

Dispersal of the
HOMEBYRES
LIMOUSIN HERD

Saturday 30th November 2019

Borderway Mart, Carlisle, CA1 2RS

*See through my eyes,
understand my needs,
make the complex simple.*

Running your farm is like managing a complicated business. It can involve large numbers of people, complex family arrangements and demands. There's also the added responsibility of preserving your estate for future generations. You need an adviser who is committed to your relationship for the long term.

We are unique in our ability to offer a full range of services, across investment management, accountancy, tax and financial planning – covering your full business and personal needs. We will work alongside you to develop long-term strategies which aim to protect your assets and help you achieve your financial needs. The advice you receive from us will be as unique as your family and your business.

BIO SECURITY RULES
HARRISON & HETHERINGTON LIMITED, BORDERWAY MART, CARLISLE
Notice to all Visitors and Traders

Please read and observe the following:

- Excessive dirty vehicles will not be allowed entry, therefore ensure vehicle is clean before arrival.
- All vehicles transporting livestock will be subject to a documentation check before entry to market site.
- All visitors and traders must ensure they wear clean clothing and footwear before entering market site.
- All visitors and traders using car park areas please use main entrance.
- Hauliers and farmers delivering livestock must disinfect their boots before and after loading or unloading.
- Livestock purchased or unsold will not be allowed to move unless an authorised "pass slip" has been issued by the main office.
- No livestock will be allowed to remain on the premises after a sale.
- Only staff, livestock hauliers, owners or their agents are permitted to load or unload livestock.
- Wash hands thoroughly when leaving pennage areas.
- Please observe our staff's instructions at all times.

Our on site Biosecurity Officer, Stuart Graham, will only be too pleased to give you assistance.

First in the Field...

General Information & Sale Notes

LOCATION: The Sale will be held in the Borderway Mart, Carlisle Cumbria. Motorists should leave the M6 at Junction 43 and follow CARLISLE signs. The market is on the left hand side of the road within 1/4 mile of M6.

VIEWING: The Sale Cattle will be available for viewing at Borderway Mart, Carlisle on Friday 29th November from 4pm - 7pm and morning of the sale.

ON-LINE BIDDING FACILITY: Will be available for this sale.

Log onto <https://harrisonandhetherington.co.uk/live-streaming/> for further details to register.

HOTELS: There are many hotels within the area, ranging from four star to excellent Bed and Breakfast accommodation, a list of which may be found on page 4 of the catalogue.

CONDITIONS OF SALE: All animals are sold under British Limousin Cattle Society auction rules and conditions of sale drawn up by the N.B.A. These entries will be sold subject to these rules along with the Auctioneers' General Conditions of Sale, both available on request. In the event of any discrepancy between the two sets of conditions, the N.B.A. conditions of sale shall prevail.

INSURANCE: A representative of H & H Insurance Brokers, will be present at the sale and will be pleased to quote Purchasers for transit and other risks.

METHOD OF SALE: All cattle will be sold in guineas (105 pence) and strictly in catalogue order, unless any alteration is announced by the Auctioneers.

COMMISSIONS: The Auctioneers will dutifully execute commissions to purchase for buyers unable to attend the sale personally, upon receipt of written instructions.

REGISTRATIONS: All pedigree stock in the Sale are registered with the British Limousin Cattle Society (Tel. 02476 696500).

PEDIGREE TRANSFERS: Pedigree transfers will automatically be transferred free of charge to all BLCS members.

SEMEN ROYALTY SCHEME BULL REGISTER: Purchasers are asked to note that where a female is catalogued as being served/inseminated by a "Semen Royalty" Sire the appropriate royalty will be payable by the purchaser prior to registration of the calf.

SETTLEMENT AND CLEARANCE OF STOCK: Settlement in full is due immediately at the close of Sale. No animal may leave the Sale Premises without an official 'Pass Slip', obtainable only from the Auctioneers upon settlement.

HOMEBYRES HERD

The Limousin breed seemed the obvious choice when we decided to establish our pedigree Homebyres beef herd back in 1984 with the purchase of the first of several maiden heifers. We have never regretted that decision with the breed rightfully going on to become the most popular in the UK.

