The benefits of the system

- Easy, simple and effective
- Register for free (at least 24 hours prior to the sale)
- Login to see and hear the sale
- See the lots in high definition before they enter the sale ring
- View catalogue information on items in the sale
- Bid real time and experience the excitement of the live auction

We recommend viewing the Online Bidding tutorial video prior to registration to understand the process of becoming an internet bidder

**If you are already
registered click on the
LIVE RING BIDDING button**

General Information & Sale Notes

LOCATION: The Sale will be held in the Borderway Mart, Carlisle Cumbria. Motorists should leave the M6 at Junction 43 and follow CARLISLE signs. The market is on the left hand side of the road within 1/4 mile of M6.

VIEWING: The Sale Cattle will be available for viewing at Borderway Mart, Carlisle on morning of the sale.

ON-LINE BIDDING FACILITY: Will be available for this sale.

Log onto <https://harrisonandhetherington.co.uk/live-streaming/> for further details to register.

CONDITIONS OF SALE: All animals are sold under British Limousin Cattle Society auction rules and conditions of sale drawn up by the N.B.A. These entries will be sold subject to these rules along with the Auctioneers' General Conditions of Sale, both available on request. In the event of any discrepancy between the two sets of conditions, the N.B.A. conditions of sale shall prevail.

INSURANCE: A representative of H & H Insurance Brokers, will be present at the sale and will be pleased to quote Purchasers for transit and other risks.

METHOD OF SALE: All cattle will be sold in guineas (105 pence) and strictly in catalogue order, unless any alteration is announced by the Auctioneers.

COMMISSIONS: The Auctioneers will dutifully execute commissions to purchase for buyers unable to attend the sale personally, upon receipt of written instructions.

REGISTRATIONS: All pedigree stock in the Sale are registered with the British Limousin Cattle Society (Tel. 02476 696500).

PEDIGREE TRANSFERS: Pedigree transfers will automatically be transferred free of charge to all BLCS members.

SEMEN ROYALTY SCHEME BULL REGISTER: Purchasers are asked to note that where a female is catalogued as being served/inseminated by a "Semen Royalty" Sire the appropriate royalty will be payable by the purchaser prior to registration of the calf.

SETTLEMENT AND CLEARANCE OF STOCK: Settlement in full is due immediately at the close of Sale. No animal may leave the Sale Premises without an official 'Pass Slip', obtainable only from the Auctioneers upon settlement.

An H&H Company

WILODGE HERD

We wish to extend a warm welcome to you all to the sale of Wilodge Pedigree Limousins, held in conjunction with Brockhurst Limousins.

The Wilodge sale lots consist of pedigree breeding females within the herd, with the exception of our embryo transfer donor females. We have not retained any heifers for pedigree breeding from the groups of in calf or maiden heifers. They are descendants from some of the Wilodge herds most proven and prolific bloodlines and therefore offer a unique opportunity for established and new Limousin breeders to acquire some quality females / genetics from within the Wilodge herd. Our sale entries consist of a range of females to suit all tastes, "something for everyone".

Originally founded on selective purchases from dispersal, reduction and production sales, over the last 3 decades the herd has been extremely fortunate to have achieved numerous highlights within both the sale and show ring. The most rewarding accolade has been to witness the success achieved by other Limousin breeders following the use of Wilodge genetics within their own herds, which has been the driving force behind the continued presence of the Wilodge prefix, within the Limousin breed of today.

Anybody unable to attend the sale or would like to view our entries on farm, are very welcome. Subject to current Covid 19 rules and regulations.

In order to view on farm or for any further information you may require, please contact either **Paul** on **077733 26710** or **Christine** on **078858 27294**, via Wilodge on Facebook or email: **wilodge@btconnect.com**

We are extremely grateful and indebted to everybody who has helped us prepare the cattle for this sale and to the staff at H&H Ltd.

Thank you for your interest in our sale lots.

