General Information & Sale Notes

LOCATION: The Sale will be held in the Borderway Mart, Carlisle Cumbria. Motorists should leave the M6 at Junction 43 and follow CARLISLE signs. The market is on the left-hand side of the road within 1/4 mile of M6.

CONDITIONS OF SALE: This sale is held under the dispersal sale conditions no warranties are applied.

METHOD OF SALE: All cattle will be sold in guineas (105 pence) and strictly in catalogue order, unless any alteration is announced by the Auctioneers.

COMMISSIONS: The Auctioneers will dutifully execute commissions to purchase for buyers unable to attend the sale personally, upon receipt of written instructions.

REGISTRATIONS: All pedigree Limousin stock in the Sale are registered with the British Limousin Cattle Society (Tel 02476 696500).

PEDIGREE TRANSFERS: Official Pedigree Transfers will be effected by the Auctioneers and the British Limousin Cattle Society as soon as possible after the Sale. Full Pedigrees will be transferred free of charge to all members.

NBA WARRANTIES: This Sale is also held subject to the Special Terms and Conditions of Sale recommended for Sales of Pedigree Beef Cattle by the National Beed Association. The preparation of these Terms and Conditions has proved a lengthy and costly process and, in order to defray the legal and other costs involved, and to provide a continuing source of revenue to assist the Association in its vital work for Pedigree Cattle Breeders, the Council of the Association has decided that a special levy, amounting to £10 + VAT per Bull (£5 paid by vendor & £5 paid by purchaser) and £10 + VAT per Female (£5 paid by vendor & £5 paid by purchaser) as of the 1st of May 2025.

Sale Foreword

The Calogale Herd was initially established as a hobby way back in 2009 and quickly became a profitable business in its own right. All those years ago we set out with determination to buy the very best foundation females we could afford with a view to breeding powerful, correct and functional females of our own.

Lourie Dazzle was purchased for 6500gns at the 2010 Red Ladies Derby where she stood Overall Reserve Champion on the day. **Trueman Florence** was our pick of the 2011 Red Ladies Derby and she was secured for 8,800gns. **Goldies Glorious** (*£6,000*) and **Dinmore Helebore** (*12,800gns*) were added to the herd in 2012. These four foundation females have been key to the success of the Calogale prefix and almost all the cattle on sale today go back to these great bloodlines.

Having grown the herd to the point we felt we could justify buying a bull **Bernish Memphis was secured for 22,000gns in Carlisle February 2018 and what a fantastic investment he was.** He is the sire of the majority of youngstock in the sale and most of the cows are safely settled back in-calf to him again. His calves are born with remarkable ease and they're up on their feet and sucking in no time; they grow like mushrooms and keep getting better and better as they mature. Memphis has done it all for us! He's consistently bred Championship winning and high valued progeny selling at the Carlisle, Stirling, Welshpool and Melton Mowbray pedigree sales. He's bred us multiple show winners and Herd Competition Winners. Above all else he's returned my original 22,000gns investment over and over again. Memphis is still fit and healthy and semen from him is available for sale.

Throughout my involvement with the Limousin breed I can genuinely say that I've met wonderful people and forged many fantastic friendships. I am immensely proud of what the herd has achieved despite sitting at only around 10-12 breeding females at any one time.

Standout memories include countless Interbreed Championships at Regional and National Shows including the Exhibitor Bred Interbreed Group of Three Championship at the RWAS 2018 followed by the Limousin Male Championship at the RWAS 2019 . Multiple sale Champions and high value sales have influenced the herds' development as **every cow is subjected to my "if they don't pay they don't stay" mantra**. The cows in the herd today are proven bread winners. Over the years a significant number of undisclosed five-figure sum sales have been secured on-farm including females to £40,000 and many others in the £10,000 to £25,000 price bracket. Bull sales have consistently surpassed the 10,000gns mark and have peaked at £21,000. A myriad of Herd Competition successes year after year have given us great satisfaction with my personal proudest achievement being that **since 2020 we have won the Overall "Best Cow and Calf" category five years in a row... with five different cows!!**

In recent times life has thrown up various challenges and with the continued growth in off-farm activities I have had to accept that I'm simply spreading myself too thin; the cattle are no longer getting the attention they deserve. For these reasons, I have decided the time is right to disperse the herd and to free up some time to pursue alternative interests before I get too old.

Herd Health has always been a top priority at Calogale and having attained Elite Health Status some time ago the herd was virtually closed to protect that status. The whole herd is:

- BVD Accredited Free;
- IBR Accredited Free;
- Leptospirosis Accredited Free;
- Johnes Accredited Risk Level 1;
- Neospora Accredited Risk Level 2 (*This would have been upgraded to Level 1 next month but the sale has come too soon*);
- Blue Tongue Vaccinated on the 29th of September 2026 and the 20th of October 2026; AND
- Routine annual TB Test completed on the 16th of November 2026.

Since establishing the herd in 2009 we have **NEVER had any TB issues whatsoever**. Calogale cattle have routinely been sold throughout England, Scotland and Wales with a select few also being exported to Europe. Having recently been Blue Tongue Vaccinated and TB tested **every animal is eligible for onward travel to anywhere on the UK mainland.**

The sale order has been arranged into family groups so that prospective purchasers can view specific family lines penned alongside eachother. I have also decided not to include professional photographs in the catalogue as I am not in favour of using digitally enhanced photos to promote sale entries. I have every confidence that the quality of the cattle, the depth of their pedigrees and their proven track records will speak for themselves.

In addition to the cattle themselves **I am also offering for sale 29 Lots of Frozen Embryos and 25 Lots of Frozen Semen** which are listed at the rear of the catalogue and will be auctioned immediately after Lot 135.

I would like to express my sincere thanks to Richard Rettie and his team for agreeing to prepare the cattle on sale-day. I would also like so say a huge "thankyou" to the entire H&H team for making this sale happen at such short notice with particular thanks to Lara Reid and Grant Anderson for their specific help and support.

