, dam - Sarkley Bellola (by Cloughhead Lord). Wilodge Goldcard was sold privately to Cogent Breeding Ltd in 2012 aged 14 months of age. He is the maternal brother of Wilodge Dallaglio, Overall Male Limousin and Elite Bull Champion Royal Welsh Show 2009 and top price Carlisle October 2009, 30,000gns and the full brother of Wilodge Goldenmoment, 10,000gns, Wilodge Goldrush 8,000gns, Wilodge Goldenglow 6,000gns and Wilodge Golddust 5,000gns, sold at the Wilodge production sale June 2012.

WOODROAD JAMES (IE241241661656) sire – Woodroad Harvey, dam – Woodroad Heather (by Wilodge Vantastic). Woodroad James has had a great show career winning numerous Championships including Reserve Overall European Bull Champion 2016.

LIMOUSIN PERFORMANCE RECORDING

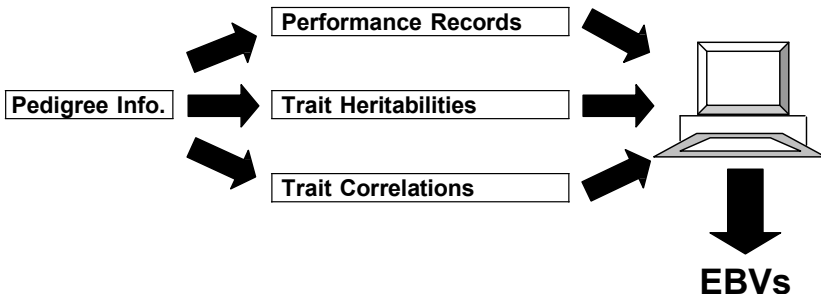

HOW TO USE LIMOUSIN BREEDING VALUES

ESTIMATED BREEDING VALUES (EBVs) & GENOMIC BREEDING VALUES (GEBVs)

1. What Are EBVs?

Many factors influence the appearance and performance of a bull. For example, age, nutrition, management, age of dam, health, season, quality of farm and the genes it has inherited from its parents. The only factor that can be passed on to its calves, however, is its inherited genetic potential. Estimated Breeding Values are measures of that potential and are calculated from the following:

- Measurements from the animal itself
- Measurements from the animal's herd mates (known as 'contemporaries')
- Measurements from the animal's relatives and their contemporaries
- The degree to which one trait influences another (known as a 'correlation')
- The degree to which each trait is passed on to the next generation (known as 'heritability')

2. What Are GEBVs?

In March 2016, Genomic Breeding Values (GEBVs) became available for all Limousin cattle for a range of new Carcase Traits. In July 2017, GEBVs also became available for three new Female Fertility traits and Calf Survival. They are the first of their kind within the UK's beef sector and are the result of five years of research between British Limousin Cattle Society, ABP Food Group and SRUC.

GEBVs take conventional EBVs a step further by using information from animals' DNA as well as the usual measurements of performance. To produce the breeding value the DNA is compared to a DNA 'key' for the breed:

This key is created from a core population of Limousin animals that have been measured on-farm and in the abattoir as well as having DNA collected

The key is like a library that cross refers information from the DNA strand with different levels of abattoir performance.

GBVs are produced by comparing the DNA of an animal with the key. They are calculated from the correspondence of that animal's DNA with those in the library

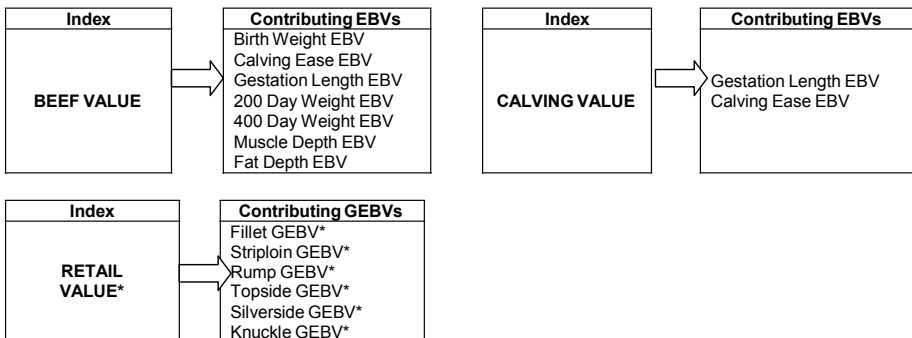

GEBVs are used in exactly the same way as EBVs...

