General Information & Sale Notes

LOCATION: The sale will be held at Melton Mowbray Market, Scaford Road, Melton Mowbray, Leicestershire, LE13 1JY, Livestock access is via LE13 ONP Tel: 01664 562 971
Website: meltonmowbraymarket.co.uk

ACCOMMODATION: Please see a list of local Hotels and Bed & Breakfasts

METHOD OF SALE: All Pedigree cattle will be sold in guineas (105 pence) and in strict catalogue order, unless any alterations are announced by the auctioneers. Commercial Cattle will be sold in £s per head.

COMMISSIONS: The Auctioneers will dutifully execute commission to purchase for buyers unable to attend the sale personally, upon the receipt of written instructions.

SETTLEMENT AND CLEARANCE OF STOCK: Settlement in full is due immediately at the close of the Sale. No animal may leave the Sale Premises without an official 'Pass Slip', obtain- able only from the Auctioneers upon settlement. Purchasers unable to remove their stock on the day of sale can arrange overnight accommodation with the Auctioneers on the understanding that all cattle are at the Purchasers' risk.

REGISTRATIONS: All Pedigree stock in the sale are registered with the British Limousin Cattle Society, Concorde House, 24 Warwick New Road, Leamington Spa, Warwickshire, CV32 5JG. (Tel 02476 696500)

PEDIGREE TRANSFERS: Any purchaser wishing transfer of ownership must notify the office on sale day. All transfer fees will be paid by the vendor.

DNA which is required at the point of pedigree registration of a calf, will be paid by the vendor.

SEMEN ROYALTY SCHEME BULL REGISTER: Purchasers are asked to note that where a female is catalogued as being served/inseminated by a 'Semen Royalty' Sire the appropriate royalty will be payable by the purchaser prior to registration of the calf.

VETERINARY INSPECTION: For the buyer's convenience, a Veterinary Inspection will be carried out on all bulls entered for sale in the pedigree sections. A Veterinary Officer will examine general health and genetic defects particularly teeth, eyes, testicles, warts and locomotion. Any animal found with a genetic fault, disease or disorder will be rejected.

HERD HEALTH: As stated declared by the Vendor in this catalogue or from the rostrum.

**ANY ANIMAL NOT IN POSSESSION OF THE REQUIRED
DOCUMENTS WILL NOT BE OFFERED FOR SALE WITHOUT
THEIR RESPECTIVE PASSPORT DOCUMENTATION**

Important Notice to Vendors & Purchasers

Timetable of Events

Friday 8th October

ARRIVAL OF PEDIGREE STOCK

12pm - 7pm

INSPECTION OF BULLS 5pm - 7pm

Saturday 9th October

ARRIVAL OF STOCK

6.30am - 8.30am

SALE COMMENCES 11pm

EVERY BULL entered for the Sale **MUST BE ADEQUATELY TRAINED TO BE LED BY HALTER**. All bulls must be provided with a serviceable halter, which will become the property of the Purchaser.

UK TAGS: All cattle entered for the Sale will have their UK Tags examined as an integral part of the pre-sale inspection procedure.

The Sale will be held subject to the Auction Rules, Conditions of Sale.

The proceeds of Sale are guaranteed by the Auctioneers, who will account to Vendors on the day of the Sale. Such guarantee however, does not extend to the animals sold for export, to which special conditions apply.

STRAW: Straw will be provided by the Auctioneers at £4 per head.

ANIMAL WELFARE: Vendors and Purchasers should note the CODE OF PRACTICE published by the Livestock Auctioneers' Market Committee for England and Wales IS OPERATIVE and that weak, unhealthy or injured stock will be refused entry by the Auctioneers. Enquiries should be directed through the market office to the Auctioneers' ANIMAL HEALTH & WELFARE OFFICER.

NATIONAL BEEF ASSOCIATION WARRANTY

- ☐ This Sale is held subject to recommended Conditions of Sale of the National Beef Association.
- ☐ This Sale is held subject to the Special Terms and Conditions of Sale recommended for Sales of Pedigree Beef Cattle by the National Beef Association. The preparation of these Terms and Conditions has proved a lengthy and costly process and, in order to defray the legal and other costs involved, and to provide a continuing source of revenue to assist the Association in its vital work for Pedigree Cattle Breeders, the Council of the Association has decided that a special levy, amounting to £4 per male and £2 per female head/lot sold (plus VAT) shall be charged to each Purchaser.

