LIMOUSIN DAY AUTUMN 2018

GENERAL INFORMATION & SALE NOTES

LOCATION: The sale will be held at Newark Livestock Market, Great North Road, Newark, Nottinghamshire, NG24 1BY. Tel: 01636 676741, Fax: 01636 611190.

Email: enquiries@newarklivestocksales.com Website: www.newarklivestocksales.com

ACCOMMODATION: Please see a list of local Hotels and Bed & Breakfasts on page 4.

METHOD OF SALE: All Pedigree cattle will be sold in guineas (105 pence) and in strict catalogue order, unless any alterations are announced by the auctioneers. Commercial Cattle will be sold in £s per head.

COMMISSIONS: The Auctioneers will dutifully execute commission to purchase for buyers unable to attend the sale personally, upon the receipt of written instructions.

SETTLEMENT AND CLEARANCE OF STOCK: Settlement in full is due immediately at the close of the Sale. No animal may leave the Sale Premises without an official 'Pass Slip', obtainable only from the Auctioneers upon settlement. Purchasers unable to remove their stock on the day of sale can arrange overnight accommodation with the Auctioneers on the understanding that all cattle are at the Purchasers' risk.

REGISTRATIONS: All Pedigree stock in the sale are registered with the British Limousin Cattle Society, Concorde House, 24 Warwick New Road, Leamington Spa, Warwickshire, CV32 5JG. (Tel 02476 696500)

PEDIGREE TRANSFERS AND FEES: All animals are eligible for transfer at the purchaser's cost.

SEMEN ROYALTY SCHEME BULL REGISTER: Purchasers are asked to note that where a female is catalogued as being served/inseminated by a 'Semen Royalty' Sire the appropriate royalty will be payable by the purchaser prior to registration of the calf.

VETERINARY INSPECTION: For the buyer's convenience, a Veterinary Insection will be carried out on all bulls for sale. A Veterinary Officer will examine general health and genetic defects particularly teeth, eyes, testicles, warts and locomotion. Any animal found with a genetic fault, disease or disorder will be rejected.

HERD HEALTH: As stated declared by the Vendor in this catalogue or from the rostrum.

LIMOUSIN DAY AUTUMN 2018

ANY ANIMAL NOT IN POSSESSION OF THE REQUIRED DOCUMENTS WILL NOT BE OFFERED FOR SALE WITHOUT THEIR RESPECTIVE PASSPORT DOCUMENTATION

Important Notice to Vendors

TIMETABLE OF EVENTS:

FRIDAY 5TH OCTOBER

ARRIVAL OF STOCK 12.00pm to 7.00pm
INSPECTION OF BULLS 4.00pm to 7.00pm

SATURDAY 6TH OCTOBER

ARRIVAL OF STOCK 5.00am to 7.30am
INSPECTION OF BULLS 7.00am to 8.00am
JUDGING COMMENCES 8.30am
SALE COMMENCES 11.30am

EVERY BULL entered for the Sale MUST BE ADEQUATELY TRAINED TO BE LED BY HALTER. All bulls must be provided with a serviceable halter, which will become the property of the Purchaser.

UK TAGS: All cattle entered for the Sale will have their UK Tags examined as an integral part of the pre-sale inspection procedure.

The Sale will be held subject to the Auction Rules, Conditions of Sale.

The proceeds of Sale are guaranteed by the Auctioneers, who will account to Vendors on the day of the Sale. Such guarantee however, does not extend to the animals sold for export, to which special conditions apply.

STRAW: Straw will be provided by the Auctioneers at £4 per head.

ANIMAL WELFARE: Vendors and Purchasers should note the CODE OF PRACTICE published by the Livestock Auctioneers' Market Committee for England and Wales IS OPERATIVE and that weak, unhealthy or injured stock will be refused entry by the Auctioneers. Enquiries should be directed through the market office to the Auctioneers' ANIMAL HEALTH & WELFARE OFFICER.

LIMOUSIN DAY AUTUMN 2018

FORTHCOMING MAJOR SALES

Saturday 20th October 2018

Show and Sale of Bulls and Females on behalf of **The Lincoln Red Society**.

Saturday 24th November 2018

“Winter Warmers Show and Sale” of Pedigree Texel, Beltex, Blue Texel and Suffolk Breeding Sheep along with other breeds.

Monday 26th November 2018

“Winslow Christmas Primestock Show” held in Winslow Market Square for all classes of Cattle and Sheep.

