General Information & Sale Notes

LOCATION: The sale will be held at Welshpool Livestock Market, Buttington, Welshpool. SY21 8SR.

Timetable of Events:-

Wednesday 18th May	Arrival of Stock	5.00pm - 8.00pm
Thursday 19th May	Arrival of Stock	6.00am - 8.00am
	Veterinary Inspection	7.00am - 8.00am
	Judging	9.00am
	SALE	11.00am

CONDITIONS OF SALE: Held subject to the rules and regulations of the Livestock Auctioneers Association General Conditions of Sale.

VETERINARY INSPECTION: For buyers convenience, a Veterinary Inspection will be carried out on all animals entered for the sale. The Veterinary Officer will examine for general health and genetic defects particularly teeth, eyes, testicles and warts. Any animal found with a genetic fault, disease or disorder will be REJECTED.

All cattle entered for the Sale will have their identification marks examined. Any marks found to have faulty, incorrect or illegible marks will be REJECTED from the Sale, Vendors are therefore urged in their own interest to examine the ear tags of sale cattle before the animal(s) leave the farm, so that faulty marks can be rectified in accordance with the required Society procedures.

All Bulls entered for the Sale, must be adequately trained to lead by halter and must be paraded for inspection unless exempted by the Stewards. Evidence of faults of temperament, vices, etc, may lead to disqualification.

METHOD OF SALE: All cattle will be sold in guineas (105 pence) and strictly in catalogue order, unless any alteration is announced by the Auctioneers.

COMMISSIONS: The Auctioneers will dutifully execute commissions to purchase for buyers unable to attend the sale personally, upon receipt of written instructions.

INSURANCE: A representative of the Auctioneers Insurance Brokers, will be present at the sale and will be pleased to quote Purchasers for transit and other risks.

REGISTRATIONS: All stock in the Sale are registered with the British Limousin Cattle Society, Tel. 02476 696500).

PEDIGREE TRANSFERS: Any purchaser who is a member of the British Limousin Cattle Society (BLCS) must return the pedigree certificate to the BLCS office and request a transfer of ownership. All transfer fees will be paid by the vendor

SETTLEMENT AND CLEARANCE OF STOCK: Settlement in full is due immediately at the close of Sale. No animal may leave the Sale Premises without an official 'Pass Slip', obtainable only from the Auctioneers upon settlement.

RESERVE PRICES: Vendors shall have the right to refuse to accept the final bid for their animals. The auctioneers reserve the right to charge half commission on the amount of the final bid in the case of animals which fail to reach the Vendors reserve price.

All pedigree animals will be sold in guineas (105 pence) and a commission of 5% will be charged by the Auctioneers on all sales. No animal may be sold privately before being passed through the auction ring and FULL COMMISSION will be charged on the sale of any animal sold by private treaty after the auction. All such transactions **MUST BE PASSED THROUGH THE AUCTIONEERS OFFICE.**

SETTLEMENT & CLEARANCE OF STOCK

Please note that all lots must be settled on the day of purchase

Completion of a buyers slip is essential for parties who have not dealt with the company before

New customers and agents wishing to purchase on behalf of another party must contact the company's main office 48 hours prior to a sale

No Lots can leave the market without a 'pass slip' being issued by the main office

Purchasers From Outside The United Kingdom

Invoices will be raised in pounds sterling.

We request that payment is made to us in pounds sterling by cheque/bankers draft on the day of sale.

Debit cards and business credit cards only accepted.

(2% surcharge on business credit cards)

If you pay with a credit card, it must be linked to a business bank account.

Our Heritage – Your Future

VENDORS INDEX

The pedigree, performance, DNA, health information and footnotes included in Society sale catalogues is as supplied by, or on behalf of the vendor. The responsibility for the accuracy of the information therefore rests solely with the vendor and not with the British Limousin Cattle Society Ltd (BLCS). It should be noted that the Estimated Breeding Values for all animals change over time, as new performance records come available. While the BLCS and Genesure Ltd seek to ensure that the information contained in catalogues is accurate at the time of printing in accordance with their terms and conditions, no warranty is given in respect thereof by the BLCS and, to the maximum extent permitted by law, the BLCS shall have no liability for any loss, damage or injury howsoever caused (including that caused by negligence) or suffered directly or indirectly in relation to information and opinions contained in or omitted from this publication. Genesure Ltd's liability is limited to the extent set out in its terms and conditions (a copy is available from the BLCS office upon request).

