Tel: 01327 702763 or 07971 915058

BROOKFIELD FARM, LONDON ROAD,

DAVENTRY, NORTHANTS, NN11 4NQ

On

Thursday 12th September 2019

Commencing at 12.00 noon

Comprising:

33 Cows & Calves

10 In Calf Heifers, 18 Maiden Heifers,

8 Bulls

Auctioneers

The Heath Meadow, Nunnery Way,

Worcester WR4 0SQ

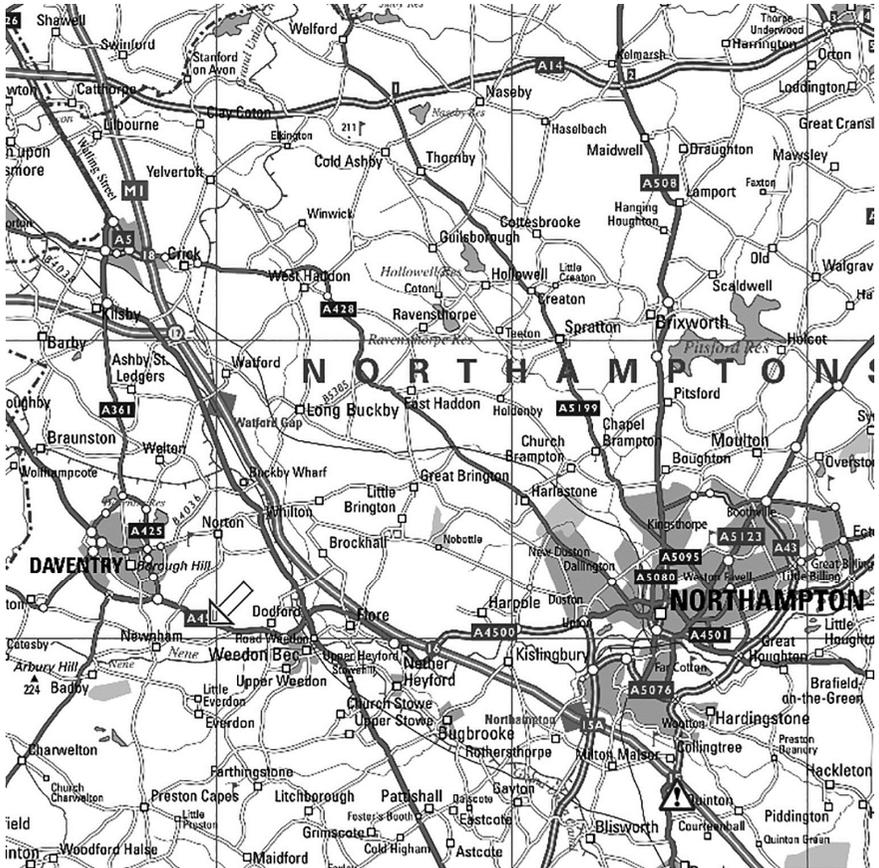

Tel: (01905) 769770

Fax: (01905) 769772

E-Mail: worcester@mccartneys.co.uk

DIRECTIONS

FROM THE NORTH: From the M1, leave at junction 18 and follow the A5 towards Milton Keynes. Continue along the A5 for approximately 10 miles, until reaching a roundabout, which is the new Weedon by-pass. Take the third exit on the roundabout, following the A45 towards Daventry. Take the second exit at the roundabout at the top of the hill and then follow the A45 for a further 2.5 miles towards Daventry - Brookfield Farm is situated on the right.

FROM THE SOUTH: From the M1, leave at junction 16 and follow the A45 towards Daventry. Continue for approximately 3 miles, until reaching the junction with the A5 and then take the second exit of the roundabout, following the A45 towards Daventry. Take the second exit at the roundabout at the top of the hill and then follow the A45 for a further 2.5 miles towards Daventry - Brookfield Farm is situated on the right.

GENERAL INFORMATION AND SALE NOTES

LOCATION:

Brookfield Farm is located on the A45 Coventry – Daventry – Northampton trunk road, approximately 1 mile east of Daventry and 2.5 miles west of Weedon. It is conveniently situated for the M1 motorway (please see map & directions) Auctioneers signs “To The Sale” will be posted in the locality.