Wednesday 8th December 2018

“Newark Christmas Primestock Show” for all classes of Cattle, Sheep and Pigs.

NATIONAL BEEF ASSOCIATION WARRANTY

IMPORTANT NOTICE TO PURCHASERS

1. This Sale is held subject to recommended Conditions of Sale of the National Beef Association.
2. This Sale is held subject to the Special Terms and Conditions of Sale recommended for Sales of Pedigree Beef Cattle by the National Beef Association. The preparation of these Terms and Conditions has proved a lengthy and costly process and, in order to defray the legal and other costs involved, and to provide a continuing source of revenue to assist the Association in its vital work for Pedigree Cattle Breeders, the Council of the Association has decided that a special levy, amounting to £4 per male and £2 per female head/lot sold (plus VAT) shall be charged to each Purchaser.

This levy will be imposed at this Sale and added to the Purchasers' accounts.

1. Birth Type

'Got by AI' indicates whether the calf was a result of an AI service. If blank, the dam was naturally served. 'Natural calf' indicates the calf was born to its biological dam. 'ET calf' indicates the calf was born as a result of embryo transplant.

2. Myostatin

"Not tested" indicates that no Myostatin test is currently available for the animal. Full details on the Myostatin variants and their effects on performance can be found on the Limousin Society website www.limousin.co.uk, search in 'performance programmes'. In summary:

The Variants:

F94L	Animals with two copies of this gene (ie F94L/F94L) exhibit an increase in muscling (by up to 19%) with no associated increased in calving difficulty, lowered fertility or longevity and by far the majority of animals in the breed carry this gene. Heterozygous animals (those with one copy of the gene) also exhibit these characteristics but not to the same degree.
NT821	Animals with two copies of the gene (ie nt821/nt821) will exhibit characteristics of larger loin depths, reduced fat depths and large, rounded rump and thighs. However, unlike F94L, animals with two copies may also have slightly heavier birth weights bringing with it the potential for more difficult calvings. If animals are 'heterozygous' with F94L (ie F94L/nt821) they will still exhibit quality carcass characteristics but are less likely to be affected by more difficult calvings.
Q204X	Animals with two copies of the gene (ie Q204X/Q204X) will exhibit characteristics of larger loin depth, reduced fat cover and greater meat tenderness. However, they may also have the potential to exhibit larger birth weight and, if females, slightly reduced milking ability. Animals that are 'heterozygous' with F94L (ie F94L/Q204X) will still exhibit quality carcass characteristics but are less likely to be affected by larger birth weights and reduced milking ability.

Two further variants of Myostatin exist in the population but are relatively uncommon in their occurrence. Known as nt419 and E291X, their effects are similar to nt821 and Q204X respectively.

The recognised benefits of Myostatin are:

- ✓ **Increased Meat Yield** - by up to 19%.
- ✓ **More feed efficient**
- ✓ **Higher meat quality** - increased tenderness, reduced fat content, higher polyunsaturated fats

Using Myostatin information

An important factor to remember is that carcase traits (muscling, fat cover etc), calving traits and milk traits in cattle are controlled by MANY genes. Myostatin is only one of them and, as such, it is not an absolute predictor of an animal's performance.

A Myostatin genotype is a further bit of information that may help your decision, but it should be used in conjunction with wider information such as Estimated Breeding Values (EBVs), which bring together information of actual performance from the animal itself, its herd mates and its relatives to predict genetic merit, and your own judgment on type and pedigree.

3. Genetic Colour

Colour and polled/horned genes typically come in pairs called alleles. One is inherited from the sire and one from the dam. Where an animal's alleles are the same, it is said to be 'Homozygous' (Horn.) Where the alleles are different (because there is more than one variant of the gene), the animal is said to be 'Heterozygous' (Het.)

"Hom. Red" - animals will be red and will pass on red genes.

"Hom. Black" - animals will be black and will pass on black genes. All calves will be black, since black colour genes are dominant.

"Het. Black" - animals will be black and will pass on either a red or black gene.

"Het. Red" - animals will be red and will pass on a red gene or a colour gene known as the 'wild type' that is non-colour determinate. (The coat colour of calves inheriting the wild type gene will be governed by the gene they inherit from the other parent. It is rare, but it is also possible for an animal to be homozygous for the wild type gene, in which case they will be reddish/brown to brownish/black).

4. Genetics for Horned/Polled Status

A bull that is "Hom. Polled" - will be polled himself and all calves will be polled (since he only has polled genes to pass on and they are dominant).