The herd are presented in their normal working condition and what's on offer is a culmination of almost twenty years of pride, joy, investment and dedication. Anyone wishing to view the cattle on-farm ahead of the sale are very welcome, just give me a call to make arrangements or to discuss any other queries - 07813 077 434 (*Gareth*).

Finally, a few words of encouragement to all prospective purchasers... ***"Get stuck in! Have the courage to buy the very best you can afford safe in the knowledge that this is a complete and genuine Herd Dispersal of proven and prolific cattle. Have the conviction to bid fast, and make sure you bid last."***

Good Luck and Merry Christmas to you all, from Gareth & Family.

The Calogale Dispersal sale on Friday the 11th December 2026 is a DISPERSAL sale.

Calogale Option descends from the famous Brockhurst Option via the outstanding Millington Lapwing who we purchased in partnership with the Frogmore Herd for 11,800gns.

Full sisters to Option have been sold privately off-farm for five figure sums.

Options' only daughter (an embryo calf called Calogale Skye) sold for 8000gns at the Red Ladies Derby 2022.

Option was 6 months pregnant when we vaccinated the herd for Blue Tongue Virus in September and four days later she sadly cast that calf so is offered for sale as an empty brood cow with a proven flushing history.

There is absolutely no reason that this cow won't get back in-calf for her new owner.

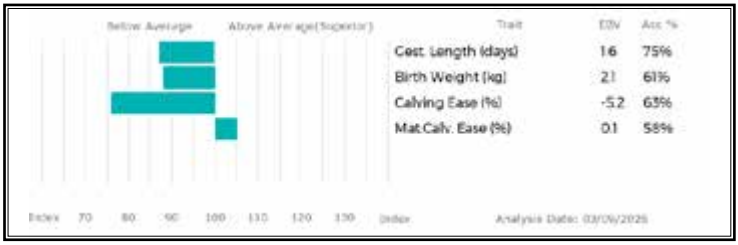

THIS FEMALE HAS BEEN FLUSHED 6 TIMES, 77 EMBRYOS REMAIN FROZEN.

Born 09/06/2026 LIC26-0213 UK 752063/300213
Sire: *BERNISH MEMPHIS MJI16-689

Calogale Princesse is my sons favourite cow and is one that will catch everybody's eye, she is a real character. Her mother is a huge French cow called Divine that was purchased by Andrew Gammie for the noted Westpitt Herd.

Princesse has matured into a fantastic cow that I would never part with but for the herd being dispersed. She has two tremendous daughters and a son in this sale (*Lots 102A, 103 & 130*). Princesse has been flushed once with 9 frozen embryos being retained (*1 of these embryos will feature in the embryo auction to be held at the conclusion of this sale*).

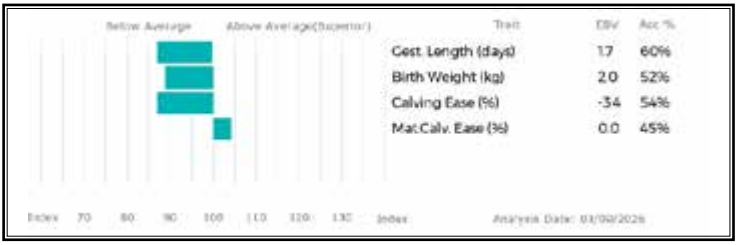

This is a cow that everyone will want to take home.

THIS FEMALE HAS BEEN FLUSHED 1 TIME; 9 EMBRYOS REMAIN FROZEN.

Calogale Amethyst is a very impressive daughter to Osprey (*Lot 107*) and has been shown on my behalf by John and Ifan Phillips of the noted Silverstone Herd during this autumn/winter show season.

She stood second in a very strong continental class at the Carlisle Agri Expo and followed this up by winning her class at the English Winter Fair. She is due to appear again at the Welsh Winter Fair before being presented for sale.

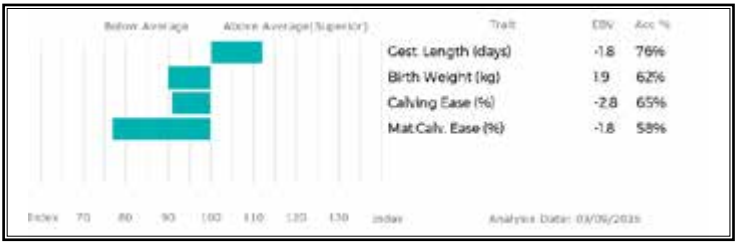

AMETHYST will make a great show heifer for the 2027 show season.

CALOGALE BERYL

Born 08/11/2026 LIC26-0220 UK 752063/300220
Sire: *BERNISH MEMPHIS MJI16-689

Calogale Osprey is a very rare Foxhillfarm Manhattan daughter and is breeding exceptionally well. Manhattan was purchased by the noted Garyvaughan herd for 35,000gns. Osprey is a granddaughter to the great Lourie Dazzle who stood Overall Reserve Champion at the 2010 Red Ladies Derby. Ospreys Dam (*Calogale Izzy*) won countless Interbreed Championships as well as winning the Club Stars of The Future Competition and Brecon County Show Interbreed Championship when she was just 11 months old.

Osprey is the only cow in the herd to have undergone a C-Section which was way back in 2021 when her first calf was presented upside-down and back-to-front; that first calf went on to win his class in Carlisle February 2023 and sold for 11,000gns. Osprey has calved completely unassisted every time since then and she has two very impressive daughters in this sale (*Lot 106 & Lot 108*).

Osprey has never been flushed which is a huge mistake on my part and she would never be offered for sale but for the herd being dispersed. She is sold with her newborn heifer calf at foot and has been left free of the bull since calving.

This is an outfit not to be missed and will look great value for money following the sale of her daughters.

AI on 26/08/2026 with **CALOGALE IRRESISTABLE LIC13-0020** (*Semen Royalty Bull*).

Has been PD'd in calf. Estimated due date: June 2027

Calogale Violet is a full sister to Calogale Amethyst (*Lot 106*) and is another daughter to Calogale Osprey (*Lot 107*). This is a great opportunity to buy into a proven and prolific bloodline; her back-pedigree is superb.