HERD HEALTH:

All animals in the herd over two years of age on 3rd October 2018 have been tested negative for Johne’s Disease – the herd is classified Johne’s Level 1. The herd is also accredited free of BVD.

Lots 1 – 43, 62 & 63 were vaccinated for BVD and Lepto`in April 2019.

HOTELS:

There are many hotels within the area, a list can be found overleaf.

CONDITIONS OF SALE:

The sale will be held under the BLCS Auction Rules, and subject to the recommended Conditions of Sale of the N.B.A and also the Auctioneers General Conditions of sale.

METHOD OF SALE:

All cattle will be sold in guineas (105p)

PEDIGREE TRANSFERS:

The pedigree transfers will be dealt with by the Society following the sale.

SETTLEMENT & CLEARANCE OF STOCK:

Settlement in full is due to the Auctioneers at the close of the sale. Any purchasers not known to the Auctioneers must supply a satisfactory reference before removing any stock from the premises.

Please see special notice to potential purchasers.

REFRESHMENTS:

Refreshments will be available.

IMPORTANT NOTICE TO POTENTIAL PURCHASERS:

To avoid any mis-understanding please be aware of the following requirements in respect of settlement and clearance of stock.

1. Terms of settlement are strictly payment on the day of sale.
2. All potential purchasers must complete the buyers slip in full, found at the front of the catalogue.
3. Any purchasers not known to the Auctioneers MUST produce a satisfactory reference prior to purchasing.
4. No loading will be allowed until the conclusion of the sale.
5. Stock may remain at the farm – entirely at the purchasers risk, for up to 48 hours following the sale (or longer by prior arrangement only)

SALE DAY CONTACTS:

Auctioneers

FOREWORD

The Grange Herd was founded in 1976, making it amongst the oldest Limousin herds in existence in the country today; as a further landmark, this will be the tenth on-farm sale to be held since the herd's foundation. Over the years, we have had the privilege of working with many Limousin breeders, both old and new, in this country and overseas, and have had the good fortune to sell our genetics nationally and globally.

For the past 27 years, we have exclusively used French bloodlines in the herd – our last purchase in November 2018 was the 30th bull to have been purchased from Interlim Genetique Service since 1992. We have worked, and continue to work, closely with Gilles Lequeux and the team at Interlim in order to source exciting new bloodlines which are unique to the UK, as well as upcoming, unproven bloodlines within the French Herd Book. As a result of this, almost all of the cattle on offer in this sale represent bloodlines which cannot be found elsewhere within the British Herd Book.

Whilst sourcing these genetics, we have remained focussed on breeding animals which have the 'true' Limousin conformation, as well as strong maternal characteristics (including milking abilities) and, most importantly, which are easy calving.

We have made a conscious decision to offer only younger animals for sale, who have their entire breeding lives ahead of them. Within our selection, we have included animals which can trace their pedigree back to the foundation cows purchased in 1976, including **GRANGE HANNAH** (lot 3) and **GRANGE JONQUILIA** (lot17); we have also included new bloodlines, such as **LARA** (lot 29) who was the first ever female sold by auction in the 35 year history of Lanaud Station.

The Herd is accredited clear of BVD and is categorised Johne's risk level 1; all cattle offered for sale were pre-movement TB tested on 23 July 2019. All mature animals have been vaccinated for BVD and Lepto – due to a shortage of vaccine supplies, younger animals have not yet been vaccinated.

Finally, we would like to thank Clive Roads and his team at McCartneys for all their assistance putting together this sale; our thanks also go to Chrissie Long at Country Girl Media for her photographic and publicity skills.

We look forward to welcoming fellow Limousin breeders, both established and new, to Brookfield Farm on 12 September.

George, Beth and Steven

AUCTIONEERS FOREWORD

We are delighted to be acting on behalf of Messrs G E Smith & Son (George, Beth & Steven) for this the Tenth Production Sale from their noted and highly respected Grange Herd. The herd which was founded in 1976 is synonymous with the Limousin breed and almost unique in the breeding families within the herd and those cattle offered for this sale.

It would be true to say that the catalogue reads like a “who’s Who” of the Limousin breed with an enormous depth of French breeding unrivalled within the UK.

Any established or new breeders will not be anything except highly impressed by the “type” and quality of the cattle on offer and we as Auctioneers can, without doubt, thoroughly recommend this sale to potential purchasers.