COWIN REALDEAL is a long, thick, naturally muscled young bull. He carries an impressive pedigree featuring the renowned **Mas du Clo** and **Wilodge LJ. Cowin Victoria** (*gdam*) has been one of the herd's base flushing cows. **Realdeal** was placed 2nd as a young bull in the 2021 Herd competition. The Cowin Herd won the Extra-large Herd for South Wales and the Mid-West Limousin Club in 2021.

Bovela BVD vaccinated February 2022.

COWIN SERGEANT is a well grown bull with plenty of style. **Sergeant** descends from a powerful dam line who consistency breeds quality. The Cowin Herd won the Extra-large Herd for South Wales and the Mid-West Limousin Club in 2021.

Bovela BVD vaccinated February 2022.

Sells with her Bull Calf at foot

CALOGALE SPARTAN

Born 07/11/2021 LIC21-0147

UK 752063/700147

Sire: MEADOWRIG PEDRO RLA19-0250

CALOGALE JESSIE J descends from the great **Baileys Countess** who was twice awarded the All Ireland Cow Championship before she eventually joined the Calogale Herd for 8,100gns. She is a genuine hard working milky cow who produces a calf every autumn. Her bull calf at foot (Spartan) is an exciting prospect from the herd's new stock bull **Meadowrig Pedro**. This outfit is only offered for sale to make room for young stock coming through.

CALOGALE ROXETTE descends from the great **Lourie Dazzle** who was the original foundation female for the Calogale herd. In 2021 we were awarded the overall Winners of the 2021 Herd Competition and the Best Youngstock category. **Bernish Memphis** (*sire*) fathered most of the youngstock on display that day and he also sired the Senior Champion Bull Carlisle February 2022. Three Bernish Memphis calves have been sold this year to average £6,825. **Roxette** is a sweet heifer full of potential for her future owners.

Alphabetical Bull Index

(All bulls marked * in the pedigrees are included in the reference)

For Enquiries: The British Limousin Cattle Society Tel 02476 696500 Email info@limousin.co.uk

* Where animals have been genotyped, the breeding values for these traits will be Genomic Breeding Values (GEBVs). Publication of GEBVs is at animal owners' discretion. If an animal has not been genotyped, the breeding value will be a conventional Estimated Breeding Value (EBV). Whether a breeding value is an EBV or a GEBV is noted alongside each value.

Please note that EBVs and GEBVs are interchangeable for the same trait. For example, an animal with a Calving Interval GEBV can be directly compared to an animal with a Calving Interval EBV. A link to further information on all EBVs and GEBVs is below.

FOR INFORMATION

Breeding Indexes

EBVs can be combined in to selection indexes to meet wider breeding objectives...

Calving Value	An economic indicator of the collective value of Gestation Length and Calving Ease
Beef Value	An economic indicator of the collective value of Birth Weight, Calving Ease, 400-Day Growth, Muscle Depth and Backfat Depth
Retail Value	An economic indicator of the collective value of Fillet, Striploin, Rump, Topside, Silverside and Knuckle at 600 days of age and a standard carcase weight of 350kgs.

NB: Using Calving Ease and Maternal Calving Ease

Calving Ease EBV *Predicts how easy a bull's own calves will be born.*

Maternal Calving Ease EBV *Predicts how easily a bull's daughters will calve.*

To search the Limousin database by Breeder, by EBVs/GEBVs and/or by Individual Animal go to www.taurusdata.co.uk and click on 'Beef Search'

For more information on EBVs and GEBVs please go to www.limousin.co.uk and click on 'Performance Programmes' or get in touch on the numbers below.

HOW TO USE GENETIC INFORMATION IN THIS CATALOGUE

Sale catalogues contain specific information relating to the genetics of each animal. This is a short explanatory note to assist when selection decisions are being made.