We would like to take this opportunity to thank the purchasers of our sale entries, who we wish the very best with their new herd additions.

Paul & Christine

SALE AND HERD HEALTH INFORMATION:

High importance has always been placed on the maternal line of animals within or purchased by the Wilodge herd.

Hence the inclusion of a dam and maternal line reference section, in place of footnotes for the maternal lines found in multiple sale entries.

- SAC Premium Cattle Health Scheme members for Johnes since 2002 and IBR and BVD since 2011.
- Annual tests include Hackney herd and the commercial herd.
- Johnes Risk level 1, since 2014.
- BVD Accredited – since 2012 / Tested virus free since 2011.
- Routinely vaccinating against BVD with Bovela and LEPTO, with Spirovac.
- IBR vaccination with Rispoval inactive marker vaccine – Breeding females only.

1 year TB testing interval holding – Last whole herd test date – 09/11/2020.

Pre movement test date: 12/01/2021.

COW FAMILY REFERENCE:

Wilodge Diamante – The Wilodge herd's top breeding female & maternal line, who has consistently produced quality offspring to various sires. Her maternal line foundation mirrors that of Wilodge Cerberus. Shown during 2009, Diamante's numerous awards included RWAS Junior Overall Champion, Reserve Overall Female & Reserve Overall Limousin Champion, at 14 months. Her progeny include Wilodge Flawless 27,000gns, Wilodge Formulaone 10,000gns, Wilodge Naturelle 12,000gns and Wilodge Lookout 60,000gns. Wilodge Flawless is dam of Poolehall Isabelle within the Grahams herd and show winning Poolehall Iris, within the Springsett herd. Further progeny from Diamante and her full siblings are highlighted within the dam lines below.

Wilodge Gem – Full sister to Wilodge Diamante and the dam of Wilodge L.J, purchased privately by the Goldies herd. L.J. has bred exceptionally well within the Goldies herd and several other herds. Gems other full sisters progeny include the 2017 RWAS Overall Limousin Champion Whiskey Infinity and Mystyle Maitoi, successfully shown during 2019. This is the first time Wilodge Gem daughters have been offered for sale.

Wilodge Heaven – A daughter of Wilodge Diamante. Ironstone Brandy was used across Diamante in order to introduce within the herd the strong maternal line of Bailea Umandy, dam of the multi award winning Ironstone Dumandy. Full sister to Heaven within the sale. This is the first time Heaven daughters have been offered for sale.

Wilodge Littlegem – A daughter of Wilodge Diamante. Littlegem is full sister to bulls Wilodge Livenletdie, 13,000gns and Wilodge Livinitup, 10,000gns and Wilodge Larimar, who during 2019 secured 9 Overall Interbreed Championships with her first calf at foot, for the Quaish herd. Full sibling embryos sold in the online cattle embryo sale July 2020, for the sale top price of £1,500 each. This is the first time Littlegem daughters have been offered for sale.

Wilodge Annette – Her sire is the 31,000gns Wilodge Thumper. Annette and her maternal line have been highly productive within the Wilodge herd, at both a pedigree and commercial level. Progeny include the first bull sold for pedigree use from Wilodge, which was purchased by the Broadmeadows herd. Wilodge Drummer, a highly lucrative private purchase for Cogent and further bulls to a top of 9,000gns. Commercial success includes an English Winter Fair Overall Pedigree Champion steer and a EWF Baby Beef Overall Champion, sold for £4,600.

Hazelhead Annie – Her progeny include Wilodge Fastrac, who in 2012 was RWAS Male Champion, Reserve Overall Limousin Champion and Fitzhugh Pairs Interbreed Champions, with Ironstone Dumandy and Reserve Overall Male Champion at the ILC. Wilodge Fastrac was sold privately for a substantial sum to the Gritstone herd. Also Wilodge Joskins, Overall Champion at the Brecon May sale 2015 and sold for 10,000gns to Dovea Genetics. Maiden female progeny sold - Wilodge Gracie, 8,000gns at the herds 2012 heifer sale and Wilodge Justabeaut, featured in the Cogent bull brochure to promote Gerrygullinane Glen's progeny, sold privately as a foundation female for the Woodfield herd.

