Thompsons Beef Range

Thompsons' range of beef rations have been designed to maximize live weight gain, with efficient food conversion coming as standard.

Traditional brands of rations are now available with improved cereal and digestible fibre levels to ensure that the maximum nutritional value can be achieved from each kilogramme of concentrate feed.

Rations consist of Maize, Wheat and Barley cereals, which are included at various levels, alongside differing protein and fibre levels which have been utilised to construct a range of receiver, grower and finishing style diets. Multiple rations can be used at various stages of growth and in combination with other rations in the range to give a finishing program suitable for all breeds, genders and weights of cattle.

CONDITIONS OF SALE: This sale is held under the British Limousin Cattle Society's Auction Sale Rules. This sale is held subject to these rules and the Auctioneers' General Conditions of Sale, both available on request.

METHOD OF SALE: All cattle will be sold in guineas (105 pence) and strictly in catalogue order, unless any alteration is announced by the Auctioneers.

EXPORT: All animals are available for direct export to mainland UK. Animals can be exported to the Republic of Ireland by prior arrangement with the vendor.

UPSET PRICES: There will be an 'Upset' price of 2500 guineas on each female presented for sale - i.e. if no opening bid of 2500 guineas is received for any particular lot, that lot will be passed out of the ring unsold.

COMMISSIONS: The Auctioneers will dutifully execute commissions to purchase for buyers unable to attend the sale personally, upon receipt of written instructions.

REGISTRATIONS: All stock in the Sale are registered with the British Limousin Cattle Society (Tel 02476 696500).

ONLINE BIDDING: Is available on Marteye.

Important Notice to Vendors & Purchasers

The full Auction Rules of the BLCS can be viewed in the Society's Byelaws and on the website www.limousin.co.uk. A paper copy can be made available upon request to the BLCS office.

ARRIVAL OF STOCK - As per timetable of events (page 4).

PRE-SALE INSPECTION: All lots must be available for inspection, as per the timetable of events. A Veterinary Officer will examine all animals forward for general health and genetic defects, particularly teeth, eyes, locomotion. The Veterinary Officer and appointed Society Inspector will check general conformation, locomotion and breed characteristics and temperament. Any animal discovered with a genetic fault, disease or disorder will be REJECTED. Animals will be placed in a crush for this inspection - as required by the Veterinary Officer. The Veterinary inspection will form an integral part of the pre-sale inspection procedure.

Please note - "All animals are subject to a pre-sale inspection to provide a minimum standard and animals are sold with all patent defects, and any subsequent claim after the fall of the hammer is against the vendor and not The British Limousin Cattle Society Ltd".

IDENTIFICATION MARKS: At the point of inspection all animals born after 01 January 1998 must be clearly identified in accordance with bye-law 3.12. This includes all calves at foot.

MARGINAL TEETH - Any female found to have marginal teeth when inspected will have their sale ticket marked in yellow. Females with marginal teeth will be eligible to be shown in the pre-sale show.

EVERY ANIMAL entered for the Sale, **MUST BE ADEQUATELY TRAINED TO LEAD BY HALTER** and **MUST BE PARADED FOR INSPECTION** unless exempted by the Stewards, at the time and place to be notified. Evidence of faults of temperament, vices, etc., may lead to disqualification. All animals must be provided with a serviceable halter, which will become the property of the purchaser.

Please ensure all cattle passport documentation is handed to the Market Sales Office upon arrival. Failure to do so or if for any reason the paperwork does not correspond to the cattle being offered for sale, such animals will be not be put forward for the auction.

The proceeds of sale are guaranteed by the Auctioneers, however, this does not extend to the animals sold for export, to which special conditions apply.

RESERVE PRICES: Vendors shall have the right to refuse to accept the final bid for their animals. The auctioneers reserve the right to charge half commission on the amount of the final bid in the case of animals which fail to reach the Vendors reserve price.

All animals will be sold in guineas (105 pence) and a commission of 5% will be charged by the Auctioneers on all sales. No animal may be sold privately before being passed through the auction ring and full commission will be charged on the sale of any animal sold by private treaty after the auction. All such transactions must be passed through the auctioneers office.

EXPORT: Customers are reminded that potential buyers and transporters must have a valid operator profile on TRACES NT before attending the sale. To comply with this you should contact your relevant authority to ensure this is in place.

Failure for this to be completed prior to attending sales, particularly over weekends will inhibit certification by the attending PVP and delay the onward export of animals outside of Northern Ireland.

Thompsons' range of beef rations have been designed to maximize live weight gain, with efficient food conversion coming as standard.

Traditional brands of rations are now available with improved cereal and digestible fibre levels to ensure that the maximum nutritional value can be achieved from each kilogramme of concentrate feed.

Rations consist of Maize, Wheat and Barley cereals, which are included at various levels, alongside differing protein and fibre levels which have been utilised to construct a range of receiver, grower and finishing style diets. Multiple rations can be used at various stages of growth and in combination with other rations in the range to give a finishing program suitable for all breeds, genders and weights of cattle.