Albeit they are produced in slightly different ways GEBVs are in essence breeding values that indicate genetic merit as EBVs do and the way the two are used should not differ (see paragraph 5 below).

3. What Are Breeding Indexes?

It is often desirable to select animals on the basis of more than one EBV/GEBV. Breeding Indexes focus on specific breeding goals and combine the appropriate EBVs/GEBVs in to a single figure based on their relative economic value. This is widely regarded as the most efficient method of selecting on a number of traits at once.

Three Breeding Indexes are available at sales, as follows:

* GEBVs available for animals that have been genotyped for this purpose and where the values have been published by the owner.

When using an Index it is important that your breeding objective is broadly similar to that of the Index in question, otherwise you may unwittingly change aspects of your herd that you did not necessarily want to.

4. What Breeding Value Information Is Available?

In sale catalogues, EBVs & GEBVs are produced for up to eighteen traits that focus on an animal's economic performance.

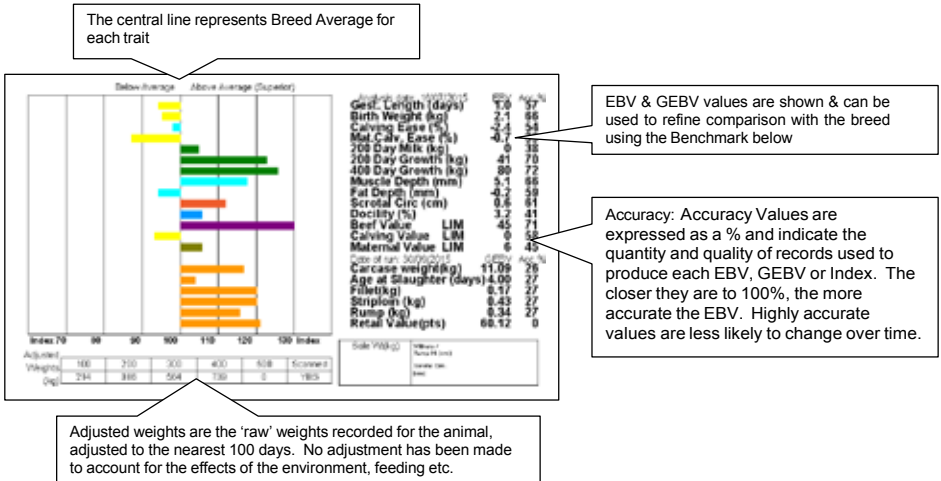

Trait	Breeding Value Indicates...	Look for...
Birth Weight (kg)	Genetic potential for calf weight at birth	High negative EBVs if you want low calf birth weights
Calving Ease (%)	Ease with which a bull's progeny will be born	High positive EBVs if you want less assisted calvings
Maternal Calving Ease (%)	Ease with which a bull's daughters will calve	High positive EBVs if you want less assisted calvings
Gestation Length (days)	Genetic potential for gestation length	High negative EBVs if you want short gestation lengths
200 Day Milk (kg)	The maternal component of 200 day growth (i.e. the contribution that the milking and maternal abilities of a bull's daughters make towards their calves' growth at 200 days of age)	High positive EBVs if you want daughters to wean heavier calves
200 Day Weight (kg)	Genetic potential for growth from birth to 200 days of age	High positive EBVs if you want high growth rates to weaning
400 Day Weight (kg)	Genetic potential for growth from birth to 400 days of age	High positive EBVs if you want high growth rates to finishing
Muscle Depth (mm)	Genetic potential for muscularity and potential to increase lean meat yield	High positive EBVs if you want good calf conformation
Fat Depth (mm)	Genetic potential for leaner carcasses	Negative EBVs if you want to produce leaner carcasses or take calves to heavier weights without penalty for fatness
Age at 1st Calving (days)	Genetic potential for early sexual maturity	High negative EBVs for a greater proportion of heifers that hold to 1 st service
Calving Interval (days)	Genetic potential for the time taken to get back in calf	High negative values to breed cows that get back in calf quickly
Docility (%)	Genetic potential for being calm when handled	High positive values for animals that are likely to be more calm when handled
Scrotal Circumference (cm)	Genetic potential for scrotal size. Linked to male serving capacity and puberty of daughters.	High positive values for animals with higher likely serving capacity and earlier maturing daughters.
Age to Slaughter GEBV (days)	Age at slaughter assuming a standard carcass weight of 350kgs	High negative values (less days) for animals that will reach 350 kg deadweight quicker
Carcass Weight GEBV (kg)	Carcass weight at a standard slaughter age of 600 days	High positive values for animals that will reach heavier carcass weights at 600 days of age
Fillet GEBV (kg)	Weight of fillet at a standard slaughter age of 600 days and carcass weight of 350kg	High positive values for higher fillet weights in the carcass
Striploin GEBV (kg)	Weight of striploin at a standard slaughter age of 600 days and carcass weight of 350kg	High positive values for higher striploin weights in the carcass
Rump GEBV (kg)	Weight of rump at a standard slaughter age of 600 days and carcass weight of 350kg	High positive values for higher rump weights in the carcass