Sarkley Bellola – Her maternal lines goes back to the Sarkley herd's renowned Sarkley Ola. Bellola was purchased as a maiden heifer for 24,000gns and was a major herd asset. Her descendants within the sale are from Wilodge Dellola, full sister to the 30,000gns Wilodge Dallaglio and Wilodge Goldplated, full sister to Wilodge Goldcard, another private, highly successful and lucrative purchase for Cogent from Wilodge. Four full sisters to Goldplated were sold at the herd's 2012 maiden heifer sale to a top of 10,000gns and average of 7,250gns.

Milbrook Gingerspice – Greatly admired and renowned within the breed, she has won Breed Overall Champion and Interbreed Supreme Champion at the Balmoral Show for a record three years in a row. Her progeny have also been highly successful and lucrative for the Grahams herd, within both the show and sale ring. On the show circuit they have secured a Breed Champion and Reserve Interbreed Champion at both the Great Yorkshire and Royal Welsh. Numerous sale ring highlights include bulls to a top of 20,000gns and females to a top of 25,000gns – 2 full sisters within the sale.

BROCKHURST HERD

It was a pleasure to be asked by James Little to add a consignment to the Wilodge sale. We would like to thank Christine & Paul Tippets for the compliment of allowing us to join them.

I would like to start by acknowledging Dad's skill and hard work in founding the Brockhurst Herd over 32 years ago. He has made some incredibly good decisions which have left me in a privileged position. Dad's achievements were recognised by the Scottish Farmer's Champions of the Decade Award with **Hafodlas Domino** winning in 2012 and **Brockhurst Bolshoi** in 2014.

The focus of the herd was and still is to predominantly focus on breeding great females. Bloodlines notably stem from **Ronick McAinsi** whose phenomenal breeding includes **Bolshoi**, **Batik** and **Littlegem** as well as being granddam to **Heavenly**, **Howzat** and **Lucy**. It should also be mentioned that the purchase of the Fenrose Herd from Tom and Rita Evans has had a major impact. The excellent breeding which they established can be found in the back pedigree of a lot of the Herd's females.

To continue breeding good females, we have selected bulls out of tremendous dams as we consider this important for a herd sire. The sale cattle are by three stock bulls who have all done a fantastic job, they are: **Newroddige Jetset** by **Grahams Butterfly**, **Dinmore Meatloaf** by **Dinmore Glorious** and **Proctors Mitsubishi** by **Proctors Gwen**.

A few years ago, it was decided that the Herd should be run as a closed Herd except for replacement stock bulls, this is reflected by most of the sale heifers having the Brockhurst prefix. The closed Herd has also meant the health status is excellent.

For the sale we have put forward the pick of the 2019 & 2020 heifers. This includes Lot 46 **Brockhurst Princess** an exceptional daughter of **Brockhurst Heavenly** (GYS Interbreed champion 2016), her pedigree is filled with show champions. We have also included the 1st & 2nd heifers to be bred by **Proctors Mitsubishi** who is breeding phenomenally well.

HERD HEALTH:

- Consigned from a 1-year TB testing interval holding
- Johnes' Risk Level 2
- Member of a CHeCS controlled health scheme for BVD & Johnes
- Accredited free for BVD
- Routinely vaccinating against IBR

I would like to express my thanks to Ashley for doing a tremendous job looking after the cattle, the way they are presented is a credit to him. I would like to thank James and Heather for organising the sale and last but by no means least to all the purchasers of our cattle, I wish you the best of luck.