A bull that is "Het. Polled" - will be polled himself and will produce some polled and some horned calves (assuming the cows are all horned).

A bull that is "Hom. Horned" - will be horned himself and will pass only horned genes to his calves.

For more information on both Genetic Colour and Polled/Horned, go to www.limousin.co.uk, search in 'performance programmes' or scan the QR code above.

5. Estimated Breeding Values and Genomic Estimated Breeding Values (EBVs & GEBVs)

EBVs & GEBVs are expressed in the same unit as the recorded trait (eg kgs for 400 Day Weight, mm for Muscle Depth etc) are relative to the Breed Average.

- a. In sale catalogues, Breed Average for each trait is represented by the vertical line that is central on the bar chart.
 - ✓ Bars that lie to the right of that line indicate EBVs/GEBVs that are above average. The further to the right they lie, the higher above Breed Average they are.
 - ✓ Equally, bars that lie to the left of the line indicate EBVs/GEBVs that are below Breed Average. The further to the left they are, the further below Breed Average they are.
- b. Accuracy Values (Acc%) are expressed as a % and indicate the quantity and quality of records used to produce each EBV, GEBV or Index. The closer they are to 100%, the more accurate the EBV. Highly accurate values are less likely to change over time.
- c. The numeric EBV & GEBV values on the charts can be used to further refine comparison with the breed using the Breed Benchmark which is updated annually.

For more information on EBVs and GEBVs, go to www.limousin.co.uk and search under 'Breed Improvement' in the main menu or scan the QR code opposite.

EBV, GEBV and pedigree information on all Limousin cattle are just a few internet clicks away...

Step 1: Go to www.taurusdata.co.uk

Step 2: In the 'All Breeds Quick Search' box type the name or ear number of the animal you are interested in or click on the 'Breeder Search' button to look at all animals belonging to or bred by a particular breeder.

The site will then tell you the animal's owner/breeder details, its breeding values, its pedigree and list its progeny with full links to all of their information.

6. Adjusted Weights

These are the 'raw' weights recorded for the animal throughout its early growing stages. They are adjusted for age, but are not adjusted for any other factor such as management, nutrition, dam age, differences between farms etc.

LIMOUSIN

For further information or if you have any query, please let us know - telephone 02476 696500, e-mail info@limousin.co.uk or speak to Society staff and Council members attending the sale.

LIMOUSIN DAY AUTUMN 2018

INDEX TO VENDORS

The pedigree, performance and health information included in this catalogue is as supplied by, or on behalf of the vendor. The responsibility for the accuracy of the information therefore rests solely with the vendor and not with the British Limousin Cattle Society Ltd (BLCS). It should be noted that the Estimated Breeding Values for all animals change over time, as new performance records come available. While the BLCS seeks to ensure that the information contained in this catalogue is accurate at the time of printing, no warranty is given in respect thereof and, to the maximum extent permitted by law, the BLCS shall have no liability for any loss, damage or injury howsoever caused (including that caused by negligence) or suffered directly or indirectly in relation to information and opinions contained in or omitted from this publication.

Calogale Magnum is sired by the World Record Priced **Trueman Jagger** and is a natural calf born unassisted out of the tremendous **Lourie Dazzle** who's been a superb foundation cow for the Calogale herd. All of Dazzle's daughters have been retained in the herd due to her superior calving ease, mothering and easy fleshing qualities. **Magnum** is by far the fastest growing bull we've ever reared and he's developed into a huge bull with fantastic length and depth. His 200 day and 400 day growth rates, Muscle Depth and Beef Value EBV's are all in the top 1% of the breed resulting in us highly recommending him to prospective purchasers looking for an easy calving bull to produce fast growing, easy fleshing, heavy cattle.

Jasmine is rather special! She carries one copy of the NT821 gene and one copy of the Q204X gene. She will breed muscle. She would be a great young cow to start a herd or a great addition to an established herd. Her dam is one of our top cows. She has a very stylish heifer calf at foot by Plumtree Deus. She will be greatly missed.

Calogale Madonna is sired by the World Record Priced **Trueman Jagger** and is a natural calf, born completely unassisted, out of **Goldies Ensign**. **Ensign** was purchased at the Red Ladies Derby in 2010 and has bred consistently well for us. Three of her sons have been sold into Commercial suckler herds whilst her only other daughter (**Calogale Hope**) joined the **Stmichaels** pedigree herd owned by Ashley Smith when sold at Newark in 2013. **Madonna** is a strong, feminine heifer and is our five-year old daughters' favourite due to her tremendously docile nature. Madonna has the potential of becoming a good show heifer for the 2019 show season and a superb breeding cow for the future. She is only offered for sale due to winter housing restrictions and two straws of **Calogale Irresistable** Semen will be offered to the successful purchaser by way of 'luck' (Ensign currently has a tremendous Irresistable bull calf at foot).