Our herd has grown to nearly 100 cows enjoying success in the show and sale ring at Carlisle, Perth and Stirling resulting in four Supreme and two Reserve Champions, 17 sales at over 5 figures and a top price of 17,000gns. Many friends have been made and great places visited at home and abroad. As a result, the decision to disperse our Homebyres Herd over the next year has been a difficult one to make but a need to lessen our work load and enjoy a change in farm and life policy has driven this decision.

Our cattle are genuine, recorded and we have been members of the SAC health scheme since 1999. Cows are calved in spring and autumn groups, most AI'd first before running with the bulls. ET has also been used more recently to try and enhance the very best lines. Progeny are marketed with the best brought out for the breeding sales or retained in the herd; the lesser ones fattened. Our aim has been to sell 15 to 20 breeding bulls a year.

The most successful female purchases have been Harvest Snowdrop, Broadmeadows Dainsi, Fieldfare Elizabeth, Partridge Felicity, Ardrack Opal and Sarkley Veleta. More than half of the herd descend from the '7 week old' purchase of Broadmeadows Dainsi (Cannon's full sister) notably her two daughters Udainsi and Bainsi and granddaughter Dollie.

The 'flower' line from Harvest Snowdrop are the second most prevalent with Sage, Freesia and Vanhee all breeding with distinction. The 'city' family from Partridge Felicity have excelled too especially Floricity and Duplicity.

Although AI has been used of late many stock bulls have been purchased over the years with Ronick Dumby and his son Homebyres Homer breeding particularly well for us. Kaprico Davelle and Larkhill Julius more recently have been the stars but Balnacraig Supreme was the most influential purchase especially his son Homebyres Vanhee. Both Vanhee and Homebyres Arnott (by Sympa) have been outstanding breeders for us selling seven sons between them at 10,000gns and above - most of our best and older cows today being sired by them.

Updated information regarding the scanning results for the spring calving cows and service details for those calving in the autumn will be available on sale day. The cows which are close to calving or newly calved and unable to come to the sale will be sold in the spring. The remaining 'bull team' will be sold at the forthcoming sales in 2020. The recipients carrying embryo calves won't be sold until PD'd in calf at over 3 months.

A huge thank you to our helpers over the years and all our valued customers, it has been a privilege and we wish all those who go on to purchase today every success in the future.

John Logan

Health Declaration

The Homebyres herd has been a member of the SAC Premium Cattle Health Scheme since 1999.

BVD accredited since 2007 with all breeding stock vaccinated annually against BVD with the Bovidec and latterly Bovela vaccine.

The herd is in Johnes Risk Level 1. The most recent annual Johnes test was performed on 15.3.19 and all eligible animals tested negative.

The herd is located in a TB free area (4yr testing), the last TB test carried out on 22.01.18 with all eligible animals testing clear.

All breeding stock and calves are vaccinated with Bravoxin and all the sale calves have been vaccinated with Rispoval IntraNasal at housing.

LAP19-1829

UK 560248/401829

Sire: ***WESTPIT HIGHLANDER GAZ12-002****HOMEBYRES FIRSTLADY** is from the **Flower** family and is a very regular breeder.

The Galbraith logo is positioned in the top left corner. It features the word "Galbraith" in a bold, dark blue sans-serif font. A small orange square is placed above the letter 'i'.The background of the entire page is a scenic photograph of a rural landscape. It shows rolling green hills, fields, and trees under a bright sky with scattered clouds. The sun is low on the horizon, creating a warm, golden light across the scene.

We've got the North of England & Scotland Covered

- Land Management
- Diversification Advice
- Sales & Valuation
- Forestry
- Renewable Energy
- Agricultural Loans

The AMC AGENT logo is located on the right side of the page. It consists of the letters "AMC" in a large, bold, serif font, with the word "AGENT" in a smaller, all-caps, sans-serif font directly below it. A thin horizontal line separates the two.

ALKALINE pH ADJUTIVE

ENHANCED GRAIN PRESERVATION

BENEFITS

Preservation - Can be used to treat dry or moist grain (14-22% moisture).
Protein - Ammonia is a source of nitrogen and therefore potential protein which rumen microbes synthesise into microbial protein.
Typically increases the crude protein of grain by 3-4.5% thus reducing requirement for bought-in feeds.
pH - Produces grain with pH 8.5-9.5 which helps to buffer rumen pH and improves feed intake whilst avoiding digestive disfunction.