Breeding values for further traits for each animal are available on www.taurusdata.co.uk. Enter animal name or ear number in the Quick Search box. You can also search by breeder and by breeding values ('Breeder Search' and 'EBV Search'). The additional traits available are:

- Longevity EBV & GEBV
- Silverside EBV & GEBV
- Calf Survival EBV & GEBV
- Topside EBV & GEBV
- Knuckle EBV & GEBV

5. How to Use the Information in This Catalogue

EBVs & GEBVs are expressed in the same unit as the recorded trait (eg kgs for 400 Day Weight, mm for Muscle Depth etc) are relative to the Breed Average. In sale catalogues, Breed Average for each trait is represented by the vertical line that is central on the bar chart. Bars that lie to the right of that line indicate EBVs/GEBVs that are above average. The further to the right they lie, the higher above Breed Average they are. Equally, bars that lie to the left of the line indicate EBVs/GEBVs that are below Breed Average. The further to the left they are, the further below Breed Average they are. An example is as follows:

The numeric EBV & GEBV values on the charts can be used to further refine comparison with the breed using the Breed Benchmark below. This is updated annually.

2018 Limousin Breed Benchmark

Trait	Bottom			Breed Avg	Top		
	1%	10%	25%		25%	10%	1%
Birth Weight (kg)	4.0	3.1	2.5	1.9	1.3	0.7	-0.3

6. Things to Consider...

- To establish just how much influence a bull will pass on to his progeny it is important to remember to halve the value of the EBV/GEBV, since the other half of a calf's genes comes from the cow.

For example, a bull with a 400-Day Growth EBV of +62 is estimated to have the genetic potential to be 62kg heavier at 400 days of age compared to a bull with an EBV of 0. His calves would be expected to be 31kg heavier at that age when compared to calves by a bull with an EBV of 0, since they only inherit half of their growth genes from their sire (the other half coming from their dam).

- Select animals using EBVs/GEBVs that are relevant to your farm, cow type and market

- Bear in mind that EBVs/GEBVs predict an animal's economic performance. They are no judge of factors such as soundness, locomotion, breed type etc and you must be satisfied with your potential purchase in these respects too.
- Consider the traits that will make you most money, but
- Don't forget to check traits you may be compromising in pursuit of your goals, such as Calving Ease etc
- EBVs/GEBVs change as time goes on. New calves and new performance records tell us more about animals' breeding potential. Limousin EBVs/GEBVs are updated three times per annum and all values will change as more information is added and the accuracy of the predictions increases.

7. EBV/GEBV & Pedigree Info Just a Click Away

EBV, GEBV and pedigree information on all Limousin cattle are just a few internet clicks away...

Step 1: Click the 'Taurusdata Online Herd Book' button on the Limousin Society homepage (www.limousin.co.uk) or go direct to www.taurusdata.co.uk

Step 2: In the 'All Breeds Quick Search' box type the name or ear number of the animal you are interested in or click on the 'Breeder Search' button to look at all animals belonging to or bred by a particular breeder.

The site will then tell you the animal's owner/breeder details, its breeding values, its pedigree and list its progeny with full links to all of their information.

8. Further Information

For further information, please contact Alison Glasgow, British Limousin Cattle Society on telephone 02476 696500, e-mail alison@limousin.co.uk or visit the BLCS web site www.limousin.co.uk, 'Performance Programmes'.

Herd Health at British Limousin Cattle Society (BLCS) Collective Sales

Introduction

New herd health rules were introduced by the BLCS at nominated premier Collective Society Sales from May 2011 and these are now in place at all premier BLCS Collective Sales (Stirling February & October; Carlisle February, May, October & December; Brecon May & November).