Vendors' Index

The pedigree, performance, DNA, health information and footnotes included in Society sale catalogues is as supplied by, or on behalf of the vendor. The responsibility for the accuracy of the information therefore rests solely with the vendor and not with the British Limousin Cattle Society Ltd (BLCS). It should be noted that the Estimated Breeding Values for all animals change over time, as new performance records come available. While the BLCS and Genesure Ltd seek to ensure that the information contained in catalogues is accurate at the time of printing in accordance with their terms and conditions, no warranty is given in respect thereof by the BLCS and, to the maximum extent permitted by law, the BLCS shall have no liability for any loss, damage or injury howsoever caused (including that caused by negligence) or suffered directly or indirectly in relation to information and opinions contained in or omitted from this publication.

Genesure Ltd's liability is limited to the extent set out in its terms and conditions (a copy is available from the BLCS office upon request).

Calogale Ronaldo is a young bull with great breeding and a proven back-pedigree. His Sire (Wilodge Tonka) was twice awarded the Royal Show Interbreed Champion and has sired progeng to 42,000gns. His Dam (Calogale Izzy) has won numerous Interbreed Championships at County Show Level and is a matriarch female within the Calogale herd. Ronaldo descends from very easy calving bloodlines and is a quiet natured bull with sound legs, feet and testicles; he is highly recommend to potential purchasers.

The figure is a horizontal bar chart comparing four genetic traits against a population average. The x-axis represents an 'Index' from 70 to 130, with a vertical line at 100. The area to the left of 100 is labeled 'Below Average' and the area to the right is 'Above Average(Superior)'. The traits and their values are:

| Trait | EBV | Acc. % |
|---------------------|------|--------|
| Gest. Length (days) | -1.7 | 51% |
| Birth Weight (kg) | 0.2 | 46% |
| Calving Ease (%) | -0.3 | 55% |
| Mat.Calv. Ease (%) | -0.2 | 44% |

The chart displays the distribution of four traits relative to an average index. The x-axis represents the Index, ranging from 70 to 130. The y-axis lists the traits. The chart shows the distribution of the traits, with the average index for each trait indicated by a vertical line. The traits are: Gest. Length (days), Birth Weight (kg), Calving Ease (%), and Mat. Calv. Ease (%). The chart also includes a table of EBV and Acc. % values for each trait.

| Trait | EBV | Acc. % |
|---------------------|------|--------|
| Gest. Length (days) | 14 | 38% |
| Birth Weight (kg) | 2.5 | 38% |
| Calving Ease (%) | -5.3 | 43% |
| Mat. Calv. Ease (%) | -0.5 | 37% |

Born 05/07/2021

LIC21-0142

UK 752063/200142

Sire: MEADOWRIG PEDRO RLA19-0250

Calogale Jazz is only offered for sale due to housing restrictions at Calogale. She is an extremely maternal/fertile cow having calved every 11 months since her first calf was born. Her Dam (Lourie Dazzle) was the original foundation cow for the Calogale Herd and only one Dazzle daughter (Calogale Jazmine) has previously been let go. Jazz is sold with her Meadowrig Pedro daughter (Symphony) at foot and this is the first Pedro progeny to have ever left the farm. Jazz ran with Pedro from the point of calving until the 11/9/21 from which point she ran with Bernish Memphis, she was PD'd 21/09/21 6 weeks incalf. Jazz's previous Bernish Memphis daughter (Roxette) is retained within the herd and will be very sorry to see Jazz move to pastures new. An opportunity not to be missed.

Her Bull Calf at foot **CALOGALE SUPERNOVA**
Born 26/06/2021 LIC21-0141 UK 752063/100141
Sire: MEADOWRIG PEDRO RLA19-0250

Trueman Nelly was purchased as a maiden heifer and is only offered for sale due to housing restrictions here at Calogale. She is a daughter of the infamous Trueman Euphonium and is a daughter of the world record breaking Trueman Jagger. Her first calf (Polly) was sold privately for an undisclosed fee to a Pedigree breeder from Leicestershire. She is sold with a Meadowrig Pedro bull calf (Supernova) at foot which has the potential to become a stock-bull in the future; he has a Beef Value in the top 1% of the breed and is the first Pedro son to have left Calogale. Nelly ran with Pedro from the point of calving until the 11/9/21 from which point she ran with Bernish Memphis, she was PD'd 8 weeks incalf on 21/09/21. Nelly will be an asset to whichever herd she goes to.

