# BETTER BREEDING

For two decades, our animal DNA tests have enhanced selection, breeding and marketing decisions. Today, Neogen is a world leader in genomic solutions and services.

Our customers can choose solutions from our extensive testing portfolio to make profitable choices about their future herds. Our many services include:

- Genotyping to determine genetic merit & genomic breeding values
- DNA screening for parentage
- Commercial traits, genetic recessives and causative mutations
- Igenity® Beef

Contact us today for more information on our genomic solutions by phone **+44 (0) 1292 526 094** or by email on **[NeogenGenomics@neogen.com](mailto:NeogenGenomics@neogen.com)** and quote **Stirling 2023**.

## **Keep Children Safe – Bull Sales**

Every year children are killed during agricultural work activities.

People often believe that farm children understand farm risks, but most children who are injured in agricultural incidents are family members.

Auction Marts like farms are not playgrounds, Children though are naturally curious, and will often get into apparently inaccessible places

Remember that although parents have a particular responsibility to prevent their children straying or trespassing into areas where they may be at risk, all adults working in agriculture – employers, employees, contractors or other visiting workers – **MUST** take responsibility for the safety of children and young people.

## **To Reduce Risks, we should**

- Prevent children and young people from playing in or around livestock areas. Animals do not need to attack to pose a danger to people
- Provide adult supervision when children come into contact with livestock
- Make sure everyone working in the livestock areas is aware that children may be present.
- Explain that you are authorised to stop work if any children are in the work area and to send them somewhere safe.
- Not allow children out of a vehicle until vehicle is in a safe area and the children can be supervised. Prohibit children from walking across the loading/unloading area and do not enter or allow children to enter the crush zone when reversing vehicle up to loading/unloading ramp. Customers must ensure they supervise their children at all times in loading/unloading area.

## **If in any doubt you should ensure children**

Cannot enter any yard, pen, ring or area occupied by potentially dangerous animals or vehicles

**No children  
allowed in  
pennage  
area**

**Disclaimer: The health information above is as supplied by or on behalf of the breeder. The health status of individual animals may differ from the herd declaration. The responsibility for the accuracy of the information rests solely with the breeder and not The Beef Shorthorn Society.**

## **Limousin bulls**

The pedigree, performance, DNA, health information and footnotes included in Society sale catalogues is as supplied by, or on behalf of the vendor. The responsibility for the accuracy of the information therefore rests solely with the vendor and not with the British Limousin Cattle Society Ltd (BLCS). It should be noted that the Estimated Breeding Values for all animals change over time, as new performance records come available. While the BLCS and Genesure Ltd seek to ensure that the information contained in catalogues is accurate at the time of printing in accordance with their terms and conditions, no warranty is given in respect thereof by the BLCS and, to the maximum extent permitted by law, the BLCS shall have no liability for any loss, damage or injury howsoever caused (including that caused by negligence) or suffered directly or indirectly in relation to information and opinions contained in or omitted from this publication. Genesure Ltd's liability is limited to the extent set out in its terms and conditions (a copy is available from the BLCS office upon request).

Accredited free for BVD, tested virus free for BVD, routinely vaccinating against BVD

**THOMSON, WENDY & ROBERT (CAIRNBOG)**

**211, 216**

**Cairnbog Farm, Kilsyth, Glasgow, G65 9LG**

Consigned from a 4-years TB testing interval holding

Johne`s Risk Level1

Member of a CHeCS controlled health scheme for BVD & Johnes

Accredited free for BVD, tested virus free for BVD, routinely vaccinating against BVD

# Sale at 10 am

## Charolais bulls

The British Charolais Cattle Society has a minimum selling price of  
4000gns

All animals are sold subject to a presale inspection to provide a minimum standard, and animals are sold with all patent defects, and any subsequent claim after the fall of the hammer is against the vendor and not The British Charolais Cattle Society Ltd.