Lot 10 Mr A. Breeder

Concorde Magician

Born 18/04/2016

XY16-4321

UK 123456/654321

Got by AI

Natural Calf

Myostatin: F94L/Nt821

Gen. Colour: Hom. Red

Polled: Hom. Horned

gs. ANYGRANDSIRE 87-12-345-678

ggs. ANYGREATGRANDSIRE 36-12-345-678

Sire Concorde Anysire ABC05-123

gd. ANYGRANDDAM 23-12-345-678

ggd. ANYGREATGRANDDAM 87-87-654-321

ggs. ANOTHERGREATGRANDSIRE 32-12-345-678

ggd. ANOTHERGREATGRANDDAM 23-87-654-321

ggs. THISGREATGRANDSIRE 19-12-345-678

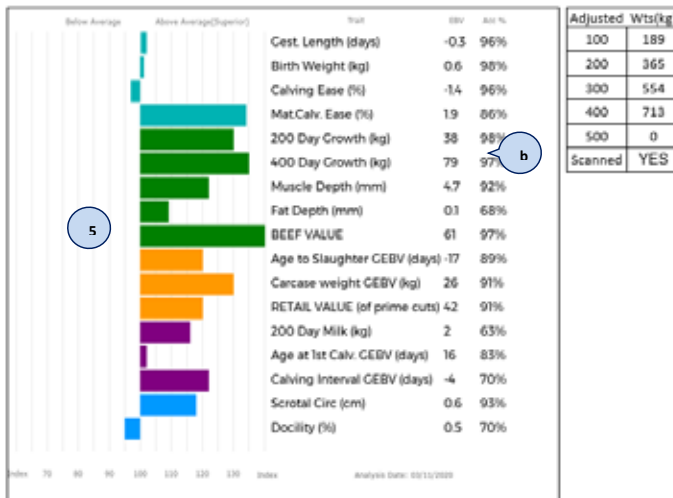

Dam Concorde Anydam ABC05-876

gd. ANYHERD GRANDDAM XYZ11-123

ggd. THATGREATGRANDDAM 19-87-654-321

ggs. ANYHERD GREATGRANDSIRE XYZ11-876

ggd. ANYHERD GREATGRANDDAM XYZ11-654

1 Birth Type

‘Got by AI’ indicates whether the calf was a result of an AI service. If blank, the dam was naturally served. ‘Natural calf’ indicates the calf was born to its biological dam. ‘ET calf’ indicates the calf was born as a result of embryo transplant.

2 Myostatin

“Not tested” indicates that no Myostatin test is currently available for the animal. Full details on the Myostatin variants and their effects on performance can be found on the Limousin Society website www.limousin.co.uk, search in ‘performance programmes’. In summary:

The Variants:

F94L	Animals with two copies of this gene (ie F94L/F94L) exhibit an increase in muscling (by up to 19%) with no associated increased in calving difficulty, lowered fertility or longevity and by far the majority of animals in the breed carry this gene. Heterozygous animals (those with one copy of the gene) also exhibit these characteristics but not to the same degree.
NT821	Animals with two copies of the gene (ie nt821/nt821) will exhibit characteristics of larger loin depths, reduced fat depths and large, rounded rump and thighs. However, unlike F94L, animals with two copies may also have slightly heavier birth weights bringing with it the potential for more difficult calvings. If animals are ‘heterozygous’ with F94L (ie F94L/nt821) they will still exhibit quality carcase characteristics but are less likely to be affected by more difficult calvings.
Q204X	Animals with two copies of the gene (ie Q204X/Q204X) will exhibit characteristics of larger loin depth, reduced fat cover and greater meat tenderness. However, they may also have the potential to exhibit larger birth weight and, if females, slightly reduced milking ability. Animals that are ‘heterozygous’ with F94L (ie F94L/Q204X) will still exhibit quality carcase characteristics but are less likely to be affected by larger birth weights and reduced milking ability.

Two further variants of Myostatin exist in the population but are relatively uncommon in their occurrence. Known as nt419 and E291X, their effects are similar to nt821 and Q204X respectively.