Service Details

Ran with bull **MEADOWRIG PEDRO RLA19-0250**

PD'd 3 months in-calf on the 27th of August 2021.

Primrose is only the second daughter to have ever been born from the 11,800gns Dinmore Helebores. She is only the third Bernish Memphis daughter to have ever been offered for sale with previous daughters averaging close to £5k. Primrose will mature into a massive cow as she just continues to grow and grow. She ran with Meadowrig Pedro from the 18/4/21 and was PD'd approx 3 months in-calf on the 27/8/21. Primrose's only maternal sister (Opal) is currently rearing the very best Pedro calf to have been born to date. Primrose is another heifer that we really shouldn't be selling and is a golden opportunity not to be missed.

Her Bull Calf at foot **COCKLESHELL SONNY**
Born 25/01/2021 PB21-0490 UK 141145/700490
Sire: GREENSONS NICKEL GAT17-0392

Her Heifer Calf at foot **COCKLESHELL SHER** (Birth Notified only)
Born 25/01/2021 PB21-0491 UK 141145/100491
Sire: GREENSONS NICKEL GAT17-0392

Service Details Served 25/3/21 by **GREENSONS NICKEL GAT17-0392**
Has been PD'd in calf. Estimated due date: 7/1/22

Twin heifer calf at foot Cockleshell Sher is Birth Notified only and not Pedigree registered, due to her twin being male. If the buyer successfully breeds from Sher and wishes to register the subsequent calf as pedigree, the vendor has agreed to upgrade Sher's registration to a pedigree and cover the fee.

1 Birth Type

'Got by AI' indicates whether the calf was a result of an AI service. If blank, the dam was naturally served. 'Natural calf' indicates the calf was born to its biological dam. 'ET calf' indicates the calf was born as a result of embryo transplant.

2 Myostatin

"Not tested" indicates that no Myostatin test is currently available for the animal. Full details on the Myostatin variants and their effects on performance can be found on the Limousin Society website www.limousin.co.uk, search in 'performance programmes'. In summary:

The Variants:

F94L

Animals with two copies of this gene (ie F94L/F94L) exhibit an increase in muscling (by up to 19%) with **no** associated increased in calving difficulty, lowered fertility or longevity and by far the majority of animals in the breed carry this gene. Heterozygous animals (those with one copy of the gene) also exhibit these characteristics but not to the same degree.

NT821

Animals with two copies of the gene (ie nt821/nt821) will exhibit characteristics of larger loin depths, reduced fat depths and large, rounded rump and thighs. However, unlike F94L, animals with two copies may also have slightly heavier birth weights bringing with it the potential for more difficult calvings. If animals are 'heterozygous' with F94L (ie F94L/nt821) they will still exhibit quality carcase characteristics but are less likely to be affected by more difficult calvings.

Q204X

Animals with two copies of the gene (ie Q204X/Q204X) will exhibit characteristics of larger loin depth, reduced fat cover and greater meat tenderness. However, they may also have the potential to exhibit larger birth weight and, if females, slightly reduced milking ability. Animals that are 'heterozygous' with F94L (ie F94L/Q204X) will still exhibit quality carcase characteristics but are less likely to be affected by larger birth weights and reduced milking ability.

Two further variants of Myostatin exist in the population but are relatively uncommon in their occurrence. Known as nt419 and E291X, their effects are similar to nt821 and Q204X respectively.

The recognised benefits of Myostatin are:

- ✓ **Increased Meat Yield** – by up to 19%.
- ✓ **More feed efficient**
- ✓ **Higher meat quality** – increased tenderness, reduced fat content, higher polyunsaturated fats

Using Myostatin information

An important factor to remember is that carcass traits (muscling, fat cover etc), calving traits and milk traits in cattle are controlled by MANY genes. Myostatin is only one of them and, as such, it is not an absolute predictor of an animal's performance.