**Champion & reserve champion Charolais bulls will be sold  
after class 2**

**For sale only**

# Dispersal of the Orlig herd (The Logie Farm Partnership)

## Foreword

The Orlig Charolais herd was founded in 1985 at Orlig Mains farm in Caithness. My dad John Morris (Iain) purchased Chidlow Snowflake and her heifer calf at foot Chidlow Velma in October 1984. The herd was run commercially for a number of years, producing home grown bulls to use across our own suckler herd. Over the last two decades we have continued to produce bulls for the commercial and pedigree market. We started to invest in more genetics at the turn of the millennium through purchasing heifers from the Meardy herd. In addition, we purchased Bleack Ginny, at the Bleack dispersal a number of years ago. We still have a number of her embryos stored. The introduction of these key female lines was key to the improvement of the herd.

Sandleford Duggan was purchased for 11000gns in Stirling in February 2010 who further improved the herd, introducing great character and style. The herd has gone from strength to strength, with Andrew predominately focusing in on the commercial bull market. We have enjoyed success in the show rings firstly with Orlig Dubarry, a Maerdy Alien/Maerdy Impeccable daughter. Dubarry, amongst other successes, won breed champion and reserve overall champion at the Royal Highland Show in 2010. A son of Dubarry, Orlig Highwayman was also junior champion at the Stars of the Future show in 2021 and went on to be reserve junior champion at the Royal Highland Show in 2013. Orlig Minnie, a Bleack Ginny daughter, was reserve overall at the Stars of the Future Show in 2017 and champion of champions at Caithness Agricultural Show in 2018.

A welcome addition to the herd was the purchase of Firhills Rex in 2022 who has put great genetics across the herd, as well as notable breed characteristics including size, power, easy calving ability and shape. More recently we have enjoyed successes with Orlig Unicorn who is sold as an in-calf heifer at the sale. More recently we purchased two in-calf heifers, Shiraz and Sangria, from the Gretna House sale in November 2023. Sangria is the full sister to Gretnahouse Tequilla sold for 50000gns at the same sale. Shiraz has a calf at foot by Firhills Rex. Sangria is due any-day and possibly will not be able to attend the sale but will be available at a later date and can be seen at home.

The cattle are being dispersed through no fault of their own, and simply due to a lack of time. Andrew and Jo, with a young family and the many pressures of running their new farm in Fife, plan to concentrate on the arable and sheep enterprise. With the introduction of better genetics, the herd has gone from strength to strength. The young stock are the best the Morris family have produced to date and hold an exciting future ahead of them.

The herd, in a natural working state, can be viewed in advance of the sale at Logie Farm, Newburgh Fife KY146HL at an open afternoon on Sunday 27th April between 2-5pm (no appointment necessary and all welcome) or at the market in advance of the sale from Sunday 4th May 2025.

**With many thanks**

**Iain, Andrew and Jo Morris**

## Cows in calf or with calf at foot

Calving record: 03/04/2024 Female

We were fortunate to purchase Sangria in November 2023 at the Gretna House sale as an in-calf heifer. Sangria, from the famous Gretnahouse Drink family, is the full sister to Gretnahouse Tequilla who was sold on the same day for 50000gns. In 2024 Sangria had heifer calf Orlig Vino who is also available for sale. Sangria is currently heavily in calf to Firhills Rex and is due any day so may not be able to attend the sale. If so, she will be available from home at a later date.

Calving record: 29/03/2024 Male

We were fortunate to purchase Sangria in November 2023 at the Gretna House sale as an in-calf heifer. She is a very correct, well put together Lochend Nighthawk daughter, also belonging to the Gretnahouse Drink family. Her last year's bull calf "Vimto" is certainly one to watch out for and would have been used as a stock bull.

# Simmental bulls

The British Simmental Cattle Society has a minimum selling price of  
4000gns

All animals are sold subject to a presale inspection to provide a minimum standard, and animals are sold with all patent defects, and any subsequent claim after the fall of the hammer is against the vendor and not The British Simmental Cattle Society Ltd.

## Champion & reserve champion Simmental bulls will be sold after class 5

### Class 5

**Bulls born on or between 5 June & 13 October 2023**

MR S B KNOX

All bulls entered at official Society sales have their Myostatin status displayed in the catalogue.

The Myostatin nt821 gene is responsible for double muscling.

**Myostatin Status No Carrier**, means the bull does not carry the Myostatin variance gene.

**Myostatin Status Single Version Carrier** means the bull carries a single version either Myostatin NT821 or F94L genes, but still accepted for registration by the Aberdeen-Angus Cattle Society