The principal aim is to standardise herd health declarations and information presented in order to provide both members and customers alike with clear, accurate herd health information at the point of sale and within the given sale catalogue. As such it is attractive and informative for customers and aims to further raise the level of buyer confidence.

BLCS Herd Health Rules have two principal elements:

Part 1. From 1st May 2011, herds selling at the premier Collective Society Sales have to be members of, and adhering to, the terms of a CHeCS approved Herd Health Scheme. At a minimum, this must include a whole herd test for Johne's disease.

Part 2. From 1st May 2011, all animals male and female, including calves at foot, presented at the premier Collective Society Sales be EITHER from a BVD Accredited Herd within a CHeCS approved Herd Health Scheme OR to have been BVD tested virus free. All animals forward will be required to be BVD vaccinated prior to sale with an approved vaccine. Pregnant animals must have had testing and vaccination completed prior to service. Vaccination of calves at foot to be in accordance with CHeCS guidelines and recommendations.

Herd Health Declaration

For premier collective sales (Carlisle February, May, October & December; Stirling February & October; Brecon May & November) the Herd Health Declaration is compulsory. For reasons of clarity and to provide purchasers with the most accurate information available, vendors are required to complete this at time of entry.

Although not compulsory at other collective sales (Ballymena, Dungannon, Thainstone & Stirling in May), the Society recommends that vendors complete the Herd Health Declaration. This information then appears in the Vendors' Index within the catalogue. Where a member has chosen not to complete the Herd Health Declaration, it will simply say 'No Herd Health Declaration'.

Is the Herd Health Declaration compulsory?

For premier collective sales (Carlisle February, May, October & December; Stirling February & October; Brecon May & November) the Herd Health Declaration is compulsory. For reasons of clarity and to provide purchasers with the most accurate information available, vendors are required to complete this at time of entry.

Although not compulsory at other collective sales (Ballymena, Dungannon, Thainstone & Stirling in May), the Society recommends that vendors complete the Herd Health Declaration. This information then appears in the Vendors' Index within the catalogue. Where a member has chosen not to complete the Herd Health Declaration, it will simply say 'No Herd Health Declaration'.

What Other Health Information may be displayed?

Vendors are encouraged to apply to their respective CHeCS health scheme for individual animal health cards for display on pens. For an individual animal's test results, or vaccination histories, regarding BVD, IBR, Lepto or Johne's, these are permitted above the sale pens only upon presentation of a signed veterinary declaration to verify that the animal concerned has had a clear test.

Again, for reasons of practicality, no health information notes are to be put in the catalogue footnotes by vendors. Similarly, the Society has requested that no declarations on health information be given by the auctioneer during the sale. Again, the sole purpose of this is to avoid confusion and to try and ensure that the information provided is done accurately, fairly and in a standardised format in the catalogue. This point has been agreed with the auctioneers.

Introduction of Johne's Risk Levels from 1st January 2013

From 1st January 2013, CHeCS, the self-regulatory body for cattle health schemes in the UK and Ireland, has agreed a change to Johne's testing with herds classified on a Risk Level basis of 1 to 5 (with 1 being low risk and 5 high risk). The Herd Health Declaration includes a section where breeders are able to indicate their Johne's Risk Level, once known.

The Risk Levels are as follows:

Risk Level 1	herds that were previously Accredited
Risk Level 2	herds that have had 1 or more clear qualifying tests
Risk Level 3	herds that have 3% or fewer reactors every year*
Risk Level 4	herds that have more than 3% reactors every year**
Risk Level 5	herds not in a CHeCS Johne's disease programme and herds with no health plan in place

* Note, for herds with fewer than 33 animals in the target age range, rather than 3%, Risk Level 3 will be one animal testing positive for Johne's

** Note, for herds with fewer than 33 animals in the target age range, rather than 3%, Risk Level 4 will be more than one animal testing positive for Johne's

It is a condition of BLCS Premier Collective Sales that animals from herds that are Johnes Risk Level 5 are not permitted to be sold.

Should you have any queries regarding the new Johne's Risk Level classification, please contact your respective CHeCS health scheme.

What if a vendor is selling an animal/s that he did not breed?

Vendors are still requested to fill in the Herd Health Sale Declaration accordingly. Prospective customers are advised to speak to vendors directly to acquire accurate health information on animals offered but not bred by the seller.

Feedback & more information

The Society welcomes members' and customers' feedback on the Herd Health Declarations and health policy at sales. If you have further questions, please speak to the Society representative, Iain Kerr or the Auctioneers.