Adjusted Wts(kg) table

1 Birth Type

‘Got by AI’ indicates whether the calf was a result of an AI service. If blank, the dam was naturally served. ‘Natural calf’ indicates the calf was born to its biological dam. ‘ET calf’ indicates the calf was born as a result of embryo transplant.

2 Myostatin

“Not tested” indicates that no Myostatin test is currently available for the animal. Full details on the Myostatin variants and their effects on performance can be found on the Limousin Society website www.limousin.co.uk, search in ‘performance programmes’. In summary:

The Variants:

F94L	Animals with two copies of this gene (ie F94L/F94L) exhibit an increase in muscling (by up to 19%) with no associated increased in calving difficulty, lowered fertility or longevity and by far the majority of animals in the breed carry this gene. Heterozygous animals (those with one copy of the gene) also exhibit these characteristics but not to the same degree.
NT821	Animals with two copies of the gene (ie nt821/nt821) will exhibit characteristics of larger loin depths, reduced fat depths and large, rounded rump and thighs. However, unlike F94L, animals with two copies may also have slightly heavier birth weights bringing with it the potential for more difficult calvings. If animals are ‘heterozygous’ with F94L (ie F94L/nt821) they will still exhibit quality carcase characteristics but are less likely to be affected by more difficult calvings.
Q204X	Animals with two copies of the gene (ie Q204X/Q204X) will exhibit characteristics of larger loin depth, reduced fat cover and greater meat tenderness. However, they may also have the potential to exhibit larger birth weight and, if females, slightly reduced milking ability. Animals that are ‘heterozygous’ with F94L (ie F94L/Q204X) will still exhibit quality carcase characteristics but are less likely to be affected by larger birth weights and reduced milking ability.

Two further variants of Myostatin exist in the population but are relatively uncommon in their occurrence. Known as nt419 and E291X, their effects are similar to nt821 and Q204X respectively.

The recognised benefits of Myostatin are:

- ✓ **Increased Meat Yield** – by up to 19%.
- ✓ **More feed efficient**
- ✓ **Higher meat quality** – increased tenderness, reduced fat content, higher polyunsaturated fats

Using Myostatin information

An important factor to remember is that carcase traits (muscling, fat cover etc), calving traits and milk traits in cattle are controlled by MANY genes. Myostatin is only one of them and, as such, it is not an absolute predictor of an animal's performance.

A Myostatin genotype is a further bit of information that may help your decision, but it should be used in conjunction with wider information such as Estimated Breeding Values (EBVs), which bring together information of actual performance from the animal itself, its herdmates and its relatives to predict genetic merit, and your own judgment on type and pedigree.

3 Genetic Colour

Colour and polled/horned genes typically come in pairs called alleles. One is inherited from the sire and one from the dam. Where an animal's alleles are the same, it is said to be 'Homozygous' (Hom.) Where the alleles are different (because there is more than one variant of the gene, the animal is said to be 'Heterozygous' (Het.)

"Hom. Red" – animals will be red and will pass on red genes.

"Hom. Black" – animals will be black and will pass on black genes. All calves will be black, since black colour genes are dominant.

"Het. Black" – animals will be black and will pass on either a red or black gene.

"Het. Red" – animals will be red and will pass on a red gene or a colour gene known as the 'wild type' that is non-colour determinate. (The coat colour of calves inheriting the wild type gene will be governed by the gene they inherit from the other parent. It is rare, but it is also possible for an animal to be homozygous for the wild type gene, in which case they will be reddish/brown to brownish/black).

4 Genetics for Horned/Polled Status

A bull that is "Hom. Polled" - will be polled himself and all calves will be polled (since he only has polled genes to pass on and they are dominant).

A bull that is "Het. Polled" – will be polled himself and will produce some polled and some horned calves (assuming the cows are all horned).

A bull that is "Hom. Horned" – will be horned himself and will pass only horned genes to his calves.

For more information on both Genetic Colour and Polled/Horned, go to www.limousin.co.uk, search in 'performance programmes' or scan the QR code above.