Calogale Nadine is sired by the World Record Priced **Trueman Jagger** and was naturally born, completely unassisted, out of an exceptional **Ampertaïne Foreman** heifer called **Calogale Jazmine**. Jazmine is a direct descendant from the tremendous foundation cow **Lourie Dazzle** who is one of the best cows in the herd today. **Nadine** is one of the fastest growing heifers we've ever reared and she's developed into a big, powerful animal with 200 day, 400 day, Muscle Depth and Beef Value EBVs all in the top 1% of the breed. We have never sold a Dazzle daughter and very reluctantly offer this grand-daughter for sale due to winter housing restrictions. We cannot overstate what a tremendous opportunity this is to purchase a heifer from a truly outstanding dam line which we have no doubt will become a valuable asset to the successful purchaser. Two straws of **Calogale Irresistable** Semen will be offered to the successful purchaser by way of 'luck' and would be a good choice of bull to mate with this tremendous heifer.

LIMOUSIN DAY AUTUMN 2018

AUCTIONEERS FOREWORD

The **Gascoines Herd** was founded in 2001 purely on a commercial basis buying pedigree females in the Newark and Carlisle sales. These females were put to quality Limousin bulls however they were given no special treatment and just fed on grass silage and ran with the cross bred herd near Scarborough in North Yorkshire with the progeny moving to Upton in Nottinghamshire to be fattened and the better heifers selected to return to Yorkshire to enter the herd.

In 2012 we purchased 28 bulling heifers from the **Bailea Herd** of Brian Jones.

These heifers were put to **Fieldson Beefy (FCE06-482)** a bull we purchased in Carlisle for the very modest price of 3,000gns originally for use commercially in Yorkshire. Beefy was out of **Fieldson Alf's (FCE05-384)** mother. He had been proven to be very easy calving so an obvious choice.

It was decided that to take a herd forward it needed good management. The company was exceptionally fortunate to acquire the services of Alistair Smith as Herd Manager.

Alistair had enjoyed a glittering career with many breeds and a man at the top of his game! His impact on the herd was instant arriving to calve the Bailea heifers.

In the Spring of 2013 Alistair went and selected the females he wanted from the commercial herd in Yorkshire and the the herd was founded

From then the herd entered into performance recording and health testing.

In Pedigree breeding you need two things firstly expert hands and secondly a bit of good luck!

Beefy was a resounding success on the Bailea heifers and the following year showing was undertaken at Newark, Lincolnshire and the Great Yorkshire Shows with great success.

The second bit of luck was the purchase of **Mereside Hallmark (HCG12-508)** at Carlisle having been Champion. We had been very impressed with him on the farm and his mother was outstanding! His purchase was a magnificent investment as you will see by his numerous progeny included in the sale.

In May 2016 we purchased **Procters Loneranger (PFD15-978)** who was Junior Champion at Carlisle. A bull whose pedigree needs no introduction at all, as Loneranger is full brother to the world record priced female **Glenrock Illusion (IE13-112)** (cometx spangle)

Again you will see some tremendous progeny of Loneranger within this sale.

Along with the original herd further purchases were made of choice females from sales in Newark from The **Birdies**, **Cockleshell**, and **Coachhouse** Herds. And all have made their mark on this very young herd.

The herd has also enjoyed considerable success in the East Midland Breeders Club's annual herd competition and last year in 2017, the herd won the Large Herd Section and Mereside Hallmark won best stock bull and progeny.

It is with regret that this herd is now coming to sale as with the considerable successes it has enjoyed in such a short time the great things I feel this herd could achieve will never be realised under the Gascoines prefix. I do however have no hesitation in recommending to any breeder.

On a personal note I would like to thank Alistair and Kate for their total dedication to the cows, and to the farm in general. The attention to detail and dedication is completely unrivalled and unique.

They will be sadly missed by their work colleagues who I know will join me in wishing them all the best in the future.

I hope you will join us on Saturday 6th October to see what has been achieved in such a short time that many couldn't achieve in a lifetime!

Paul Gentry
Newark Livestock Market