LIMOUSIN

Post-Purchase Management of Young Bulls

Prepared by SRUC

Purchase

Buy well in advance to allow time to settle – make it a planned rather than last minute decision. Recommendation is to buy at autumn sale for early spring use or February sale for later spring use or May sale for autumn use

On getting bull home, isolate bull for a month. Check his working capability and health and vaccinate/treat as necessary. A semen test should be carried out. Try and minimise stress

Remember a short working life increases cost

Insurance companies may refuse claims in cases of unsatisfactory management of a bull

Feeding

Young bulls are in forward condition at sale and should be allowed to lose condition gradually – they are still maturing. Dietary changes should not be sudden – try and find out the diet prior to purchase so that a stable rumen environment can be maintained. Forage alone will not be sufficient to maintain a young bull which may be anything up to 1,000kg in weight. They should be fed to gain at 0.8kg/day

Feed concentrates in at least 2 feeds for one month after purchase. Prior to purchase, a bull will have been fed on a high concentrate level fed frequently per day

A bull will have seen little grass since the suckling period. Ideally do not turn to grass without supplementary feed for at least 4-6 weeks after purchase

“Do not keep him on a slippery floor surface. Look after his feet by trying to keep him on a partial hard surface”

Housing

Bulls will have been in individual pens with a lot of human contact (walking/grooming) plus several feeds per day

Do not ignore him post-purchase by keeping him in a confined space or tied in a dark shed. Provide him with human contact and allow him to see his surroundings even though he is in isolation

Do not keep him on a slippery floor surface and certainly do not allow him to serve cows on this surface. Look after his feet by trying to keep him on a partial hard surface

Make sure pen divisions are high and strong – many accidents happen with bulls trying to jump out of pens shortly after arrival

Training

Young bulls are sexually inexperienced

Using prior to sale is resisted as they become harder to handle

Try and pen bulls where they can see cows/ other bulls working

Take a mature cow to him and allow him to serve her several times

Working

Avoid overwork – young bulls are enthusiastic but have low semen reserves

Target 20 cows in the first season

Try and get him to take a bit of supplementary feed to maintain body condition score around 3

Remove from cows if it is apparent condition is being lost – it will only lead to barren cows

Check he is serving correctly (20-40% of bulls could be infertile or sub-fertile) so keep a watchful eye and check herd 3 weeks later. If in doubt, pull him out. It is essential to PD cows after bull removed from herd

“Provide him with human contact and allow him to see his surroundings”

Annually (for all bulls)

Being fertile one season is no guarantee. Prior to the next season do bull “MOT” and fertility check in conjunction with vet

Do not trim feet just before use – plan for 6-8 weeks before. Feet and legs do a lot of work in mating season

Feed 2-3kg concentrates per day prior to mating season to build condition ready for an active season

HARRISON & HETHERINGTON LIMITED
NOTICE TO ALL VISITORS AND TRADERS
PLEASE READ AND OBSERVE THE FOLLOWING**

All visitors and traders on site will be responsible for ensuring that they and their employees or sub-contractors engaged by them comply with all legal requirements, including the Health and Safety At Work etc., Act 1974, The Management of Health and Safety At Work Regulations, The Provision And Use of Work Equipment Regulations, etc.

All visitors and traders will be responsible for ensuring that their operations in no way affect the integrity of the company or its fire, safety or security arrangements and in no way compromise the health and safety and welfare of other visitors to and or employees of Harrison & Hetherington.

Although it is the visitors and traders responsibility to ensure that plant, equipment and systems in work are safe, Harrison & Hetherington Limited reserve the right to ask any visitor or trader to leave the market for any breaches in the Health and Safety Rules and/or Regulations.

Vendors must inform Harrison & Hetherington Limited of any livestock due to attend the market whose temperament, behaviour or condition may call for additional precautions for its safe handling.

When loading or unloading livestock handlers must ensure that the dock and vehicle gates are securely fixed so as to prevent the escape of animals.

Traders are responsible for providing and maintaining suitable livestock handling equipment. They should ensure that livestock handlers are fit, experienced in livestock handling and familiar with the livestock in their charge.

Children must not be permitted in any area where they may be at risk from livestock or machinery.

In the case of bulls, during the period when the show/sale is open to visitors, bulls in stalls or pens should not be left unattended. If the handler is temporarily absent, arrangements should be made with another vendor, steward or member of Harrison & Hetherington staff to oversee the bull until the handler returns.