Violet was AI'd on the 26/8/2026 and is PD'd in-calf to that service.

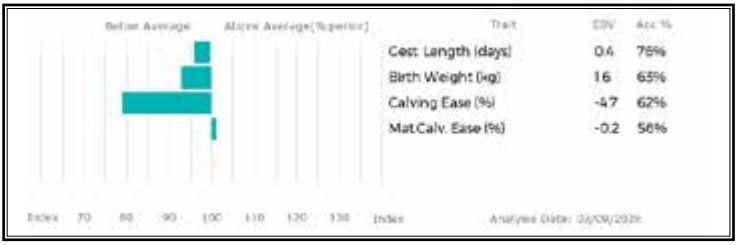

Make sure you buy this heifer if you miss out on the last two Lots.

Calogale Vitality wasn't bred to be sold and she would never be parted with but for the herd being dispersed. Her mother (*Calogale Icemaiden*) was an absolute dream of a cow that we sadly lost to illness far too soon. Every offspring produced by Calogale Icemaiden has been sold into pedigree herds for significant sums of money: Calogale Romeo sold to the noted Mayfields Herd in Carlisle October 2021, Calogale Shotgun sold for 12,000gns to the noted Saunders Herd in Carlisle February 2024 and numerous daughters have sold privately off-farm for significant undisclosed five-figure sums (*see the footnotes to Lot 111*).

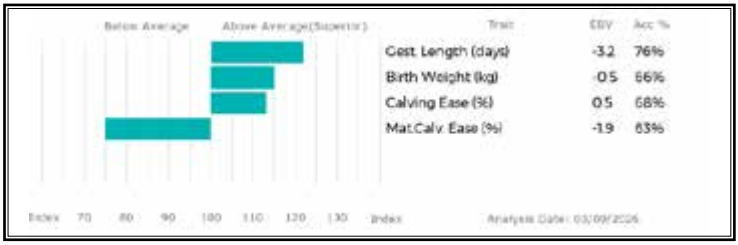

Vitality has been left open for the purchaser to flush or serve to a sire of their choice.

This is a unique opportunity to buy into the prolific Calogale Icemaiden family so look no further for a foundation female with bloodlines to die for.

Calogale Bianca is one of only two direct daughters of the outstanding Trueman Florence that are available in this sale. Trueman Florence (*Dam*) was my pick of the 2011 Red Ladies Derby where she was purchased for 8,800gns; she has been a standout breeder for us at Calogale and has easily grossed well over £100,000 with sons and daughters sold into pedigree herds up and down the country. Bianca is a full sister to the aforementioned Calogale Icemaiden and is a maternal sister to numerous high value animals including the £40,000 Calogale Nightingale, 9,000gns Calogale Ninja and Calogale Umbria who was sold privately off-farm for a significant undisclosed five-figure sum to Stuart Perkins' noted Hartmoor Herd.

Bianca is a heifer that I simply wouldn't sell at any price but for the herds dispersal; she's a nailed on breeder that will pay for herself time and time again and should be on everyone's shortlist. Dig deep and don't miss this one!

LOT Gareth Lee
110A RECIPIENT COW

Born 28/09/2023 UK 742081/205336

CALOGALE BUCAYO

Born 08/11/2026 LIC26-0221 UK 752063/400221
Sire: *BERNISH MEMPHIS MJI16-689

Calogale Plum is an absolute tank of a cow from the noted Calogale Icemaiden who herself descends from the great Trueman Florence. Two full sisters to Plum were destined for the 2020 Red Ladies Derby but were bought privately off-farm ahead of the sale for undisclosed five-figure sums by Stuart Perkins of the noted Hartmoor Herd. Stuart returned in 2024 and bought another sister (*Calogale Velocity*) that was also earmarked for the Red Ladies Derby. Maternal brothers to Calogale Plum have been sold in Carlisle to 12,000gns (*Calogale Shotgun sold to the noted Saunders Herd*) and a full brother (*Calogale Valero*) was also sold privately off farm earlier this year for another five-figure sum to the Calvert Herd in Derbyshire.

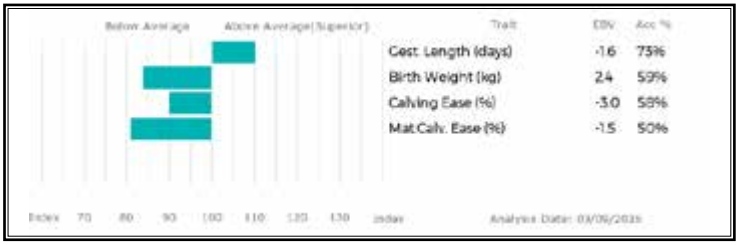

Plum is another cow that I genuinely regret not flushing and she'd never be offered for sale but for the herd being dispersed. She is sold with her newborn bull calf at foot and has been left free of the bull since calving. This cow is another nailed on breeder from the prolific Florence bloodline that I look forward to seeing what she does for her new owner!

Calogale Apricot is a very close relative to the previous Lot (*Calogale Plum*) as her Dam (*Calogale Peachy*) is one of the two full sisters to Plum that were purchased privately off-farm by Stuart Perkins for substantial five-figure sums.

Apricot is an impressive, upstanding and wide yearling heifer with a fantastic back-pedigree and a great temperament which makes her an ideal candidate for the 2027 show season.

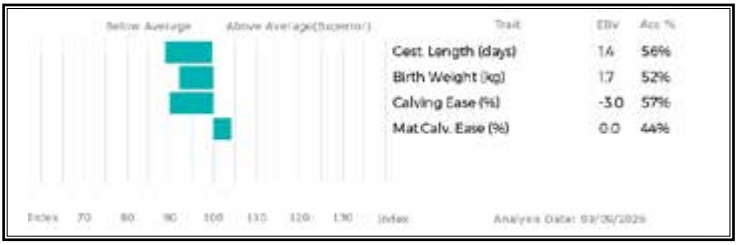

Apricot is a classy heifer and is another opportunity to buy something for the family to have some fun with next show season before settling her in-calf to a sire of your choice (*I'd suggest Bernish Memphis as a perfect fit for this heifer and his semen is available in todays auction - please see the full entry of semen in the back of the catalogue*).