A Myostatin genotype is a further bit of information that may help your decision, but it should be used in conjunction with wider information such as Estimated Breeding Values (EBVs), which bring together information of actual performance from the animal itself, its herdmates and its relatives to predict genetic merit, and your own judgment on type and pedigree.

3 Genetic Colour

Colour and polled/horned genes typically come in pairs called alleles. One is inherited from the sire and one from the dam. Where an animal's alleles are the same, it is said to be 'Homozygous' (Hom.) Where the alleles are different (because there is more than one variant of the gene, the animal is said to be 'Heterozygous' (Het.)

"Hom. Red" – animals will be red and will pass on red genes.

"Hom. Black" – animals will be black and will pass on black genes. All calves will be black, since black colour genes are dominant.

"Het. Black" – animals will be black and will pass on either a red or black gene.

"Het. Red" – animals will be red and will pass on a red gene or a colour gene known as the 'wild type' that is non-colour determinate. (The coat colour of calves inheriting the wild type gene will be governed by the gene they inherit from the other parent. It is rare, but it is also possible for an animal to be homozygous for the wild type gene, in which case they will be reddish/brown to brownish/black).

4 Genetics for Horned/Polled Status

A bull that is "Hom. Polled" - will be polled himself and all calves will be polled (since he only has polled genes to pass on and they are dominant).

A bull that is "Het. Polled" – will be polled himself and will produce some polled and some horned calves (assuming the cows are all horned).

A bull that is "Hom. Horned" – will be horned himself and will pass only horned genes to his calves.

For more information on both Genetic Colour and Polled/Horned, go to www.limousin.co.uk, search in 'performance programmes' or scan the QR code above.

5 Estimated Breeding Values and Genomic Estimated Breeding Values (EBVs & GEBVs)

EBVs & GEBVs are expressed in the same unit as the recorded trait (eg kgs for 400 Day Weight, mm for Muscle Depth etc) are relative to the Breed Average.

- a) In sale catalogues, Breed Average for each trait is represented by the vertical line that is central on the bar chart... 
- ✓ Bars that lie to the right of that line indicate EBVs/GEBVs that are above average. The further to the right they lie, the higher above Breed Average they are.
 - ✓ Equally, bars that lie to the left of the line indicate EBVs/GEBVs that are below Breed Average. The further to the left they are, the further below Breed Average they are.
- b) Accuracy Values (Acc%) are expressed as a % and indicate the quantity and quality of records used to produce each EBV, GEBV or Index. The closer they are to 100%, the more accurate the EBV. Highly accurate values are less likely to change over time. 
- c) The numeric EBV & GEBV values on the charts can be used to further refine comparison with the breed using the Breed Benchmark which is updated annually.

For more information on EBVs and GEBVs, go to www.limousin.co.uk and search under 'Breed Improvement' in the main menu or scan the QR code opposite.

EBV, GEBV and pedigree information on all Limousin cattle are just a few internet clicks away...

Step 1: Go to www.taurusdata.co.uk

Step 2: In the 'All Breeds Quick Search' box type the name or ear number of the animal you are interested in or click on the 'Breeder Search' button to look at all animals belonging to or bred by a particular breeder.

The site will then tell you the animal's owner/breeder details, its breeding values, its pedigree and list its progeny with full links to all of their information.

6 Adjusted Weights

These are the 'raw' weights recorded for the animal throughout its early growing stages. They are adjusted for age, but are not adjusted for any other factor such as management, nutrition, dam age, differences between farms etc.

For further information or if you have any query, please let us know - telephone 02476 696500, e-mail info@limousin.co.uk or speak to Society staff and Council members attending the sale.