We look forward to welcoming you along with George, Beth and Steven to the sale and hope you have an enjoyable and memorable experience.

HONORE (23-13-131-020) s. Esquimau d. Donna (gs. Remix). Bred by **EARL Courtitarat (23)**, **Honore** was purchased at Lanaud Station in December 2013, and had some of the consistently highest EBV's of any of his peer group, being especially strong in growth, skeletal development and IMoCR. He is a son of **Esquimau**, who is also the sire of **Hanna**, the first prize in-calf heifer at the Paris Show in February 2014 (as well as **Gariguette** who was placed sixth in the same class); this is further backed up by the fact that his entire pedigree comprises animals which have been classified as RR or RRE by the French Herd Book. **Honore** has exceptional breed characteristics, coupled with superb conformation, and is very easy calving. His daughters have good maternal qualities, and have inherited the stretch and breed characteristics of their father. In addition, **Honore** has sired numerous bulls which have been sold on to both pedigree breeders and commercial herds where they have demonstrated their easy calving abilities. As with nearly of the stock bulls purchased, **Honore** represents yet another bloodline which cannot be found anywhere else within the British Herd Book.

INDIEN

Born 22/09/2013

57-06-012-651

ggd. URANA 57-03-347-134

INDIEN (57-06-012-651) s. Filou d. Epice (gs. Romeo). **Indien** is yet another bloodline which cannot be found anywhere else within the UK Herd Book. Bred by **GAEC de L'Agneau Lorrain (57)**, **Indien** was purchased at Lanaud Station in December 2014, where he had some of the highest figures for growth and skeletal development. However, this is paired with increased thickness and muscle, but not at the expense of calving ease due to an excellent pelvis and thickness of bone. **Indien** is passing these traits on to his progeny, with his eldest crop of daughters calving for the first time in 2019. His sire **Filou** is a son of **Cyrano**, and this bloodline is recognised for ease of calving in France. **Indien** has been running with a selection of cows forward in the sale, together with a number of females who have been retained.

LASER

Born 28/08/2015

43-15-027-153

ggd. LOLLY 18-95-093-093

LASER (43-15-027-153) s. Hamac d. Faction (gs. Ben). **Laser** was selected for inclusion in the prestigious Grand Cru Auction Sale in October 2017, organised by Interlim and held as part of the National Limousin Show, where he achieved the highest price of any of the animals included in the auction. This sale consists of only the very best animals in France, all of which are hand-picked by the Interlim team to ensure only the highest quality animals are put forward. Bred by **Bruno Ramousse (43)**, **Laser** is a son of **Hamac**, who himself was selected for inclusion in the Grand Cru Auction Sale in 2014 (where he also realised the highest price in the sale), being sold to **Roberto Sabatti** in Italy. **Hamac** subsequently went on to be shown in Italy where he was crowned overall Champion at the Italian National Show in both 2016 and 2017. **Laser** is a mixed type bull, with exceptional length, very good top line, and a balance between growth and muscular development. This conformation is backed up both his pedigree, as well as the EBV's of both his mother and father, which have an almost perfect balance between muscle and skeletal development. In addition, both his mother and father have exceptionally high scores for maternal characteristics, as well as calving ease. The 2019 calf crop represents the first progeny of **Laser**, and to date he has proven to be an easy calving sire, matching the expectations set by his French EBV's.

MYLORD

Born 25/02/2016

ggs. BOND 16-34-779-504

ggd. ALASKA 87-61-410-467

MYLORD (87-61-411-358) s. **Vetiver** d. **Invasion** (gs. **Expert**). Bred by **Philippe Deshoulières (87)**, **Mylord's** mother, **Invasion**, was purchased as in-calf heifer at Interlim's 2015 Grand Cru Auction Sale. Both his father and his mother have high scores for growth and skeletal development, and these traits have been inherited by **Mylord**. Crucially, **Mylord** has also inherited the easy calving ability for which **Vetiver** is renowned – he was used for the first time in 2018, and ran with a combination of first calving heifers and heifers which have calved for the first time in 2019. Furthermore, **Vetiver** is noted for his ability to improve maternal characteristics in his progeny. His mother's pedigree includes the noted cow **Voyelle**, bred by **GAEC Delage (23)**, which brings increased muscle and thickness to compliment the skeletal development found within her pedigree.