Calogale Adele is a lovely heifer that is going to mature into a massive cow with an abundance of breedy character about her.

Adele is another candidate for the 2027 show season if she stops growing quick enough and she's from a dam line that consistently breeds exceptionally well.

Don't overlook this heifer as I have a sneaky suspicion she's going to breed something truly outstanding.

Calogale Orianna is a big powerful natural daughter to the awesome Trueman Florence who was a complete blessing for us. Orianna won the "Overall Best Cow with Calf at foot" in the 2024 Herd Competition judged by Patrick Greed of the noted Killerton Herd; since that time she has undergone repeated IVF collections before being run back with Bernish Memphis.

Orianna represents the very last chance to buy a Trueman Florence daughter and could be a very cheap way to buy into this prolific bloodline that never fails to breed. **This is an opportunity not to be missed.**

Having run with Bernish Memphis from the 1st of October she was PD'd on the 13th of November and was thought to be very early in-calf but too soon to be guaranteed.

THIS FEMALE HAS BEEN FLUSHED 3 TIMES; 13 EMBRYOS REMAIN FROZEN.

Calogale Opus was shown very successfully as a maiden heifer and followed in her mothers' footsteps when she won the Female Champion at the 2019 Club Stars of the Future Competition which her mother had previously won three years earlier. Her Grandmother (*Goldies Glorious*) was purchased privately from the noted Goldies Herd as a month-old calf and has bred superbly well for us with numerous five figure progeny, including Calogale Righteous who stood Senior Champion in Carlisle February 2022

Opus is an ideal candidate to produce commercial show calves with her first daughter (*Calogale Tremendous*) being bought by the noted show-calf producer Dafydd Lewis earlier this year for what was the top priced female sold that day. Opus's heifer calf at foot (*Calogale Bootylicious - Lot 118A*) was actually weaned earlier this autumn as **Opus is PD'd very heavy in-calf with an estimated due date very early in 2027.**

THIS FEMALE HAS BEEN FLUSHED 2 TIMES; 1 EMBRYO REMAINS FROZEN.

Calogale Opal is a natural daughter of the 12,800gns Dinmore Hellebore who we purchased from the 2012 Dinmore Production Sale. **If I had to pick just one cow to keep this would be the one,** she does everything you could ask of a productive pedigree cow; she calves easily, milks likes a train and gets straight back in-calf to go again (*just take a look at her calving record*). Opal reared a pair of twin bull calves in 2022 both of which sold as breeding bulls. **In 2024 she reared Calogale Vandal who stood Overall Reserve Champion at this years' Stirling Bull Sale in May.**

Opal has 3 fantastic daughters in this sale including Calogale Baileys (*Lot 19A*) and Calogale Apollo (*Lot 120*) who are full sisters to the aforementioned Vandal; all of these daughters have the potential to be equally as productive, if not better, than their mother.

Opal was kept away from the bull following calving as I fully intended to flush her but time has run away with me and I just haven't managed to get around to it. As a result she ran with Bernish Memphis from the 1st of October, was seen served on the 10th of October, and has not been seen bulling since.

Opal has never been flushed which is a massive mistake on my part. **Buy this highly productive cow at any price if you can!**

Calogale Apollo is a daughter to the incredibly productive Calogale Opal (*Lot 119*) and a full sister to the aforementioned Calogale Vandal who stood Overall Reserve Champion at the Stirling Bull Sales in May this year.

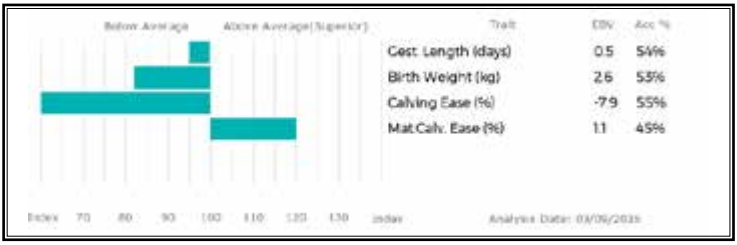

Apollos' dam has tremendous maternal traits and Apollo herself would have been retained at but for the herds' dispersal. **Buy this heifer if you don't manage to buy her mother, this is an emerging bloodline not to be overlooked.**

Has been PD'd in calf. Estimated due date: June 2027

Calogale Unakite combines the 12,800gns Dinmore Hellebore and the 20,000gns Meadowrig Pedro. Her dam (*Lot 119*) breeds consistently well for fun; she bred this years Overall Reserve Champion at the Stirling Bull Sales and Unakite has the potential to breed every bit as well as her mother.

Sadly, Unakite gave birth to a stillborn calf in June and so she does not have a calf at foot. However, **she is PD'd approx 10 weeks in-calf and is said to be carrying TWINS.**

Calogale Tequila is another daughter to the 20,000gns Meadowrig Pedro and goes way back to the tremendous Trueman Florence and the 140,000gns Trueman Jagger.

Tequila's mother is a full sister to the £40,000 Calogale Nightingale and the 9,000gns Calogale Ninja who stood Senior Champion in Carlisle February 2019 and sold to the Coleburn Herd based in Elgin.

Tequilas' two offspring both feature in this sale (*Lot 122A and Lot 133*). **Females from this bloodline always breed well** so keep your fingers crossed for as many daughters as possible from this cow.

Calogale Tizzy is sired by the 20,000gns Meadowrig Pedro and out of Calogale Izzy who won countless Interbreed Championships as well as winning the Club Stars of The Future and Brecon County Show Interbreed Championship when she was just 11 months old.

Tizzy's grand-dam is the great Lourie Dazzle who stood Overall Reserve Champion at the 2010 Red Ladies Derby. Tizzy is a sister to Calogale Osprey who's first calf was the 11,000gns Calogale Sykes.

This is **a young cow full of proven and prolific breeding** that will be an asset to any herd.