2021 Limousin Breed Benchmark

| Trait | Bottom | | | Breed Average | Top | | |
|---------------------------|--------------|--------------|--------------|------------------|--------------|--------------|--------------|
| | 1% | 10% | 25% | | 25% | 10% | 1% |
| Gest. Length (days) | 4 | 2 | 1 | -0 | -1 | -2 | -4 |
| Birth Weight (kg) | 3.1 | 2 | 1.4 | 0.7 | 0 | -0.6 | -1.7 |
| Calving Ease (%) | -4.8 | -3.1 | -2.1 | -1 | 0 | 1 | 2.7 |
| Mat.Calv. Ease (%) | -1.7 | -1 | -0.6 | -0.1 | 0.4 | 0.8 | 1.5 |
| 200 Day Growth (kg) | -13 | -2 | 4 | 12 | 19 | 25 | 36 |
| 400 Day Growth (kg) | -23 | -3 | 9 | 22 | 35 | 47 | 67 |
| Muscle Depth (mm) | -1.9 | -0.3 | 0.7 | 1.7 | 2.8 | 3.8 | 5.4 |
| Fat Depth (mm) | -0.5 | -0.3 | -0.2 | -0 | 0.1 | 0.2 | 0.4 |
| BEEF VALUE | LM7 | LM17 | LM22 | LM28 | LM34 | LM40 | LM49 |
| 200 Day Milk (kg) | -4 | -2 | -1 | -0 | 1 | 2 | 4 |
| Age at first calf (days)* | 48.8 | 35.2 | 27.2 | 18.4 | 9.6 | 1.7 | -11.9 |
| Calving interval (days)* | 13.2 | 8.8 | 6.2 | 3.3 | 0.4 | -2.2 | -6.6 |
| Longevity* | -0.17 | -0.11 | -0.07 | -0.04 | 0 | 0.04 | 0.1 |
| Calf Survival* | -0.04 | -0.02 | -0.02 | -0.01 | 0 | 0.01 | 0.03 |
| Scrotal Circ (cm) | -0.8 | -0.4 | -0.2 | 0.1 | 0.3 | 0.5 | 0.9 |
| Docility (%) | -3.3 | -1.3 | -0 | 1.3 | 2.7 | 3.9 | 6 |
| Age to slaughter (days)* | 21 | 11 | 5 | -1 | -7 | -13 | -22 |
| Carcase weight (kg)* | -6.3 | 0.6 | 4.7 | 9.1 | 13.6 | 17.6 | 24.5 |
| Fillet (kg)* | 0.09 | 0.13 | 0.15 | 0.17 | 0.2 | 0.22 | 0.25 |
| Striploin (kg)* | 0.05 | 0.16 | 0.22 | 0.29 | 0.37 | 0.43 | 0.54 |
| Rump (kg)* | 0.18 | 0.29 | 0.35 | 0.42 | 0.5 | 0.56 | 0.67 |
| Topside (kg)* | 0.53 | 0.78 | 0.93 | 1.09 | 1.25 | 1.4 | 1.66 |
| Silverside (kg)* | 0.61 | 0.89 | 1.05 | 1.23 | 1.41 | 1.57 | 1.85 |
| Knuckle (kg)* | 0.2 | 0.31 | 0.38 | 0.45 | 0.52 | 0.59 | 0.7 |
| Retail Value* | LM15R | LM22R | LM26R | LM31R | LM35R | LM40R | LM47R |

* Where animals have been genotyped, the breeding values for these traits will be Genomic Breeding Values (GEBVs). Publication of GEBVs is at animal owners' discretion. If an animal has not been genotyped, the breeding value will be a conventional Estimated Breeding Value (EBV). Whether a breeding value is an EBV or a GEBV is noted alongside each value.

Please note that EBVs and GEBVs are interchangeable for the same trait. For example, an animal with a Calving Interval GEBV can be directly compared to an animal with a Calving Interval EBV. A link to further information on all EBVs and GEBVs is below.

FOR INFORMATION

Breeding Indexes

EBVs can be combined in to selection indexes to meet wider breeding objectives...

| | |
|----------------------|---|
| Calving Value | An economic indicator of the collective value of Gestation Length and Calving Ease |
| Beef Value | An economic indicator of the collective value of Birth Weight, Calving Ease, 400-Day Growth, Muscle Depth and Backfat Depth |
| Retail Value | An economic indicator of the collective value of Fillet, Striploin, Rump, Topside, Silverside and Knuckle at 600 days of age and a standard carcase weight of 350kgs. |

NB: Using Calving Ease and Maternal Calving Ease

Calving Ease EBV *Predicts how easy a bull's own calves will be born.*

Maternal Calving Ease EBV *Predicts how easily a bull's daughters will calve.*

To search the Limousin database by Breeder, by EBVs/GEBVs and/or by Individual Animal go to www.taurusdata.co.uk and click on 'Beef Search'

For more information on EBVs and GEBVs please go to www.limousin.co.uk and click on 'Performance Programmes' or get in touch on the numbers below.
