In accordance with byelaw 3.9, refunds on registration fees of £15/head (excl VAT) will be made if animals are deregistered from the herdbook up to and including 365 days from birth.

**VAT:** All the services provided to members by the Society are liable to VAT. Valid VAT invoices are issued for these services.

**DNA Costs**

|                           | Column 1<br><b>Animal not previously<br/>genotyped, or has a profile<br/>generated prior to 01/03/2018</b> | Column 2<br><b>Animal has been genotyped<br/>since 01/03/2018, or is being<br/>genotyped as part of this order*</b> |
|---------------------------|--|---|
| Genotype                  | 22.00  | n/a   |
| Sire Verification         | 25.00  | 3.00  |
| Dam Verification          | 25.00  | 3.00  |
| Sire and Dam Verification | 28.00  | n/a   |
| Myostatin                 | 23.00  | 1.00  |
| Colour                    | 23.00  | 2.00  |
| Polled                    | 23.00  | 2.00  |
| Protoporphryia            | 23.00  | 10.00   |

\* If an animal has not been genotyped before, or was last genotyped prior to 01/03/2018, the sample is automatically genotyped when any of the tests in Column 1 is ordered

**Examples of typical order packages are as follows:****Animals not yet genotyped, or genotyped prior to 01/03/2018:**

|   |        |
|---|--------|
| Sire Verification + Myostatin                   | £26.00 |
| Sire & Dam Verification + Myostatin             | £29.00 |
| Sire Verification + Myostatin + Polled + Colour | £30.00 |

**Animals already genotyped (and genotyped since 01/03/2018):**

|                       |       |
|-----------------------|-------|
| Myostatin only        | £1.00 |
| Dam verification only | £3.00 |

Genotypes are automatically included within the genomic evaluation to produce genomic estimated breeding values (GEBVs) for the carcase and maternal traits

All costs are exclusive of VAT.