The recognised benefits of Myostatin are:

- ✓ **Increased Meat Yield** – by up to 19%.
- ✓ **More feed efficient**
- ✓ **Higher meat quality** – increased tenderness, reduced fat content, higher polyunsaturated fats

Using Myostatin information

An important factor to remember is that carcass traits (muscling, fat cover etc), calving traits and milk traits in cattle are controlled by MANY genes. Myostatin is only one of them and, as such, it is not an absolute predictor of an animal's performance.

A Myostatin genotype is a further bit of information that may help your decision, but it should be used in conjunction with wider information such as Estimated Breeding Values (EBVs), which bring together information of actual performance from the animal itself, its herdmates and its relatives to predict genetic merit, and your own judgment on type and pedigree.

3 Genetic Colour

Colour and polled/horned genes typically come in pairs called alleles. One is inherited from the sire and one from the dam. Where an animal's alleles are the same, it is said to be 'Homozygous' (Hom.) Where the alleles are different (because there is more than one variant of the gene, the animal is said to be 'Heterozygous' (Het.)

"Hom. Red" – animals will be red and will pass on red genes.

"Hom. Black" – animals will be black and will pass on black genes. All calves will be black, since black colour genes are dominant.

"Het. Black" – animals will be black and will pass on either a red or black gene.

"Het. Red" – animals will be red and will pass on a red gene or a colour gene known as the 'wild type' that is non-colour determinate. (The coat colour of calves inheriting the wild type gene will be governed by the gene they inherit from the other parent. It is rare, but it is also possible for an animal to be homozygous for the wild type gene, in which case they will be reddish/brown to brownish/black).

4 Genetics for Horned/Polled Status

A bull that is "Hom. Polled" - will be polled himself and all calves will be polled (since he only has polled genes to pass on and they are dominant).

A bull that is "Het. Polled" – will be polled himself and will produce some polled and some horned calves (assuming the cows are all horned).

A bull that is "Hom. Horned" – will be horned himself and will pass only horned genes to his calves.

For more information on both Genetic Colour and Polled/Horned, go to www.limousin.co.uk, search in 'performance programmes' or scan the QR code above.

5 Estimated Breeding Values and Genomic Estimated Breeding Values (EBVs & GEBVs)

EBVs & GEBVs are expressed in the same unit as the recorded trait (eg kgs for 400 Day Weight, mm for Muscle Depth etc) are relative to the Breed Average.

a) In sale catalogues, **Breed Average** for each trait is represented by the vertical line that is central on the bar chart...

- ✓ Bars that lie to the right of that line indicate EBVs/GEBVs that are above average. The further to the right they lie, the higher above Breed Average they are.
- ✓ Equally, bars that lie to the left of the line indicate EBVs/GEBVs that are below Breed Average. The further to the left they are, the further below Breed Average they are.

b) Accuracy Values (Acc%) are expressed as a % and indicate the quantity and quality of records used to produce each EBV, GEBV or Index. The closer they are to 100%, the more accurate the EBV. Highly accurate values are less likely to change over time.

c) The numeric EBV & GEBV values on the charts can be used to further refine comparison with the breed using the Breed Benchmark which is updated annually.

For more information on EBVs and GEBVs, go to www.limousin.co.uk and search under 'Breed Improvement' in the main menu or scan the QR code opposite.

EBV, GEBV and pedigree information on all Limousin cattle are just a few internet clicks away...

Step 1: Go to www.taurusdata.co.uk

Step 2: In the 'All Breeds Quick Search' box type the name or ear number of the animal you are interested in or click on the 'Breeder Search' button to look at all animals belonging to or bred by a particular breeder.

The site will then tell you the animal's owner/breeder details, its breeding values, its pedigree and list its progeny with full links to all of their information.

6 Adjusted Weights

These are the 'raw' weights recorded for the animal throughout its early growing stages. They are adjusted for age, but are not adjusted for any other factor such as management, nutrition, dam age, differences between farms etc.

For further information or if you have any query, please let us know - telephone 02476 696500, e-mail info@limousin.co.uk or speak to Society staff and Council members attending the sale.