THIS FEMALE HAS BEEN FLUSHED 2 TIMES; 4 EMBRYOS REMAIN FROZEN.

Calogale Ullanna is a natural calf out of the mighty impressive Calogale Orianna (*Lot 114*) which makes her yet another Trueman Florence granddaughter. Her sire is the 20,000gns Meadowrig Pedro which makes her a sister to the 30,000gns Dinmore Sensation who was also crowned the Supreme Female Champion at the 2024 Balmoral Show.

Sadly, Ullanna lost her June 2026 bull calf through no fault of her own but her first calf (*Calogale Alanna - Lot 125*) features in this sale so you can see how well she's breeding.

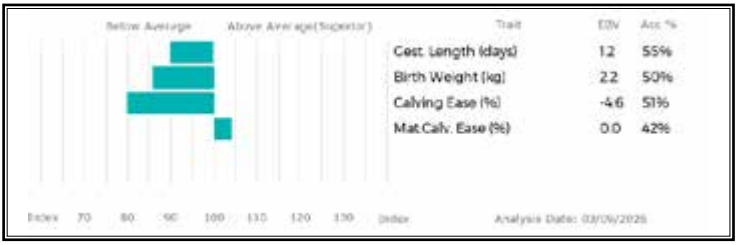

This is another young cow full of proven breeding that has all the potential to go on and breed something special.

Her Bull Calf at foot

CALOGALE BAZ

Born 09/11/2026 LIC26-0222 UK 752063/500222
Sire: BERNISH MEMPHIS MJI16-689

Calogale Topaz won the Reserve Champion Baby Beef Heifer at the Royal Welsh Agricultural Show 2023 and went on to win the Club Stars of the Future competition two weeks later. Her brother (*Calogale Oxide*) won the Limousin Male Championship at the RWAS 2018 before selling for 12,000gns in Carlisle October 2019 for export to Europe.

Topaz's first son Calogale Alcatraz (*Lot 127*) is an out and out muscle machine and is a full brother to Topaz's newly born calf at foot. Topaz sells with her newborn bull calf at foot and has been left free of the bull since calving. This is **a female I expect to breed outstanding commercial show calves so don't let this one pass you by** if that's your niche.

Calogale Alcatraz is a heifers calf out of Calogale Topaz (*Lot 126*) who won the Reserve Champion Baby Beef Heifer at the Royal Welsh Agricultural Show 2023 (*see photo overleaf*).

His sire is the exceptionally easy calving 22,000gns Bernish Memphis who has bred multiple champions and five figure bulls to date. His grand-dam (*Calogale Lizzy*) produced the 12,000gns Calogale Oxide who also won the Male Championship at the 2023 RWAS before being exported to Europe.

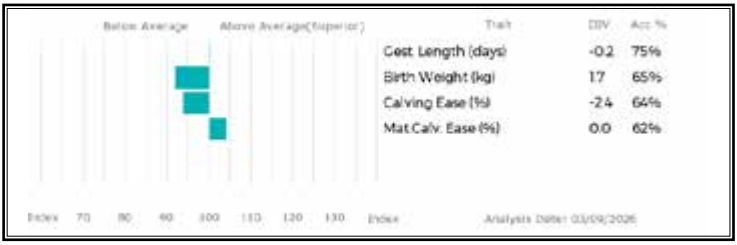

Alcatraz is an absolute muscle machine that's ideally suited to commercial show-calf production.

Calogale Bruce is a Double F94L gene carrier sired by the renowned Objat and out of the tremendous Trueman Florence. This makes him a full brother to Calogale Irresistable who was the first bull we ever sold in Carlisle when he was purchased by the renowned

Robertson family for the renowned Logierait herd.

Bruce is a full brother to Calogale Bianca (*Lot 110*) and Calogale Icemaiden who has bred multiple high value progeny including Calogale Romeo sold to Anrdew and Alison Clarks' noted Mayfields, Calogale Shotgun sold to the noted Saunders Herd for 12,000gns and Calogale Valero sold privately off-farm to the Calvert Herd in Derbyshire.

Bruce is just a baby at nine months old and is full of potential for the upcoming show season and beyond.

BLCS NOTICE

taurus data

28 DAY NOTIFICATION FOR REGISTRATION RULE

From the launch of the New Taurus platform, animals that are not Birth Notified or Registered within the first 28 days of life, will NOT be eligible for registration within the herdbook.

*Please Birth Notify any animals approaching 28 days old.

If you wish to register any animal which is over 28 days old (even if it is already birth notified), please ensure it is registered before the launch of New Taurus.*

Look out for announcements soon regarding confirmed launch date.

The British Limousin Cattle Society Ltd.

British Limousin Cattle Society Ltd, 17 Waterloo Place, Warwick Street,
Leamington Spa, Warwickshire, CV32 5LA
T 02476 696500 E info@limousin.co.uk

* Where animals have been genotyped, the breeding values for these traits will be Genomic Breeding Values (GEBVs). Publication of GEBVs is at animal owners' discretion. If an animal has not been genotyped, the breeding value will be a conventional Estimated Breeding Value (EBV). Whether a breeding value is an EBV or a GEBV is noted alongside each value.

Please note that EBVs and GEBVs are interchangeable for the same trait. For example, an animal with a Calving Interval GEBV can be directly compared to an animal with a Calving Interval EBV. A link to further information on all EBVs and GEBVs is below.

FOR INFORMATION

Breeding Indexes

EBVs can be combined in to selection indexes to meet wider breeding objectives...

Calving Value	An economic indicator of the collective value of Gestation Length and Calving Ease
Beef Value	An economic indicator of the collective value of Birth Weight, Calving Ease, 400-Day Growth, Muscle Depth and Backfat Depth
Retail Value	An economic indicator of the collective value of Fillet, Striploin, Rump, Topside, Silverside and Knuckle at 600 days of age and a standard carcase weight of 350kgs.