Handling of Livestock at shows and sales: Harrison & Hetherington Limited recommend that an adult person should accompany any junior person during the showing/sale of livestock in the ring and reserves the right to intervene at any point if, in the company's opinion, the person showing the livestock is at risk in undertaking that activity.

Passageways must be kept clear at all times during the auction sale. **PLEASE DO NOT STAND IN THE SALE RING ENTRANCE AND EXIT PASSAGES.**

The auction ring man escapes and refuges must be kept clear at all times.

All portable electrical equipment supplied and/or used by visitors and traders must be safe and fit for the purpose and should have a valid portable appliance test certificate.

AUCTIONEER'S TERMS & CONDITIONS OF SALE
(Incorporating the Auctioneer's Terms and Conditions)

1. The biddings to be regulated by the Auctioneers and the highest bidder, subject to the Vendor's reserve (if any), to be the purchaser. No bid shall be retracted and if any dispute should arise between two or more bidders, the Lot in dispute to be put up again and resold, or the Auctioneers may determine the dispute at their own discretion and their decision shall be final. The Auctioneers reserve the right to refuse the bid of any person without being called upon to give reason for such action.
2. The Purchaser to give his full name and dwelling place and pay for all Lots purchased immediately at the close of sale. No Lot or Lots shall be removed from the sale premises until paid for and a pass-out slip obtained from the Auctioneer's clerk but each and every Lot shall immediately at the fall of the hammer be considered as delivered and be and remain in every respect at the absolute risk and expense of the respective purchaser or purchasers thereof and shall be removed from the sale premises at the purchaser's expense. The right of property shall not pass until the full purchase price is paid.
3. Purchasers paying by cheque must be prepared, if required, to produce a banker's reference. As a result of the Money Laundering Regulations (2003) the auctioneers are unable to accept cash payments in excess of nine thousand pounds sterling for any single or linked purchase transaction.
4. All statements in the catalogue, or made by the Auctioneers at the time of sale, also the correct identification of the animals, are the entire responsibility of the Vendors. The Auctioneers take no personal responsibility for the correctness of such statements or identities.
5. All statements in the catalogue, or any made by the Auctioneers at the time of sale relating to any veterinary or other tests are to be taken as statements of fact only. No such statements shall guarantee the purchaser of any animal against loss arising from the subsequent reaction of such animal to any test administered after the sale and the Vendors shall not be liable in any way should this occur.
6. All stock is sold subject to the Conditions of Sale recommended for use at markets by the Live-stock Auctioneers' Markets Committee for England and Wales except in so far as these conflict with any Special Conditions applicable to the sale of pedigree stock, when the latter Conditions shall prevail.
7. Neither the Vendors nor the Auctioneers will be responsible for any accident or injury to persons or property, through fire or any other cause whatsoever, nor for any damage by animals prior to, during or after the sale.
8. No undertaking by the Auctioneers or their servants to take charge of any Lot or Lots after the sale or to forward them to their destination shall be held to impose upon the Auctioneers any legal obligation or vitiates any of these Conditions.
9. Inasmuch as the Auctioneers act as agents for a disclosed principal they shall not be considered personally responsible for any default on the part of either purchasers or Vendors and the remedy shall be against them only and not against the Auctioneers.
10. If these conditions are unfulfilled, the Vendors or Auctioneers shall have the power to resell the Lots, retaining any surplus and charging any deficiency and expense to the defaulter.
11. You have a right to know how we will use the information you have provided to us. We may share the information with other members of our group and may make this information available to relevant media groups and other interested parties on request. We and other members of the group may contact you by telephone, e-mail, post or fax to inform you of products or services available. If you do not want to be contacted for marketing purposes or do not wish your information to be made available to any other parties please notify us in writing.

MERESIDE LORENZO

Sire: Jacot Dam: Mereside Dawnmarie MGS: Alaska

“From day one, Lorenzo was viewed as a star in the making, admired by many on farm throughout the summer of 2015, his mother, Mereside Dawnmarie has proven herself to be our top-brood cow producing sons selling up to 40,000gns as well as outstanding daughters that have been retained in the herd for breeding. Sired by Jacot, who is well known for transmitting conformation and muscling, these traits have certainly shown through in his progeny, conveying exceptional muscle development and breed character. Watch out for more of his impressive progeny, that will be hitting the ground throughout the summer of 2018.”