MONTY

Born 09/09/2016

72-33-436-559

Bred by Gaec Chauveau, Courtimont, 72590 Douillet Le Joly, France

ggs. PAPILLON 87-58-540-219

ggd. MADERE 72-96-110-817

MONTY (72-33-432-649) s. Dakar d. Hillary (gs. ExtraTD). Purchased at Lanaud Station in December 2017, **Monty** was bred by the respected **GAEC Chauveau (72)**. His father's pedigree includes the widely known **Star**, who has been widely used within France as an AI sire, with the ability to produce quality sons as well as daughters. This is complimented by **ExtraTD** in his mother's pedigree, who is exceptionally tall and long, and has passed these qualities on to his progeny. **Monty** has incredibly high scores for breed characteristics, functional abilities and skeletal development; during his time in Lanaud under test conditions, **Monty** recorded a daily live weight gain of 1.5kgs per day, which was amongst the highest of his series, and significantly above the target figure of 1.2kgs per day. This is coupled with easy calving figures, supported by the genomic testing performed in Lanaud Station, which put him in the top 5% of his contemporaries in that test series. **Monty** was used for the first time in 2018, running exclusively with heifers, in common with all new bulls purchased from Lanaud.

NORTON

Born 03/09/2017

12-18-008-512

Bred by Gaec Rouches, Le Monteil, 12600 Therondels, France

ggd. NOEMIE 12-98-169-512

NORTON (12-18-008-512) s. Latino d. Charlotte (gs. On-dit). The latest addition to The Grange Herd, **Norton** was purchased in November 2018, and was the 30th bull to have been purchased from Lanaud Station. He has been used for the first time in 2019 and has been running exclusively with heifers. His sire, **Latino**, was selected for the 2017 elite Grand Cru Sale held as part of the National Limousin Show, and his pedigree includes **Coluche**, who is noted for producing animals with growth and stretch. To compliment this, his mother's pedigree includes **On-dit**, who is noted for producing animals with greater muscle development. To further support his pedigree, **Norton** was bred by **GAEC Rouches**, who regularly has numerous bulls in the same sales at Lanaud (and has previously had seven bulls qualified in the same series.). During his time in Lanaud, **Norton** achieved some of the highest figures of his group, in particular for growth, skeletal development, breed characteristics and IMoCR, as well as a daily live weight gain of 1.6 kgs per day, one of the highest of the group, and greatly in excess of the target of 1.2 kgs per day.

Ran from 12/08/2019 until 11/09/2019 with **INDIEN 57-06-012-651**

GRANGE HANNAH has excellent breed characteristics coupled with maternal qualities and milking abilities. Her pedigree is a combination of some of the very best French genetics over the last 30 years – including **Perit-B**, **Marquis** and **Gabarit**, the first bull purchased at Lanaud Station by the Grange Herd in December 1992. Her mother's pedigree includes **Grange Juniata** who was the champion pedigree heifer at Smithfield in 1996; her grandmother, **Grange Tarashani**, is the mother of **Grange Cascade**, the mother of **Grange Gervaise** and **Grange Lequeux**, the only two British bred Limousins to have been sold to France and permitted entry into the French Limousin Herd Book. Her heifer calf at foot is sired by **Laser**, who was purchased at the prestigious Grand Cru Sale in October 2017, thus adding yet another set of quality genetics to this bloodline.

GRANGE INTRINSIC's pedigree combines some of the very best bulls to have been purchased from Lanaud Station. Sired by **Dolmen**, she has the frame and skeletal development of her father, coupled with the muscling inherited through the **Serge** bloodline. In addition, her mother's pedigree includes the exceptional **Gabarit** (s. **As de Pic**) who was the very first bull purchased from Lanaud Station by the Grange Herd in December 1992 and was arguably one of the very best bulls to have been imported in the UK.

Ran from 12/08/2019 until 11/09/2019 with **INDIEN 57-06-012-651**

GRANGE JACINTHE's mother, **FANNY**, was purchased at the elite Interlim Grand Cru Auction Sale at Saint-Gaudens in 2012 as a yearling heifer. Her mother has a good balance between muscle development and skeletal development, inherited from her father **Bambou**, who goes back to the highly noted **Geant RRE VS**. This bloodline has proven to be a successful bloodline on France, producing easy fleshing cattle, with growth and power. Sired by **Gaspacho**, **Jacinte** has also inherited the growth and maternal qualities of her father's bloodline, together with the width of pelvis to enable easy calving. In addition, she has a good thickness of bone and very good breed characteristics. Her bull calf at foot is sired by **Indien**, which adds another dimension to the pedigree in terms of increased muscling.