5 Estimated Breeding Values and Genomic Estimated Breeding Values (EBVs & GEBVs)

EBVs & GEBVs are expressed in the same unit as the recorded trait (eg kgs for 400 Day Weight, mm for Muscle Depth etc) are relative to the Breed Average.

a) In sale catalogues, **Breed Average for each trait is represented by the vertical line that is central on the bar chart...** a

- ✓ Bars that lie to the right of that line indicate EBVs/GEBVs that are above average. The further to the right they lie, the higher above Breed Average they are.
- ✓ Equally, bars that lie to the left of the line indicate EBVs/GEBVs that are below Breed Average. The further to the left they are, the further below Breed Average they are.

b) Accuracy Values (Acc%) are expressed as a % and indicate the quantity and quality of records used to produce each EBV, GEBV or Index. The closer they are to 100%, the more accurate the EBV. Highly accurate values are less likely to change over time. b

c) The numeric EBV & GEBV values on the charts can be used to further refine comparison with the breed using the Breed Benchmark which is updated annually.

For more information on EBVs and GEBVs, go to www.limousin.co.uk and search under 'Breed Improvement' in the main menu or scan the QR code opposite.

EBV, GEBV and pedigree information on all Limousin cattle are just a few internet clicks away...

Step 1: Go to www.taurusdata.co.uk

Step 2: In the 'All Breeds Quick Search' box type the name or ear number of the animal you are interested in or click on the 'Breeder Search' button to look at all animals belonging to or bred by a particular breeder.

The site will then tell you the animal's owner/breeder details, its breeding values, its pedigree and list its progeny with full links to all of their information.

6 Adjusted Weights

These are the 'raw' weights recorded for the animal throughout its early growing stages. They are adjusted for age, but are not adjusted for any other factor such as management, nutrition, dam age, differences between farms etc.

For further information or if you have any query, please let us know - telephone 02476 696500, e-mail info@limousin.co.uk or speak to Society staff and Council members attending the sale.

2021 Limousin Breed Benchmark

Trait	Bottom			Breed Average	Top		
	1%	10%	25%		25%	10%	1%
Gest. Length (days)	4	2	1	-0	-1	-2	-4
Birth Weight (kg)	3.1	2	1.4	0.7	0	-0.6	-1.7

Rump (kg)*	0.18	0.29	0.35	0.42	0.5	0.56	0.67
Topside (kg)*	0.53	0.78	0.93	1.09	1.25	1.4	1.66
Silverside (kg)*	0.61	0.89	1.05	1.23	1.41	1.57	1.85
Knuckle (kg)*	0.2	0.31	0.38	0.45	0.52	0.59	0.7
Retail Value*	LM15R	LM22R	LM26R	LM31R	LM35R	LM40R	LM47R

* Where animals have been genotyped, the breeding values for these traits will be Genomic Breeding Values (GEBVs). Publication of GEBVs is at animal owners' discretion. If an animal has not been genotyped, the breeding value will be a conventional Estimated Breeding Value (EBV). Whether a breeding value is an EBV or a GEBV is noted alongside each value.

Please note that EBVs and GEBVs are interchangeable for the same trait. For example, an animal with a Calving Interval GEBV can be directly compared to an animal with a Calving Interval EBV. A link to further information on all EBVs and GEBVs is below.

FOR INFORMATION

Breeding Indexes

EBVs can be combined in to selection indexes to meet wider breeding objectives...

Calving Value	An economic indicator of the collective value of Gestation Length and Calving Ease
Beef Value	An economic indicator of the collective value of Birth Weight, Calving Ease, 400-Day Growth, Muscle Depth and Backfat Depth
Retail Value	An economic indicator of the collective value of Fillet, Striploin, Rump, Topside, Silverside and Knuckle at 600 days of age and a standard carcass weight of 350kgs.