NB: Using Calving Ease and Maternal Calving Ease

Calving Ease EBV *Predicts how easy a bull's own calves will be born.*
Maternal Calving Ease EBV *Predicts how easily a bull's daughters will calve.*

To search the Limousin database by Breeder, by EBVs/GEBVs and/or by Individual Animal go to www.taurusdata.co.uk and click on 'Beef Search'

For more information on EBVs and GEBVs please go to www.limousin.co.uk and click on 'Performance Programmes' or get in touch on the numbers below.

Herd Health at British Limousin Cattle Society Sales

The Calogale Dispersal sale on Friday the 11th December 2026 is a DISPERSAL sale.

Premier Collective and Collective Sales and Society Sale of Weaned Calves (Carlisle, December).

Introduction

Herd health rules were introduced by the BLCS at Premier Collective and Collective Sales and the Society Sale of Weaned Calves (Carlisle, December) to standardise herd health declarations and information presented in order to provide both members and customers with clear, accurate herd health information at the point of sale and within the given sale catalogue. As such it is attractive and informative for customers and aims to further raise the level of buyer confidence.

BLCS Premier Collective Sales are Stirling February (bulls) & October (bulls); Carlisle February (bulls), May (bulls), October (bulls) & December (Red Ladies sale); Brecon May (bulls) & November (bulls).

BLCS Collective Sales are Ballymena February (bulls), May (bulls) & October (bulls); Stirling May (bulls); Carlisle June (bulls).

Part 1. Herds selling at the Premier Collective Sales, Collective Sales and the Society Sale of Weaned Calves (Carlisle, December) have to be members of, and adhering to, the terms of a CHeCS approved Herd Health Scheme and at a minimum they must have had a whole herd test for Johne's Disease with a CHeCS approved Herd Health Scheme and must be a Johne's Risk Level 1*- 4.

Part 2. All animals male and female, including calves at foot, presented at the Premier Collective and Collective Sales are required to be EITHER from a BVD Accredited Herd within a CHeCS approved Herd Health Scheme OR to have been BVD tested virus free. Pregnant animals must have had testing and any vaccination completed prior to service. Vaccination of calves at foot to be in accordance with CHeCS guidelines and recommendations.

For the Society Sale of Weaned Calves (Carlisle, December), calves are not required to be vaccinated for BVD. Calves from non-BVD accredited herds are required to have been BVD tested virus free. Calves from BVD Accredited Herds are not required to have been BVD tested virus free.

Herd Health Declaration
The sale entry form is accompanied by a Herd Health Declaration form asking vendors questions for example: TB status; membership of CHeCS (www.checs.co.uk) health schemes (AFBI Cattle Health Scheme, HiHealth Herdcare (Biobest), & Premium Cattle Health Scheme (SRUC) and Johne's, BVD, IBR and Lepto status. Online entries also require the Herd Health Declaration form to be completed.

Is the Herd Health Declaration compulsory?
The Herd Health Declaration is compulsory at all Premier Collective and Collective Sales and the Society Sale of Weaned Calves (Carlisle, December). For reasons of clarity and to provide purchasers with the most accurate information available, vendors are required to complete this at time of entry.

What other health information may be displayed?
It should be noted that the Herd Health information provided in the catalogue relates to whole herd status. Information relating to specific animals entered in the sale should be requested from the vendor.

Vendors are encouraged to apply to their respective CHeCS health scheme for individual animal health cards for display on pens. For an individual animal's test results, or vaccination histories, regarding BVD, IBR, Lepto or Johne's, these are permitted above the sale pens only upon presentation of a signed veterinary declaration to verify that the animal concerned has had a clear test.

The Society has requested that no declarations on health information be given by the auctioneer during the sale. Again, the sole purpose of this is to avoid confusion and to try and ensure that the information provided is done accurately, fairly and in a standardised format in the catalogue. This point has been agreed with the auctioneers.

Johne's Risk Levels
It is a condition of BLCS Premier Collective and Collective Sales and the Society Sale of Weaned Calves (Carlisle, December) that animals from herds that are Johnes Risk Level 5 are not permitted to be sold.

Should you have any queries regarding the Johne's Risk Level classification, please contact your respective CHeCS health scheme.

Breeders, Production, Reduction Sales

BLCS Breeders Sales are Stirling February (females), May (females) & October (females); Carlisle February (females), May (females) & October (females); Brecon May (females) & November (females); Ballymena February (females), May (females) & October (females); Thainstone Multibreed (bulls and females).

Part 1. Vendors at official Society Breeders, Production and Reduction Sales are required to complete a Herd Health Declaration form at time of entry. A condensed version of the given herd health information will appear in the Vendors' Index in the respective catalogue.
All information provided is supplied by the vendor and it is their responsibility to ensure all the details are correct.

Part 2. All animals presented for sale at official Society Breeders, Production and Reduction Sales are required to be EITHER from a BVD Accredited Herd within a CHeCS approved Herd Health Scheme OR to have been BVD tested virus free. Pregnant animals must have had testing and any vaccination completed prior to service. Vaccination of calves at foot to be in accordance with CHeCS guidelines and recommendations.

Sale types and entry requirements:

	Premier	Collective	Breeders	Weaned Calves	Club*

Must be Registered or Birth Notified within 28 Daysif born after 01 January 2020	✓				
Subject to Upset Price	✓	✓			✓
Subject to Inspection	✓	✓			

*Individual Club Sale rules may vary

What if a vendor is selling an animal/s that is not home bred or born on another holding?
Vendors are still requested to fill in the Herd Health Sale Declaration accordingly. Prospective customers are still advised to speak to vendors directly regarding additional health information available.

The herd an animal is sold from must have had a whole herd test, for Johne's disease through a CHeCS licenced scheme and in adherence with that scheme's terms.
Animals may not be sold at Society Premier Collective and Collective Sales and the Society Sale of Weaned Calves (Carlisle, December) sale, if the herd of origin (i.e. the holding where the calf was born) has no Johne's status or a status of Risk Level 5.

Any animal bred by a person other than the vendor or born on a holding separate to the vendor's main herd will have the Johne's status of the herd/holding of origin at the time of sale stated in the sale catalogue, along with the Johne's status of the vendor's herd.