GRANGE JUANULLOA's mother, **Grange Fallon**, is a full sister to bother **Grange Gervaise** and **Grange Lequeux**, the only two British bred bulls to have been sold to France and to have gained entry into the French Herd Book. Her mother's bloodline includes **Chabal**, which brings additional muscular development, compared to her father **Flamant**, who added increased growth and skeletal development into his progeny. Both bloodlines have been proven to be easy calving, and both have excellent maternal characteristics. To date, all **Grange Juanulloa's** sons have been sold on to commercial breeders, who have been looking for easy calving, easy fleshing and milky bloodlines. Her current calf at foot, **Grange Pescara**, is sired by **Honore** – another easy calving bloodline, with muscling coupled with length and growth.

GRANGE JONQUILIA is half sister to **Grange Gervaise** and **Grange Lequeux**, the only two British bred Limousins to have been sold to France and admitted into the French Limousin Herd Book to date. Sired by **Dolmen**, **Grange Jonquilia** is very feminine, with a very good pelvis and thickness of bone, to ensure ease of calving. She has length and stretch, and a good top line and combines the best attributes of both her mother and father. In addition, she has a heifer calf at foot sired by **Laser** who was purchased at the elite Grand Cru Sale at the National Limousin Show in October 2017, and has been running with **Honore**. The opportunity to acquire a combination of these bloodlines represents the very best of the genetics within the herd.

JUJU was purchased privately in April 2016 from **Regis Lequeux**. Her sire, **Farwest**, is known for producing females with strong maternal characteristics and milking abilities, coupled with good skeletal development and growth, and these have been passed on to Juju. Her latest calculated EBV's include 118 for skeletal development, 107 for milking abilities and 109 for ease of calving; these mirror those of her father who also has high figures for these traits. Her mother, **Fabienne**, is one of the most consistent breeding females in the herd, and this is the only daughter of that bloodline which has been sold – all others have been retained.

LARA holds the unique accolade of being the very first female to have ever been sold by auction at Lanaud Station since it was opened in 1984. Her pedigree combines an unprecedented mixture of the best and most established bloodlines to be found in the French Herd Book, such as **Chatelain RR, On-dit RRE, Neuf RRE, Coluche RJ** and **Turbot RR**. The combination of the different conformations attached to these bloodlines is reflected in the latest set of EBV's calculated for her – growth of 112, skeletal development of 116, and 110 for IVMAT (maternal characteristics), all of which are combined with exceptional breed characteristics.

NOUNOU's mother, **Badiane**, was purchased at the prestigious Grand Cru Auction Sale organised by Interlim at the National Limousin Show in Brive-la-Gaillarde in September 2008. A daughter of **Dolmen**, **Nounou** has inherited the length and stretch of her father, coupled with the pelvis, thickness of bone and top line of her mother. **Badiane** had particularly high EBV's for growth, and was in the top 10% in France for maternal characteristics. She has been running with **Norton**, who was purchased in November 2018, and who also has very good EBV's for easy calving, growth and maternal qualities.

GRANGE NOUVELLE has an outstanding pedigree in terms of proven bloodlines which have consistently produced quality stock. She is sired by **Dolmen** who was noted for producing animals with growth and length, coupled with very good maternal characteristics. In addition, this has proven to be a very easy calving bloodline, and the **Sultan** bloodline is renowned for this in France. On her mother's side, we find the highly respected **Grange Cascade**, mother of **Grange Gervaise** and **Grange Lequeux**, the only two British bred bulls to have been admitted to the French Herd Book. Her mother's bloodline also contains **Grange Juniata**, the champion heifer at Smithfield in 1996, as well as **Perit-B**, sired by **Ideal 23**. This bloodline was exceptionally highly rated in France – so much so that **Perit-B** was the only one of **Ideal 23**'s progeny ever to have been exported from France; this was only achieved due to our extremely close relationship with Interlim and something which no other Limousin breeder in any other country was able to achieve.