NUTRITIONAL SUPPORT

Norvite has a team of nutritionists and feed advisers to provide a full support package including feed analysis, rationing formulation and feed advice.

ALPHA is available in 25kg bags.

For convenience on farm treatment packs are available as follows:

ALPHA 25 (375kg Urea + 125kg ALPHA) to treat 25 tonnes of grain

ALPHA 50 (750kg Urea + 250kg ALPHA) to treat 50 tonnes of grain.

PRACTICAL SOLUTION

Can be used to preserve a range of grains (barley, maize, oats and wheat).
Applicable for natural grain at harvest (moist) for dried grain throughout the year (with the addition of water to activate urease enzyme).

ALPHA grain can be fed safely to all stages of cattle.

Dairy Cattle (lactating):
up to 8kg/head/day

Dairy Cattle (youngstock):
up to 4kg/head/day

Beef Cattle (finishing):
ad lib

Beef Cattle (growing):
up to 4kg/head/day

Ensure mineral supplements account for Non-Protein Nitrogen (NPN) and that the diet is adequately balanced with sulphur.

The background of the lower half of the page is a warm, golden-toned photograph. It shows a pair of hands gently holding several stalks of wheat. The wheat is in sharp focus, while the hands are slightly blurred, creating a sense of depth. The lighting is soft and warm, suggesting a sunrise or sunset. The text 'AGRICULTURAL ACCOUNTING SPECIALISTS' is overlaid on this image in a dark purple, serif font.

*See through my eyes,
understand my needs,
make the complex simple.*

Running your farm is like managing a complicated business. It can involve large numbers of people, complex family arrangements and demands. There's also the added responsibility of preserving your estate for future generations. You need an adviser who is committed to your relationship for the long term.

We are unique in our ability to offer a full range of services, across investment management, accountancy, tax and financial planning — covering your full business and personal needs. We will work alongside you to develop long-term strategies which aim to protect your assets and help you achieve your financial needs. The advice you receive from us will be as unique as your family and your business.

The Galbraith logo is positioned in the top left corner. It features the word "Galbraith" in a bold, dark blue sans-serif font. A small orange square is placed above the letter 'i'.The background of the entire page is a scenic photograph of a rural landscape. It shows rolling green hills, fields, and trees under a bright sky with scattered clouds. The sun is low on the horizon, creating a warm, golden light across the scene.

We've got the North of England & Scotland Covered

- Land Management
- Diversification Advice
- Sales & Valuation
- Forestry
- Renewable Energy
- Agricultural Loans

The AMC AGENT logo is located on the right side of the page. It consists of the letters "AMC" in a large, bold, serif font, with the word "AGENT" in a smaller, all-caps, sans-serif font directly beneath it.

ENHANCED GRAIN PRESERVATION

BENEFITS

Preservation - Can be used to treat dry or moist grain (14-22% moisture).
Protein - Ammonia is a source of nitrogen and therefore potential protein which rumen microbes synthesise into microbial protein.
Typically increases the crude protein of grain by 3-4.5% thus reducing requirement for bought-in feeds.
pH - Produces grain with pH 8.5-9.5 which helps to buffer rumen pH and improves feed intake whilst avoiding digestive disfunction.

NUTRITIONAL SUPPORT

Norvite has a team of nutritionists and feed advisers to provide a full support package including feed analysis, rationing formulation and feed advice.

ALPHA is available in 25kg bags.
For convenience on farm treatment packs are available as follows:

ALPHA 25 (375kg Urea + 125kg ALPHA) to treat 25 tonnes of grain
ALPHA 50 (750kg Urea + 250kg ALPHA) to treat 50 tonnes of grain.

PRACTICAL SOLUTION

Can be used to preserve a range of grains (barley, maize, oats and wheat).
Applicable for natural grain at harvest (moist) for dried grain throughout the year (with the addition of water to activate urease enzyme).

ALPHA grain can be fed safely to all stages of cattle.