The catalogue will indicate who bred the animal if it has not been bred by the vendor. These measures comply with the requirements of CHeCS and the information must be provided by the vendor upon entry of an animal to a sale.

What if a vendor is selling an animal/s managed on a holding other than the vendors?
Any animal that has been managed on a holding other than the vendor's immediately prior to sale will have the Johne's status of that holding stated in the sale catalogue along with the Johne's status of the vendor's herd. These measures comply with the requirements of CHeCS and the information must be provided by the vendor upon entry of an animal to a sale.

Feedback & more information
If you have any questions, please speak to Society representatives, Council representatives or the Auctioneers.

LIMOUSIN

HOW TO USE GENETIC INFORMATION IN THIS CATALOGUE

Sale catalogues contain specific information relating to the genetics of each animal. This is a short explanatory note to assist when selection decisions are being made.

1 Birth Type

'Got by AI' indicates whether the calf was a result of an AI service. If blank, the dam was naturally served. 'Natural calf' indicates the calf was born to its biological dam. 'ET calf' indicates the calf was born as a result of embryo transplant.

2 Myostatin

"Not tested" indicates that no Myostatin test is currently available for the animal. Full details on the Myostatin variants and their effects on performance can be found on the Limousin Society website www.limousin.co.uk, search in 'performance programmes'. In summary:

The Variants:

F94L	Animals with two copies of this gene (ie F94L/F94L) exhibit an increase in muscling (by up to 19%) with **no** associated increased in calving difficulty, lowered fertility or longevity and by far the majority of animals in the breed carry this gene. Heterozygous animals (those with one copy of the gene) also exhibit these characteristics but not to the same degree.
NT821	Animals with two copies of the gene (ie nt821/nt821) will exhibit characteristics of larger loin depths, reduced fat depths and large, rounded rump and thighs. However, unlike F94L, animals with two copies may also have slightly heavier birth weights bringing with it the potential for more difficult calvings, If animals are 'heterozygous' with F94L (ie F94L/nt821) they will still exhibit quality carcase characteristics but are less likely to be affected by more difficult calvings.
Q204X	Animals with two copies of the gene (ie Q204X/Q204X) will exhibit characteristics of larger loin depth, reduced fat cover and greater meat tenderness. However, they may also have the potential to exhibit larger birth weight and, if females, slightly reduced milking ability. Animals that are 'heterozygous' with F94L (ie F94L/Q204X) will still exhibit quality carcase characteristics but are less likely to be affected by larger birth weights and reduced milking ability.

Two further variants of Myostatin exist in the population but are relatively uncommon in their occurrence. Known as nt419 and E291X, their effects are similar to nt821 and Q204X respectively.

The recognised benefits of Myostatin are:

- ✓ **Increased Meat Yield –** by up to 19%.
- ✓ **More feed efficient**
- ✓ **Higher meat quality** – increased tenderness, reduced fat content, higher polyunsaturated fats

Using Myostatin information

An important factor to remember is that carcase traits (muscling, fat cover etc), calving traits and milk traits in cattle are controlled by MANY genes. Myostatin is only one of them and, as such, it is <u>not</u> an absolute predictor of an animal's performance.

A Myostatin genotype is a further bit of information that may help your decision, but it should be used in conjunction with wider information such as Estimated Breeding Values (EBVs), which bring together information of actual performance from the animal itself, its herdmates and its relatives to predict genetic merit, and your own judgment on type and pedigree.

3 Genetic Colour

Colour and polled/horned genes typically come in pairs called alleles. One is inherited from the sire and one from the dam. Where an animal's alleles are the same, it is said to be 'Homozygous' (Hom.) Where the alleles are different (because there is more than one variant of the gene, the animal is said to be 'Heterozygous' (Het.)

"Hom. Red" – animals will be red and will pass on red genes.

"Hom. Black" – animals will be black and will pass on black genes. All calves will be black, since black colour genes are dominant.

"Het. Black" – animals will be black and will pass on either a red or black gene.

"Het. Red" – animals will be red and will pass on a red gene or a colour gene known as the 'wild type' that is non-colour determinate. (The coat colour of calves inheriting the wild type gene will be governed by the gene they inherit from the other parent. It is rare, but it is also possible for an animal to be homozygous for the wild type gene, in which case they will be reddish/brown to brownish/black).

4 Genetics for Horned/Polled Status

A bull that is "Hom. Polled" - will be polled himself and all calves will be polled (since he only has polled genes to pass on and they are dominant).

A bull that is "Het. Polled" – will be polled himself and will produce some polled and some horned calves (assuming the cows are all horned).

A bull that is "Hom. Horned" – will be horned himself and will pass only horned genes to his calves.

For more information on both Genetic Colour and Polled/Horned, go to www.limousin.co.uk, search in 'performance programmes' or scan the QR code above.

5 Estimated Breeding Values and Genomic Estimated Breeding Values (EBVs & GEBVs)

EBVs & GEBVs are expressed in the same unit as the recorded trait (eg kgs for 400 Day Weight, mm for Muscle Depth etc) are relative to the Breed Average.

a) **In sale catalogues, Breed Average for each trait is represented by the vertical line that is central on the bar chart...** a

- ✓ Bars that lie to the right of that line indicate EBVs/GEBVs that are above average. The further to the right they lie, the higher above Breed Average they are.
- ✓ Equally, bars that lie to the left of the line indicate EBVs/GEBVs that are below Breed Average. The further to the left they are, the further below Breed Average they are.

b) Accuracy Values (Acc%) are expressed as a % and indicate the quantity and quality of records used to produce each EBV, GEBV or Index. The closer they are to 100%, the more accurate the EBV. Highly accurate values are less likely to change over time. b

c) The numeric EBV & GEBV values on the charts can be used to further refine comparison with the breed using the Breed Benchmark which is updated annually.

For more information on EBVs and GEBVs, go to www.limousin.co.uk and search under 'Breed Improvement' in the main menu or scan the QR code opposite.