GRANGE NOISELLE is the combination of two unique French bloodlines, combining the most important and desirable traits – growth and frame, maternal qualities, milking abilities and easy calving. Her father, **Gaspacho**, was sired by the highly respected **Coluche**, a consistent breeder and the only bull to have sired over 40 bulls to have been permitted entry to Lanaud Station to date. His pedigree contains **Turbot**, who was noted for producing growthy animals, and who can be found in the pedigree of such noted French bulls as **Bananier**. All **Gaspacho's** progeny have exceptionally good breed characteristics. On her mother's side is the **Dolmen** bloodline, which brings growth and easy calving, coupled with stretch. **Grange Noiseille's** grandmother, **Cassie**, was purchased at Interlim's prestigious Grand Cru sale held at Nantes in 2009. Prior to her importation into the UK, **Cassie** was widely shown in France with great success – she was placed first in her class on every outing except one, when she stood second. **Cassie** had an almost perfect balance between muscular and skeletal development, inherited from her sire, **Arlequin**, who was a prolific breeder of exceptional females.

INDIEN (57-06-012-651) s. Filou d. Epice (gs. Romeo). **Indien** is yet another bloodline which cannot be found anywhere else within the UK Herd Book. Bred by **GAEC de L'Agneau Lorrain (57)**, **Indien** was purchased at Lanaud Station in December 2014, where he had some of the highest figures for growth and skeletal development. However, this is paired with increased thickness and muscle, but not at the expense of calving ease due to an excellent pelvis and thickness of bone. **Indien** is passing these traits on to his progeny, with his eldest crop of daughters calving for the first time in 2019. His sire **Filou** is a son of **Cyrano**, and this bloodline is recognised for ease of calving in France. **Indien** has been running with a selection of cows forward in the sale, together with a number of females who have been retained.

MONTY (72-33-432-649) s. Dakar d. Hillary (gs. ExtraTD). Purchased at Lanaud Station in December 2017, **Monty** was bred by the respected **GAEC Chauveau (72)**. His father's pedigree includes the widely known **Star**, who has been widely used within France as an AI sire, with the ability to produce quality sons as well as daughters. This is complimented by **ExtraTD** in his mother's pedigree, who is exceptionally tall and long, and has passed these qualities on to his progeny. **Monty** has incredibly high scores for breed characteristics, functional abilities and skeletal development; during his time in Lanaud under test conditions, **Monty** recorded a daily live weight gain of 1.5kgs per day, which was amongst the highest of his series, and significantly above the target figure of 1.2kgs per day. This is coupled with easy calving figures, supported by the genomic testing performed in Lanaud Station, which put him in the top 5% of his contemporaries in that test series. **Monty** was used for the first time in 2018, running exclusively with heifers, in common with all new bulls purchased from Lanaud.

FORMER HERD SIRES

BOILEAU (19-32-539-585) s. Voisin, d. Nandy (gs. Indigo). At the time of his purchase in November 2007, **Boileau's** bloodlines were unique in the UK, as well as being unproven in France – he was from the first crop of **Voisin's** calves and was the first of his sons to enter Lanaud Station. In addition, **Voisin** was one of the first crop of **Snoopy's** calves, demonstrating just how new this bloodline was at the time. During his breeding career, **Boileau** put his stamp of length, muscular development and good top line on his progeny, both male and female. **Boileau** was sold in the 2008 Grange Sale solely due to the significantly lower number of cows retained at that time.

CHABAL (16-34-779-666) s. Recif, d. Suffisante (gs. Figaro). Purchased at Lanaud Station in November 2008, **Chabal** was one of the highest performing bulls within his peer group, gaining exceptionally high scores for Growth Potential, Skeletal Development and Functional Abilities. Bred by **Domaine des Etangs (16)**, **Chabal's** sire, **Recif**, was highly respected in France, and **Chabal** was the only one of his progeny ever to be exported from France – all others were retained within the French Herd, due to his ability to consistently breed high quality females. In addition to his conformation, **Chabal** was an exceptionally easy calving bull and produced progeny with great maternal characteristics and had the rare ability to produce both male and female progeny. He was the sire of both **Grange Gervaise** and **Grange Lequeux**, two full brothers, who were the first and second British bred Limousins ever to be exported from the UK to France and permitted entry to the French Limousin Herd Book.