Dairy Cattle (lactating):
up to 8kg/head/day

Dairy Cattle (youngstock):
up to 4kg/head/day

Beef Cattle (finishing):
ad lib

Beef Cattle (growing):
up to 4kg/head/day

Ensure mineral supplements account for Non-Protein Nitrogen (NPN) and that the diet is adequately balanced with sulphur.

The background of the lower half of the flyer is a warm, golden-toned photograph. It depicts a pair of hands gently cupping several stalks of wheat. The scene is backlit by a bright sun, creating a soft, hazy glow and long, gentle shadows. The overall mood is peaceful and agricultural.

1. Birth Type

'Got by AI' indicates whether the calf was a result of an AI service. If blank, the dam was naturally served. 'Natural calf' indicates the calf was born to its biological dam. 'ET calf' indicates the calf was born as a result of embryo transplant.

2. Myostatin

"Not tested" indicates that no Myostatin test is currently available for the animal. Full details on the Myostatin variants and their effects on performance can be found on the Limousin Society website www.limousin.co.uk, search in 'performance programmes'. In summary:

The Variants:

F94L	Animals with two copies of this gene (ie F94L/F94L) exhibit an increase in muscling (by up to 19%) with no associated increased in calving difficulty, lowered fertility or longevity and by far the majority of animals in the breed carry this gene. Heterozygous animals (those with one copy of the gene) also exhibit these characteristics but not to the same degree.
NT821	Animals with two copies of the gene (ie nt821/nt821) will exhibit characteristics of larger loin depths, reduced fat depths and large, rounded rump and thighs. However, unlike F94L, animals with two copies may also have slightly heavier birth weights bringing with it the potential for more difficult calvings. If animals are 'heterozygous' with F94L (ie F94L/nt821) they will still exhibit quality carcase characteristics but are less likely to be affected by more difficult calvings.
Q204X	Animals with two copies of the gene (ie Q204X/Q204X) will exhibit characteristics of larger loin depth, reduced fat cover and greater meat tenderness. However, they may also have the potential to exhibit larger birth weight and, if females, slightly reduced milking ability. Animals that are 'heterozygous' with F94L (ie F94L/Q204X) will still exhibit quality carcase characteristics but are less likely to be affected by larger birth weights and reduced milking ability.

Two further variants of Myostatin exist in the population but are relatively uncommon in their occurrence. Known as nt419 and E291X, their effects are similar to nt821 and Q204X respectively.

The recognised benefits of Myostatin are:

- ✓ **Increased Meat Yield** – by up to 19%.
- ✓ **More feed efficient**
- ✓ **Higher meat quality** – increased tenderness, reduced fat content, higher polyunsaturated fats

Using Myostatin information

An important factor to remember is that carcase traits (muscling, fat cover etc), calving traits and milk traits in cattle are controlled by MANY genes. Myostatin is only one of them and, as such, it is not an absolute predictor of an animal's performance.

A Myostatin genotype is a further bit of information that may help your decision, but it should be used in conjunction with wider information such as Estimated Breeding Values (EBVs), which bring together information of actual performance from the animal itself, its herdmates and its relatives to predict genetic merit, and your own judgment on type and pedigree.

3. Genetic Colour

Colour and polled/horned genes typically come in pairs called alleles. One is inherited from the sire and one from the dam. Where an animal's alleles are the same, it is said to be 'Homozygous' (Hom.) Where the alleles are different (because there is more than one variant of the gene), the animal is said to be 'Heterozygous' (Het.)

"Hom. Red" – animals will be red and will pass on red genes.

"Hom. Black" – animals will be black and will pass on black genes. All calves will be black, since black colour genes are dominant.

"Het. Black" – animals will be black and will pass on either a red or black gene.

"Het. Red" – animals will be red and will pass on a red gene or a colour gene known as the 'wild type' that is non-colour determinate. (The coat colour of calves inheriting the wild type gene will be governed by the gene they inherit from the other parent. It is rare, but it is also possible for an animal to be homozygous for the wild type gene, in which case they will be reddish/brown to brownish/black).

4. Genetics for Horned/Polled Status

A bull that is "Hom. Polled" - will be polled himself and all calves will be polled (since he only has polled genes to pass on and they are dominant).