NB: Using Calving Ease and Maternal Calving Ease

Calving Ease EBV *Predicts how easy a bull's own calves will be born.*

Maternal Calving Ease EBV *Predicts how easily a bull's daughters will calve.*

To search the Limousin database by Breeder, by EBVs/GEBVs and/or by Individual Animal go to www.taurusdata.co.uk and click on 'Beef Search'

For more information on EBVs and GEBVs please go to www.limousin.co.uk and click on 'Performance Programmes' or get in touch on the numbers below.

Johne's Disease Risk Level Reminder - CHeCS

If you are looking to buy or sell stock it is important to know your own herd's Johne's disease risk level, as well as that of any cattle that you might add to your herd.

Level 1 – There have been at least three clear annual herd tests and there is a Johne's Disease herd health plan in place. This is the lowest level of risk

Level 2 – There has been at least one clear herd test but the herd does not yet qualify for Level 1 status. There is a Johne's disease herd health plan in place

Level 3 – Three per cent or less of the herd were identified as reactors at the most recent herd test. There is a Johne's disease herd health plan in place

Level 4 – More than three per cent of the herd were identified as reactors at the most recent herd test. There is a Johne's disease herd health plan in place

Level 5 – This includes herds without a health plan for Johne's disease, herds that not adhere to the mandatory elements of the health plan and herds that do not carry out the required testing. This is the highest level of risk

PLEASE NOTE: IMPORTANT RULE ABOUT BUYING AND SELLING AND RISK STATUS!

It is important to remember that if an animal of a lower risk level status is added to your herd, if it is ever sold on from your holding it must be sold as its original risk level status (i.e. a Risk Level 3 animal added to a Risk Level 2 herd must remain as Risk Level 3 if sold again).

However, animals added from a higher Risk Level Status herd to a lower Risk Level Status herd take on the status of the herd that they are added to and must be sold as such (i.e. a Risk Level 1 animal added to a Risk Level 4 herd would then have to be sold as Risk Level 4 in the future).

Our Heritage – Your Future

Herd Health at British Limousin Cattle Society (BLCS) Collective Sales

Introduction

The principal aim is to standardise herd health declarations and information presented in order to provide both members and customers alike with clear, accurate herd health information at the point of sale and within the given sale catalogue. As such it is attractive and informative for customers and aims to further raise the level of buyer confidence.

BLCS Herd Health Rules have two principal elements:

Part 1. Herds selling at the premier Collective Society Sales have to be members of, and adhering to, the terms of a CHeCS approved Herd Health Scheme. At a minimum, this must include a whole herd test for Johnes's disease.

Part 2. All animals male and female, including calves at foot, presented at the premier Collective Society Sales be EITHER from a BVD Accredited Herd within a CHeCS approved Herd Health Scheme OR to have been BVD tested virus free. All animals forward will be required to be BVD vaccinated prior to sale with an approved vaccine. Pregnant animals must have had testing and vaccination completed prior to service. Vaccination of calves at foot to be in accordance with CHeCS guidelines and recommendations.

Herd Health Declaration

The sale entry form is accompanied by a Herd Health Declaration form asking vendors questions regarding for example: TB status; membership of CHeCS (www.checs.co.uk) health schemes (AFBI Cattle Health Scheme, HiHealth Herdcare (Biobest), & Premium Cattle Health Scheme (SRUC) and Johnes's, BVD, IBR and Lepto status. On line entries also require the Herd Health Declaration form to be completed.

Is the Herd Health Declaration compulsory?

The Herd Health Declaration is compulsory at all Premier Collective Sales. For reasons of clarity and to provide purchasers with the most accurate information available, vendors are required to complete this at time of entry.

Although not compulsory at other collective sales (Newark in April & Ballymena, Dungannon, Thainstone & Stirling in May), the Society recommends that vendors complete the Herd Health Declaration. This information then appears in the Vendors' Index within the catalogue. Where a member has chosen not to complete the Herd Health Declaration, it will simply say 'No Herd Health Declaration'.