DOLMEN (87-09-832-289) s. Sultan, d. Syntese (gs. Malibu). Bred by the highly respected **GAEC Pro-Lim (87)** herd, **Dolmen** was purchased from Lanaud in December 2009. His sire, **Sultan**, and his half-brother, **Aramis**, have both been used extensively in France and their bloodlines are frequently found in Lanaud Station, with their progeny achieving the Reproducteur Jeune qualification. **Dolmen** had a very placid temperament, and the length and depth of his sire could be found in his own conformation, and he in turn passed this on to his progeny. In addition, the bloodline was renowned for maternal characteristics and easy calving abilities.

DOUGLAS (19-33-428-102) s. Vautour, d. Badiane (gs. Roudoudou). **Douglas's** mother was purchased as an in-calf heifer at the prestigious Grand Cru sale, organised by Interlim and held at the National Limousin show in Brive-la-Gaillarde in September 2008. Bred by **EARL Jean-Marc Verdier (19)**, **Douglas** was retained for use in the herd prior to being sold to the Firtree Herd. His pedigree contains a number of noted bloodlines, being a direct descendent of **Vautour**, as well as carrying the **Roudoudou** and **Noumea** bloodlines, which were famed for growth and skeletal development, coupled with easy calving abilities.

EPICIER (72-54-796-706) s. Bisou, d. Sandie (gs. Dea). **Epicier** was purchased at Lanaud Station in November 2010 and again contained unique bloodlines for the UK. One of the first **Bisou** sons to pass through Lanaud Station, **Epicier** shared his father's more muscular conformation, coupled with excellent breed characteristics; however, this was not at the expense of easy calving abilities. **Epicier** was used within the Grange Herd prior to being sold on to Aoifecannon pedigree herd.

FLAMANT (65-06-380-679) s. Vivaldi, d. Bulle (gs. Platine). Bred by **EARL Arrouy (65)** in the Pyrenees, **Flamant** was an exceptionally tall, growthy bull, paired with very good breed characteristics. Purchased at Lanaud Station in November 2011, his skeletal development score of 123 was the highest for any of the bulls in his group, and his conformation was true to his herd origins and pedigree. His pedigree contains a number of very highly qualified animals, particularly on his mother's side, including the highly respected **Bulle RR** and **Platine RR-VS**. His father's bloodline is noted for its ability to produce easy calving animals, and this was passed on to **Flamant**, along with stretch and growth in terms of conformation.

GASPACHO (12-12-012-805) s. Coluche, d. Ukraine (gs. Orage). At the time of his purchase in December 2012, **Gaspacho** was the first animal to contain the **Coluche** bloodline in the UK. This bloodline has since been widely recognised and is now found extensively within France, as well as other European countries. **Coluche** progeny regularly achieve the highest prices at Lanaud Station, and he was the first bull to have sired four Reproducteur Jeune bulls in the same sale at Lanaud Station in December 2012, and to date, he has fathered over 40 bulls which have been selected for entry to Lanaud. The bloodline is noted for producing growthy animals, with good skeletal development, excellent breed characteristics and maternal qualities, all of which are found in **Gaspacho's** progeny. In his father's pedigree, the highly respected bulls **Turbot** and **Plan** can be found, together with the female **Naphta**, a combination which has produced such bulls as **Bananier** and **Adams** which have been widely used in France.

LABEUR (79-38-571-626) s. Eddy d. Ebauche (gs. Ballast). A son of the well known **Eddy**, Labeur was bred by **EARL Bruneau-Martin (79)** and purchased at Lanaud Station in December 2015. **Eddy** is well known in France, being used an AI sire even though he is privately owned (bred by **Regis Geraud (19)**), he is renowned for producing long, growthy animals and these were traits inherited by **Labeur**. An easy calving sire, **Labeur** was used for one season in the Grange Herd, prior to being sold on to a commercial herd which was particularly keen to acquire him. His mother, **Ebauche**, is a consistent breeder, demonstrated by the fact that her 2015 born calf was selected for entry into Lanaud Station, and was qualified and sold in November 2016.