A bull that is "Het. Polled" – will be polled himself and will produce some polled and some horned calves (assuming the cows are all horned).

A bull that is "Hom. Horned" – will be horned himself and will pass only horned genes to his calves.

For more information on both Genetic Colour and Polled/Horned, go to www.limousin.co.uk, search in 'performance programmes' or scan the QR code above.

5. Estimated Breeding Values and Genomic Estimated Breeding Values (EBVs & GEBVs)

EBVs & GEBVs are expressed in the same unit as the recorded trait (eg kgs for 400 Day Weight, mm for Muscle Depth etc) are relative to the Breed Average.

- a. In sale catalogues, Breed Average for each trait is represented by the vertical line that is central on the bar chart...
 - ✓ Bars that lie to the right of that line indicate EBVs/GEBVs that are above average. The further to the right they lie, the higher above Breed Average they are.
 - ✓ Equally, bars that lie to the left of the line indicate EBVs/GEBVs that are below Breed Average. The further to the left they are, the further below Breed Average they are.
- b. Accuracy Values (Acc%) are expressed as a % and indicate the quantity and quality of records used to produce each EBV, GEBV or Index. The closer they are to 100%, the more accurate the EBV. Highly accurate values are less likely to change over time.
- c. The numeric EBV & GEBV values on the charts can be used to further refine comparison with the breed using the Breed Benchmark which is updated annually.

For more information on EBVs and GEBVs, go to www.limousin.co.uk and search under 'Breed Improvement' in the main menu or scan the QR code opposite.

EBV, GEBV and pedigree information on all Limousin cattle are just a few internet clicks away...

Step 1: Go to www.taurusdata.co.uk

Step 2: In the 'All Breeds Quick Search' box type the name or ear number of the animal you are interested in or click on the 'Breeder Search' button to look at all animals belonging to or bred by a particular breeder.

The site will then tell you the animal's owner/breeder details, its breeding values, its pedigree and list its progeny with full links to all of their information.

6. Adjusted Weights

These are the 'raw' weights recorded for the animal throughout its early growing stages. They are adjusted for age, but are not adjusted for any other factor such as management, nutrition, dam age, differences between farms etc.

LIMOUSIN

For further information or if you have any query, please let us know -
telephone 02476 696500, e-mail info@limousin.co.uk or speak to
Society staff and Council members attending the sale.

Vendors' Index - The pedigree, performance and health information included in this catalogue is as supplied by, or on behalf of the vendor. The responsibility for the accuracy of the information therefore rests solely with the vendor and not with the British Limousin Cattle Society Ltd (BLCS). It should be noted that the Estimated Breeding Values for all animals change over time, as new performance records come available. While the BLCS seeks to ensure that the information contained in this catalogue is accurate at the time of printing, no warranty is given in respect thereof and, to the maximum extent permitted by law, the BLCS shall have no liability for any loss, damage or injury howsoever caused (including that caused by negligence) or suffered directly or indirectly in relation to information and opinions contained in or omitted from this publication.

HEALTH AND SAFETY RULES HARRISON & HETHERINGTON LIMITED NOTICE TO ALL VISITORS AND TRADERS PLEASE READ AND OBSERVE THE FOLLOWING

All visitors and traders on site will be responsible for ensuring that they and their employees or sub-contractors engaged by them comply with all legal requirements, including the Health and Safety At Work etc., Act 1974, The Management of Health and Safety At Work Regulations, The Provision And Use of Work Equipment Regulations, etc.

All visitors and traders will be responsible for ensuring that their operations in no way affect the integrity of the company or its fire, safety or security arrangements and in no way compromise the health and safety and welfare of other visitors to and or employees of Harrison & Hetherington.

Although it is the visitors and traders responsibility to ensure that plant, equipment and systems in work are safe, Harrison & Hetherington Limited reserve the right to ask any visitor or trader to leave the market for any breaches in the Health and Safety Rules and/or Regulations.

Vendors must inform Harrison & Hetherington Limited of any livestock due to attend the market whose temperament, behaviour or condition may call for additional precautions for its safe handling.

When loading or unloading livestock handlers must ensure that the dock and vehicle gates are securely fixed so as to prevent the escape of animals.