EBV, GEBV and pedigree information on all Limousin cattle are just a few internet clicks away…

Step 1: Go to www.taurusdata.co.uk
Step 2: In the 'All Breeds Quick Search' box type the name or ear number of the animal you are interested in or click on the 'Breeder Search' button to look at all animals belonging to or bred by a particular breeder.

The site will then tell you the animal's owner/breeder details, its breeding values, its pedigree and list its progeny with full links to all of their information.

6 Adjusted Weights

These are the 'raw' weights recorded for the animal throughout its early growing stages. They are adjusted for age, but are not adjusted for any other factor such as management, nutrition, dam age, differences between farms etc.

For further information or if you have any query, please let us know - telephone 02476 696500, e-mail info@limousin.co.uk or speak to Society staff and Council members attending the sale.

HEALTH AND SAFETY RULES HARRISON & HETHERINGTON LIMITED NOTICE TO ALL VISITORS AND TRADERS PLEASE READ AND OBSERVE THE FOLLOWING

All visitors and traders on site will be responsible for ensuring that they and their employees or sub-contractors engaged by them comply with all legal requirements, including the Health and Safety At Work etc., Act 1974, The Management of Health and Safety At Work Regulations, The Provision And Use of Work Equipment Regulations, etc.

All visitors and traders will be responsible for ensuring that their operations in no way affect the integrity of the company or its fire, safety or security arrangements and in no way compromise the health and safety and welfare of other visitors to and or employees of Harrison & Hetherington.

Although it is the visitors and traders responsibility to ensure that plant, equipment and systems in work are safe, Harrison & Hetherington Limited reserve the right to ask any visitor or trader to leave the market for any breaches in the Health and Safety Rules and/or Regulations.

Vendors must inform Harrison & Hetherington Limited of any livestock due to attend the market whose temperament, behaviour or condition may call for additional precautions for its safe handling.

When loading or unloading livestock handlers must ensure that the dock and vehicle gates are securely fixed so as to prevent the escape of animals.

Traders are responsible for providing and maintaining suitable livestock handling equipment. They should ensure that livestock handlers are fit, experienced in livestock handling and familiar with the livestock in their charge.

Children must not be permitted in any area where they may be at risk from livestock or machinery.

In the case of bulls, during the period when the show/sale is open to visitors, bulls in stalls or pens should not be left unattended. If the handler is temporarily absent, arrangements should be made with another vendor, steward or member of Harrison & Hetherington staff to oversee the bull until the handler returns.

Handling of Livestock at shows and sales: Harrison & Hetherington Limited recommend that an adult person should accompany any junior person during the showing/ sale of livestock in the ring and reserves the right to intervene at any point if, in the company's opinion, the person showing the livestock is at risk in undertaking that activity.

Passageways must be kept clear at all times during the auction sale. PLEASE DO NOT STAND IN THE SALE RING ENTRANCE AND EXIT PASSAGES.

The auction ring man escapes and refuges must be kept clear at all times.

All portable electrical equipment supplied and/or used by visitors and traders must be safe and fit for the purpose and should have a valid portable appliance test certificate.

AUCTIONEER'S TERMS & CONDITIONS OF SALE

(Incorporating the Auctioneer's Terms and Conditions)

1. The biddings to be regulated by the Auctioneers and the highest bidder, subject to the Vendor's reserve (if any), to be the purchaser. No bid shall be retracted and if any dispute should arise between two or more bidders, the Lot in dispute to be put up again and resold, or the Auctioneers may determine the dispute at their own discretion and their decision shall be final. The Auctioneers reserve the right to refuse the bid of any person without being called upon to give reason for such action.

2. The Purchaser to give his full name and dwelling place and pay for all Lots purchased immediately at the close of sale. No Lot or Lots shall be removed from the sale premises until paid for and a pass-out slip obtained from the Auctioneer's clerk but each and every Lot shall immediately at the fall of the hammer be considered as delivered and be and remain in every respect at the absolute risk and expense of the respective purchaser or purchasers thereof and shall be removed from the sale premises at the purchaser's expense. The right of property shall not pass until the full purchase price is paid.

3. Purchasers paying by cheque must be prepared, if required, to produce a banker's reference. As a result of the Money Laundering Regulations (2003) the auctioneers are unable to accept cash payments in excess of nine thousand pounds sterling for any any single or linked purchase transaction.

4. All statements in the catalogue, or made by the Auctioneers at the time of sale, also the correct identification of the animals, are the entire responsibility of the Vendors. The Auctioneers take no personal responsibility for the correctness of such statements or identities.

5. All statements in the catalogue, or any made by the Auctioneers at the time of sale relating to any veterinary or other tests are to be taken as statements of fact only. No such statements shall guarantee the purchaser of any animal against loss arising from the subsequent reaction of such animal to any test administered after the sale and the Vendors shall not be liable in any way should this occur.

6. All stock is sold subject to the Conditions of Sale recommended for use at markets by the Livestock Auctioneers' Markets Committee for England and Wales except in so far as these conflict with any Special Conditions applicable to the sale of pedigree stock, when the latter Conditions shall prevail.

7. Neither the Vendors nor the Auctioneers will be responsible for any accident or injury to persons or property, through fire or any other cause whatsoever, nor for any damage by animals prior to, during or after the sale.

8. No undertaking by the Auctioneers or their servants to take charge of any Lot or Lots after the sale or to forward them to their destination shall be held to impose upon the Auctioneers any legal obligation or vitiate any of these Conditions.

9. Inasmuch as the Auctioneers act as agents for a disclosed principal they shall not be considered personally responsible for any default on the part of either purchasers or Vendors and the remedy shall be against them only and not against the Auctioneers.

10. If these conditions are unfulfilled, the Vendors or Auctioneers shall have the power to resell the Lots, retaining any surplus and charging any deficiency and expense to the defaulter.

11. You have a right to know how we will use the information you have provided to us. We may share the information with other members of our group and may make this information available to relevant media groups and other interested parties on request. We and other members of the group may contact you by telephone, e-mail, post or fax to inform you of products or services available. If you do not want to be contacted for marketing purposes or do not wish your information to be made available to any other parties please notify us in writing.