Sell Live and Thrive Under the Hammer

The WLS team conduct weekly Monday sales of prime lambs, prime cattle, cull ewes and cull cows, as well as seasonal store sheep sales including store lambs, couples and breeding ewes. With fortnightly sales of cows and calves and store cattle the market attracts buyers from all over the country, annually selling in excess of 500,000 sheep and 10,000 cattle.

The team holds several large collective machinery sales based on the Welshpool Livestock site, ideally situated for both vendors and purchasers. It offers customers an excellent, modern sales facility for items from chainsaws to tractors, including the provision of online bidding platforms to maximise saleability for larger items.

WLS is now the base for Morris Marshall & Poole with Norman Lloyd's dedicated rural and agricultural hub combining the expertise of the two companies. The rural team provides specialist agricultural services, including rural property and farmland valuations, farm and livestock sales and government subsidy services

The WLS conference and meeting centre provides facilities that have the ability to cater for 1 to 150 delegates to suit a range of requirements. Whether you are looking to host a corporate event, business meeting or conference, we have flexible facilities to suit all occasions with complimentary Wi-Fi, large scale onsite parking and disabled access.

Herd Health at British Limousin Cattle Society (BLCS) Collective Sales

Introduction

Herd health rules were introduced by the BLCS at nominated premier Collective Society Sales and these are now in place at all premier BLCS Collective Sales (Stirling February & October; Carlisle February, May, October & December; Brecon May & November).

The principal aim is to standardise herd health declarations and information presented in order to provide both members and customers alike with clear, accurate herd health information at the point of sale and within the given sale catalogue. As such it is attractive and informative for customers and aims to further raise the level of buyer confidence.

BLCS Herd Health Rules have two principal elements:

Part 1. Herds selling at the premier Collective Society Sales have to be members of, and adhering to, the terms of a CHeCS approved Herd Health Scheme. At a minimum, this must include a whole herd test for Johnne's disease.

Part 2. All animals male and female, including calves at foot, presented at the premier Collective Society Sales be EITHER from a BVD Accredited Herd within a CHeCS approved Herd Health Scheme OR to have been BVD tested virus free. All animals forward will be required to be BVD vaccinated prior to sale with an approved vaccine. Pregnant animals must have had testing and vaccination completed prior to service. Vaccination of calves at foot to be in accordance with CHeCS guidelines and recommendations.

Herd Health Declaration

The sale entry form is accompanied by a Herd Health Declaration form asking vendors questions regarding for example: TB status; membership of CHeCS (www.chees.co.uk) health schemes (AFBI Cattle Health Scheme, HiHealth Herdcare (Biobest), & Premium Cattle Health Scheme (SRUC) and Johnne's, BVD, IBR and Lepto status. On line entries also require the Herd Health Declaration form to be completed.

Is the Herd Health Declaration compulsory?

The Herd Health Declaration is compulsory at all Premier Collective Sales. For reasons of clarity and to provide purchasers with the most accurate information available, vendors are required to complete this at time of entry.

Although not compulsory at other collective sales (Newark in April & Ballymena, Dungannon, Thainstone & Stirling in May), the Society recommends that vendors complete the Herd Health Declaration. This information then appears in the Vendors' Index within the catalogue. Where a member has chosen not to complete the Herd Health Declaration, it will simply say 'No Herd Health Declaration'.

What Other Health Information may be displayed?

It should be noted that the Herd Health information provided in the catalogue relates to whole herd status. Information relating to specific animals entered in the sale should be requested from the vendor.

Vendors are encouraged to apply to their respective CHeCS health scheme for individual animal health cards for display on pens. For an individual animal's test results, or vaccination histories, regarding BVD, IBR, Lepto or Johnne's, these are permitted above the sale pens only upon presentation of a signed veterinary declaration to verify that the animal concerned has had a clear test.

Again, for reasons of practicality, no health information notes are to be put in the catalogue footnotes by vendors. Similarly, the Society has requested that no declarations on health information be given by the auctioneer during the sale. Again, the sole purpose of this is to avoid confusion and to try and ensure that the information provided is done accurately, fairly and in a standardised format in the catalogue. This point has been agreed with the auctioneers.