What Other Health Information may be displayed?

It should be noted that the Herd Health information provided in the catalogue relates to whole herd status. Information relating to specific animals entered in the sale should be requested from the vendor.

Vendors are encouraged to apply to their respective CHeCS health scheme for individual animal health cards for display on pens. For an individual animal's test results, or vaccination histories, regarding BVD, IBR, Lepto or Johnes's, these are permitted above the sale pens only upon presentation of a signed veterinary declaration to verify that the animal concerned has had a clear test.

Again, for reasons of practicality, no health information notes are to be put in the catalogue footnotes by vendors. Similarly, the Society has requested that no declarations on health information be given by the auctioneer during the sale. Again, the sole purpose of this is to avoid confusion and to try and ensure that the information provided is done accurately, fairly and in a standardised format in the catalogue. This point has been agreed with the auctioneers.

Johne's Risk Levels

The Herd Health Declaration includes a section where breeders are able to indicate their Johne's Risk Level, once known.

The Risk Levels are as follows:

Risk Level 1	herds that were previously Accredited
Risk Level 2	herds that have had 1 or more clear qualifying tests
Risk Level 3	herds that have 3% or fewer reactors every year*
Risk Level 4	herds that have more than 3% reactors every year**
Risk Level 5	herds not in a CHeCS Johne's disease programme, herds with no health plan in place and herds that are not carrying out the required testing

* Note, for herds with fewer than 33 animals in the target age range, rather than 3%, Risk Level 3 will be one animal testing positive for Johne's

** Note, for herds with fewer than 33 animals in the target age range, rather than 3%, Risk Level 4 will be more than one animal testing positive for Johne's

It is a condition of BLCS Premier Collective Sales that animals from herds that are Johnes Risk Level 5 are not permitted to be sold.

Should you have any queries regarding the new Johne's Risk Level classification, please contact your respective CHeCS health scheme.

What if a vendor is selling an animal/s that he did not breed?

Vendors are still requested to fill in the Herd Health Sale Declaration accordingly. Prospective customers are advised to speak to vendors directly to acquire accurate health information on animals offered but not bred by the seller.

Feedback & more information

The Society welcomes members' and customers' feedback on the Herd Health Declarations and health policy at sales. If you have further questions, please speak to the Society representative, Will Ketley or the Auctioneers.

**HEALTH AND SAFETY RULES
HARRISON & HETHERINGTON LIMITED
NOTICE TO ALL VISITORS AND TRADERS
PLEASE READ AND OBSERVE
THE FOLLOWING**

All visitors and traders on site will be responsible for ensuring that they and their employees or sub-contractors engaged by them comply with all legal requirements, including the Health and Safety At Work etc., Act 1974, The Management of Health and Safety At Work Regulations, The Provision And Use of Work Equipment Regulations, etc.

All visitors and traders will be responsible for ensuring that their operations in no way affect the integrity of the company or its fire, safety or security arrangements and in no way compromise the health and safety and welfare of other visitors to and or employees of Harrison & Hetherington.

Although it is the visitors and traders responsibility to ensure that plant, equipment and systems in work are safe, Harrison & Hetherington Limited reserve the right to ask any visitor or trader to leave the market for any breaches in the Health and Safety Rules and/or Regulations.

Vendors must inform Harrison & Hetherington Limited of any livestock due to attend the market whose temperament, behaviour or condition may call for additional precautions for its safe handling.

When loading or unloading livestock handlers must ensure that the dock and vehicle gates are securely fixed so as to prevent the escape of animals.

Traders are responsible for providing and maintaining suitable livestock handling equipment. They should ensure that livestock handlers are fit, experienced in livestock handling and familiar with the livestock in their charge.

Children must not be permitted in any area where they may be at risk from livestock or machinery.