NOTES

CONDITIONS OF SALE

1. The highest bidder shall be the purchaser and if any dispute shall arise between two or more bidders, the lot in dispute is to be put up again at the sum last bid or the Auctioneers may declare the purchaser.
2. The bidding is to be ruled by the auctioneers who may without giving any reason refuse to accept the bid of any person.
3. No person shall retract a bid without permission of the Auctioneers, who reserves the right to himself of refusing a bid, and also the right of withdrawing any lot or lots from the sale.
4. No bidder may advance less at a bid than the sum named from time to time by the Auctioneers.
5. The Purchaser must declare their name and address and if required to, pay the Auctioneers or his clerk the amount of purchase money immediately on the fall of the hammer. In default of which the lot or lots shall be offered again and re-sold, and under no circumstances must any lot be removed without first obtaining a pass from the clerk.
6. Title to each asset sold will only pass on payment in full by the Purchaser. Purchasers' attention is drawn to the Retention of Title clause 20.7 on the Conditions of Sale recommended for use in livestock auction markets by the Livestock Auctioneers Association as displayed in the sale office.
7. The Auctioneers reserve the right of deviating from the catalogue either by amalgamation or dividing the lots, as circumstances may require, and also by deviating from the order of sale.
8. The lots are to be under the immediate care of the Purchasers who must take the same with all faults, imperfections and errors of description (if any) and remove the same at their own expense and risk, and no purchaser shall be allowed to remove lots from the premises until the whole of the purchase money is paid.
9. All statements contained in this catalogue as to the authenticity, genuineness, date, age, condition, or quality of any lot are statements of opinion and are not taken as to implying, statements or representations of fact.
10. Intending purchasers must satisfy themselves by inspection as to all such matters as to the physical description of any lot.
11. Neither the Vendor(s) of any lot nor the Auctioneers make or give any representation or warranty as to fitness for purpose or the quality of lots sold.
12. If any lots are described at the time of sale as in 'working order' such lots shall have no defect which renders them incapable of the reasonable work for which they are intended and they must be capable of performing such work.
13. The Purchaser is to make good any damage done to the premises by the removal or otherwise of any lot or lots.
14. The Purchaser shall not be entitled to any right of "Set Off" against the Vendor or the Auctioneer.
15. In the case of lots upon which this is a reserve, the Auctioneers shall have the right to bid on behalf of the seller.
16. Upon failure to comply with the above conditions, the uncleared lots will be re-sold either or by public or private sale and the deficiency (if any) and all expenses attendant thereon, shall

be made good by the defaulters at this auction, who shall have no claim for any surplus that may arise.

17. The Auctioneers may rescind any sale within 3 hours of the final lot being sold if the lot has been sold under reserve. In the event of such rescission the purchase price or any part already paid by the Buyer shall be repaid but the parties and the Auctioneers shall be under no further liability to each other.

18. **LIVESTOCK.** ALL LIVESTOCK ARE SOLD WITH THE WARRANTIES AND RESPONSIBILITIES AS LISTED IN THE CONDITIONS OF SALE FOR CATTLE, CALVES, SHEEP AND PIGS AT LIVESTOCK AUCTION MARKETS RECOMMENDED FOR USE BY THE LIVESTOCK AUCTIONEERS ASSOCIATION WHICH ARE DISPLAYED IN THE AUCTIONEER'S OFFICE AT THIS SALE UNLESS SPECIFIC BREED SOCIETY OR NBA CONDITIONS APPLY IN WHICH CASE THEY TAKE PRIORITY.

19. **COMPLIANCE WITH ROAD TRAFFIC ACTS**

The Purchaser of any vehicle or trailer is responsible for complying with all legal requirements as to the construction and the use of such vehicle or trailer and for obtaining all certificates, permits or other authorisations necessary before such vehicle or trailer can be used on the road.

20. **HEALTH AND SAFETY AT WORK ACT 1974 AND ALL OTHER ACTS AND REGULATIONS APPLICABLE TO FARM SAFETY**

The Purchaser of any lots is responsible for complying with all legal requirements as the safe use of lots purchased at the sale and shall ensure compliance with all relevant legislation relating to the safe use of such lots.

21. **TRADE DESCRIPTIONS ACT 1968**

The Vendor is reminded that under the terms of the Traders Description Act 1968 the Vendor of any lots to which a false description is applied may be guilty of a criminal offence punishable by fine or imprisonment.

MEMBER'S ACCOUNTS REGULATIONS 1993

NOTICE REQUIRED UNDER REGULATION 2A

This sale is not required to comply with the requirements of the Member's Accounts Regulations of the Royal Institution of Chartered Surveyors.