Johne's Risk Levels

The Herd Health Declaration includes a section where breeders are able to indicate their Johne's Risk Level, once known.

It is a condition of BLCS Premier Collective Sales that animals from herds that are Johnes Risk Level 5 are not permitted to be sold.

Should you have any queries regarding the new Johne's Risk Level classification, please contact your respective CHeCS health scheme.

What if a vendor is selling an animal/s that he did not breed?

Vendors are still requested to fill in the Herd Health Sale Declaration accordingly. Prospective customers are advised to speak to vendors directly to acquire accurate health information on animals offered but not bred by the seller.

Feedback & more information

The Society welcomes members' and customers' feedback on the Herd Health Declarations and health policy at sales. If you have further questions, please speak to the Society representative, Iain Kerr or the Auctioneers.

LLOYD'S
ANIMAL FEEDS

**"Efficiency has never been so important.

AUCTIONEER'S TERMS & CONDITIONS OF SALE

(Incorporating the Auctioneer's Terms and Conditions)

1. The biddings to be regulated by the Auctioneers and the highest bidder, subject to the Vendor's reserve (if any), to be the purchaser. No bid shall be retracted and if any dispute should arise between two or more bidders, the Lot in dispute to be put up again and resold, or the Auctioneers may determine the dispute at their own discretion and their decision shall be final. The Auctioneers reserve the right to refuse the bid of any person without being called upon to give reason for such action.
2. The Purchaser to give his full name and dwelling place and pay for all Lots purchased immediately at the close of sale. No Lot or Lots shall be removed from the sale premises until paid for and a pass-out slip obtained from the Auctioneer's clerk but each and every Lot shall immediately at the fall of the hammer be considered as delivered and be and remain in every respect at the absolute risk and expense of the respective purchaser or purchasers thereof and shall be removed from the sale premises at the purchaser's expense. The right of property shall not pass until the full purchase price is paid.
3. Purchasers paying by cheque must be prepared, if required, to produce a banker's reference. As a result of the Money Laundering Regulations (2003) the auctioneers are unable to accept cash payments in excess of nine thousand pounds sterling for any single or linked purchase transaction.
4. All statements in the catalogue, or made by the Auctioneers at the time of sale, also the correct identification of the animals, are the entire responsibility of the Vendors. The Auctioneers take no personal responsibility for the correctness of such statements or identities.
5. All statements in the catalogue, or any made by the Auctioneers at the time of sale relating to any veterinary or other tests are to be taken as statements of fact only. No such statements shall guarantee the purchaser of any animal against loss arising from the subsequent reaction of such animal to any test administered after the sale and the Vendors shall not be liable in any way should this occur.
6. All stock is sold subject to the Conditions of Sale recommended for use at markets by the Live-stock Auctioneers' Markets Committee for England and Wales except in so far as these conflict with any Special Conditions applicable to the sale of pedigree stock, when the latter Conditions shall prevail.
7. Neither the Vendors nor the Auctioneers will be responsible for any accident or injury to persons or property, through fire or any other cause whatsoever, nor for any damage by animals prior to, during or after the sale.
8. No undertaking by the Auctioneers or their servants to take charge of any Lot or Lots after the sale or to forward them to their destination shall be held to impose upon the Auctioneers any legal obligation or vitiate any of these Conditions.
9. Inasmuch as the Auctioneers act as agents for a disclosed principal they shall not be considered personally responsible for any default on the part of either purchasers or Vendors and the remedy shall be against them only and not against the Auctioneers.
10. If these conditions are unfulfilled, the Vendors or Auctioneers shall have the power to resell the Lots, retaining any surplus and charging any deficiency and expense to the defaulter.
11. You have a right to know how we will use the information you have provided to us. We may share the information with other members of our group and may make this information available to relevant media groups and other interested parties on request. We and other members of the group may contact you by telephone, e-mail, post or fax to inform you of products or services available. If you do not want to be contacted for marketing purposes or do not wish your information to be made available to any other parties please notify us in writing.