In the case of bulls, during the period when the show/sale is open to visitors, bulls in stalls or pens should not be left unattended. If the handler is temporarily absent, arrangements should be made with another vendor, steward or member of Harrison & Hetherington staff to oversee the bull until the handler returns.

Handling of Livestock at shows and sales: Harrison & Hetherington Limited recommend that an adult person should accompany any junior person during the showing/sale of livestock in the ring and reserves the right to intervene at any point if, in the company's opinion, the person showing the livestock is at risk in undertaking that activity.

Passageways must be kept clear at all times during the auction sale. **PLEASE DO NOT STAND IN THE SALE RING ENTRANCE AND EXIT PASSAGES.**

The auction ring man escapes and refuges must be kept clear at all times.

All portable electrical equipment supplied and/or used by visitors and traders must be safe and fit for the purpose and should have a valid portable appliance test certificate.

AUCTIONEER'S TERMS & CONDITIONS OF SALE

(Incorporating the Auctioneer's
Terms and Conditions)

1. The biddings to be regulated by the Auctioneers and the highest bidder, subject to the Vendor's reserve (if any), to be the purchaser. No bid shall be retracted and if any dispute should arise between two or more bidders, the Lot in dispute to be put up again and resold, or the Auctioneers may determine the dispute at their own discretion and their decision shall be final. The Auctioneers reserve the right to refuse the bid of any person without being called upon to give reason for such action.
2. The Purchaser to give his full name and dwelling place and pay for all Lots purchased immediately at the close of sale. No Lot or Lots shall be removed from the sale premises until paid for and a pass-out slip obtained from the Auctioneer's clerk but each and every Lot shall immediately at the fall of the hammer be considered as delivered and be and remain in every respect at the absolute risk and expense of the respective purchaser or purchasers thereof and shall be removed from the sale premises at the purchaser's expense. The right of property shall not pass until the full purchase price is paid.
3. Purchasers paying by cheque must be prepared, if required, to produce a banker's reference. As a result of the Money Laundering Regulations (2003) the auctioneers are unable to accept cash payments in excess of nine thousand pounds sterling for any any single or linked purchase transaction.
4. All statements in the catalogue, or made by the Auctioneers at the time of sale, also the correct identification of the animals, are the entire responsibility of the Vendors. The Auctioneers take no personal responsibility for the correctness of such statements or identities.
5. All statements in the catalogue, or any made by the Auctioneers at the time of sale relating to any veterinary or other tests are to be taken as statements of fact only. No such statements shall guarantee the purchaser of any animal against loss arising from the subsequent reaction of such animal to any test administered after the sale and the Vendors shall not be liable in any way should this occur.
6. All stock is sold subject to the Conditions of Sale recommended for use at markets by the Livestock Auctioneers' Markets Committee for England and Wales except in so far as these conflict with any Special Conditions applicable to the sale of pedigree stock, when the latter Conditions shall prevail.
7. Neither the Vendors nor the Auctioneers will be responsible for any accident or injury to persons or property, through fire or any other cause whatsoever, nor for any damage by animals prior to, during or after the sale.
8. No undertaking by the Auctioneers or their servants to take charge of any Lot or Lots after the sale or to forward them to their destination shall be held to impose upon the Auctioneers any legal obligation or vitiate any of these Conditions.
9. Inasmuch as the Auctioneers act as agents for a disclosed principal they shall not be considered personally responsible for any default on the part of either purchasers or Vendors and the remedy shall be against them only and not against the Auctioneers.
10. If these conditions are unfulfilled, the Vendors or Auctioneers shall have the power to resell the Lots, retaining any surplus and charging any deficiency and expense to the defaulter.
11. You have a right to know how we will use the information you have provided to us. We may share the information with other members of our group and may make this information available to relevant media groups and other interested parties on request. We and other members of the group may contact you by telephone, e-mail, post or fax to inform you of products or services available. If you do not want to be contacted for marketing purposes or do not wish your information to be made available to any other parties please notify us in writing.