Traders are responsible for providing and maintaining suitable livestock handling equipment. They should ensure that livestock handlers are fit, experienced in livestock handling and familiar with the livestock in their charge.

Children must not be permitted in any area where they may be at risk from livestock or machinery.

In the case of bulls, during the period when the show/sale is open to visitors, bulls in stalls or pens should not be left unattended. If the handler is temporarily absent, arrangements should be made with another vendor, steward or member of Harrison & Hetherington staff to oversee the bull until the handler returns.

Handling of Livestock at shows and sales: Harrison & Hetherington Limited recommend that an adult person should accompany any junior person during the showing/sale of livestock in the ring and reserves the right to intervene at any point if, in the company's opinion, the person showing the livestock is at risk in undertaking that activity.

Passageways must be kept clear at all times during the auction sale. **PLEASE DO NOT STAND IN THE SALE RING ENTRANCE AND EXIT PASSAGES.**

The auction ring man escapes and refuges must be kept clear at all times.

All portable electrical equipment supplied and/or used by visitors and traders must be safe and fit for the purpose and should have a valid portable appliance test certificate.

AUCTIONEER'S TERMS & CONDITIONS OF SALE

(Incorporating the Auctioneer's
Terms and Conditions)

1. The biddings to be regulated by the Auctioneers and the highest bidder, subject to the Vendor's reserve (if any), to be the purchaser. No bid shall be retracted and if any dispute should arise between two or more bidders, the Lot in dispute to be put up again and resold, or the Auctioneers may determine the dispute at their own discretion and their decision shall be final. The Auctioneers reserve the right to refuse the bid of any person without being called upon to give reason for such action.
2. The Purchaser to give his full name and dwelling place and pay for all Lots purchased immediately at the close of sale. No Lot or Lots shall be removed from the sale premises until paid for and a pass-out slip obtained from the Auctioneer's clerk but each and every Lot shall immediately at the fall of the hammer be considered as delivered and be and remain in every respect at the absolute risk and expense of the respective purchaser or purchasers thereof and shall be removed from the sale premises at the purchaser's expense. The right of property shall not pass until the full purchase price is paid.
3. Purchasers paying by cheque must be prepared, if required, to produce a banker's reference. As a result of the Money Laundering Regulations (2003) the auctioneers are unable to accept cash payments in excess of nine thousand pounds sterling for any any single or linked purchase transaction.
4. All statements in the catalogue, or made by the Auctioneers at the time of sale, also the correct identification of the animals, are the entire responsibility of the Vendors. The Auctioneers take no personal responsibility for the correctness of such statements or identities.
5. All statements in the catalogue, or any made by the Auctioneers at the time of sale relating to any veterinary or other tests are to be taken as statements of fact only. No such statements shall guarantee the purchaser of any animal against loss arising from the subsequent reaction of such animal to any test administered after the sale and the Vendors shall not be liable in any way should this occur.
6. All stock is sold subject to the Conditions of Sale recommended for use at markets by the Livestock Auctioneers' Markets Committee for England and Wales except in so far as these conflict with any Special Conditions applicable to the sale of pedigree stock, when the latter Conditions shall prevail.
7. Neither the Vendors nor the Auctioneers will be responsible for any accident or injury to persons or property, through fire or any other cause whatsoever, nor for any damage by animals prior to, during or after the sale.
8. No undertaking by the Auctioneers or their servants to take charge of any Lot or Lots after the sale or to forward them to their destination shall be held to impose upon the Auctioneers any legal obligation or vitiate any of these Conditions.
9. Inasmuch as the Auctioneers act as agents for a disclosed principal they shall not be considered personally responsible for any default on the part of either purchasers or Vendors and the remedy shall be against them only and not against the Auctioneers.
10. If these conditions are unfulfilled, the Vendors or Auctioneers shall have the power to resell the Lots, retaining any surplus and charging any deficiency and expense to the defaulter.
11. You have a right to know how we will use the information you have provided to us. We may share the information with other members of our group and may make this information available to relevant media groups and other interested parties on request. We and other members of the group may contact you by telephone, e-mail, post or fax to inform you of products or services available. If you do not want to be contacted for marketing purposes or do not wish your information to be made available to any other parties please notify us in writing.
